Planned Parenthood

Subject: Stop discrimination against patients

Dear Planned Parenthood,

I'm writing about the proposed rule that allows providers and other health care workers to deny access to basic health care services, including -- though certainly not limited to -- transgender health services, abortion, and even birth control. This rule, coupled with the newly created "Conscience and Religious Freedom" division within the Office of Civil Rights, would turn the office charged with protecting people throughout the country from discrimination into an office that gives health care workers a license to discriminate against people, simply because of who they are or the services they seek.

If this rule is adopted, it would result in people not getting the care they need -- from people living with HIV seeking treatment to women seeking safe, legal abortions to LGBTQ patients getting basic care for themselves or their families.

This is an egregious attempt to promote discrimination and restrict access to health care, particularly for vulnerable communities that already have trouble accessing it. I urge you to withdraw this dangerous and shameful proposed rule and instead focus your office on protecting access to care.

Sincerely,
Miss JoAnna Jacob

If this rule is adopted, it would result in people not getting the care they need -- from people living with HIV seeking treatment to women seeking safe, legal abortions to LGBTQ patients getting basic care for themselves or their families.

This is an egregious attempt to promote discrimination and restrict access to health care. I would love to see how male members of Congress would react we decided to legislate what kind of health care they can have. Our rates of maternal and infant mortality are already shameful. Now you want to drive those rates even higher? This administration and their toadies in Congress will surely go down in history as the most corrupt this country has ever seen. I urge you to withdraw this dangerous and shameful proposed rule and instead focus your office on protecting access to care.

Sincerely,
Mrs. Cena Buchannon

Fortunately, most licensed health care professionals answer to a higher power than your orange bigotry and hate and the public will hold the AMA responsible for purging anyone breaking the Hippocratic oath. And don't think those not covered under that oath will escape. They will be outed, named and shamed and run out of their profession simply by dint of their inhumanity.

Now, do us a favour and resign.

Sincerely,
Mrs. Briony James

I'm writing about the proposed rule that allows providers and other health care workers to deny access to basic health care services, including -- though certainly not limited to -- transgender health services, abortion, and even birth control. This rule, coupled with the newly created "Conscience and Religious Freedom" division within the Office of Civil Rights, would turn the office charged with protecting people throughout the country from discrimination into an office that gives health care workers a license to discriminate against people, simply because of who they are or the services they seek.

If this rule is adopted, it would result in people not getting the care they need -- from people living with HIV seeking treatment to women seeking safe, legal abortions to LGBTQ patients getting basic care for themselves or their families.

This is an egregious attempt to promote discrimination and restrict access to health care, particularly for vulnerable communities that already have trouble accessing it. I urge you to withdraw this dangerous and shameful proposed rule and instead focus your office on protecting access to care.

Sincerely,
Ms. Jody Miller

Dear Planned Parenthood,

I'm writing about the proposed rule that allows providers and other health care workers to deny access to basic health care services, including -- though certainly not limited to -- transgender health services, abortion, and even birth control. This rule, coupled with the newly created "Conscience and Religious Freedom" division within the Office of Civil Rights, would turn the office charged with protecting people throughout the country from discrimination into an office that gives health care workers a license to discriminate against people, simply because of who they are or the services they seek.

If this rule is adopted, it would result in people not getting the care they need -- from people living with HIV seeking treatment to women seeking safe, legal abortions to LGBTQ patients getting basic care for themselves or their families.

Medical providers should not be able to pick and choose to discriminate against patients and restrict access to health care. The medical provider may be the only person available to provide medical service and such policy could eliminate medical access. If that is true for one person, it is possible potentially for any of us.

I urge you to not promote this reducing health access and increasing discrimination proposed rule. Each of us needs to know what we seek health and medical services that they are available and will be provided to us. DHHS duty is to protect of all patients access to care.

Sincerely,
Ms. Katherine Hoffman
