gilvogel@mindspring.com	Gil	get rid of psy-	Vogel	PO BOX 5587	PAHRUMP	NV	89041	Do you know what an administrator is? It is a very knowledgeable person that sets the pace of an organization, that person oversees the creation of the organization's goals and the associated mission statement. Usually known as the CEO, that individual also directs the creation of the job descriptions of all positions below. That official also creates the mechanism by which these directives are followed to a tee. All failures on the down-line are due to his/her faulty mechanism and the subsequent failures at hiring capable subordinates to carry out the leader's directives. The magnitude of the failures expose the ineptitude of that administrator. When a company fails, it almost never is due to the workers. The extremely overpaid administrator is at fault. THE WORKERS ARE THE TRUE ASSETS OF A COMPANY! If a company and it's investors want more profit, all that they have to do is get rid of the upper level officials that cover for each others' incompetence and lower the administration's salary + benefits to a commensurate level. If the company still cannot prosper, then maybe, they are in the wrong business and they need to find and cater to a consumer need that is in demand. Lowering taxes is NOT THE ANSWER. Taxes are needed to finance a government that picks up the slack in down-times for it's citizens. Not enough government income and overspending on unnecessary items leads to default, unreasonable austerity and, eventually, a revolution that replaces the inept, and MOST times, corrupt leaders.
