Planned Parenthood

Subject: Stop discrimination against patients

Dear Planned Parenthood,

I'm writing about the proposed rule that allows providers and other health care workers to deny access to basic health care services, including -- though certainly not limited to -- transgender health services, abortion, and even birth control. This rule, coupled with the newly created "Conscience and Religious Freedom" division within the Office of Civil Rights, would turn the office charged with protecting people throughout the country from discrimination into an office that gives health care workers a license to discriminate against people, simply because of who they are or the services they seek.

If this rule is adopted, it would result in people not getting the care they need -- from people living with HIV seeking treatment to women seeking safe, legal abortions to LGBTQ patients getting basic care for themselves or their families.

This is an egregious attempt to promote discrimination and restrict access to health care, particularly for vulnerable communities that already have trouble accessing it. I urge you to withdraw this dangerous and shameful proposed rule and instead focus your office on protecting access to care.

Sincerely,
Mr. Stuart Cowan

Planned Parenthood

Subject: Stop discrimination against patients

Dear Planned Parenthood,

I'm writing about the proposed rule that allows providers and other health care workers to deny access to basic health care services, including -- though certainly not limited to -- transgender health services, abortion, and even birth control. This rule, coupled with the newly created "Conscience and Religious Freedom" division within the Office of Civil Rights, would turn the office charged with protecting people throughout the country from discrimination into an office that gives health care workers a license to discriminate against people, simply because of who they are or the services they seek.

If this rule is adopted, it would result in people not getting the care they need -- from people living with HIV seeking treatment to women seeking safe, legal abortions to LGBTQ patients getting basic care for themselves or their families.

This is an egregious attempt to promote discrimination and restrict access to health care, particularly for vulnerable communities that already have trouble accessing it. I urge you to withdraw this dangerous and shameful proposed rule and instead focus your office on protecting access to care.

Sincerely,
Mr. Edward Esler

If this rule is adopted, it would result in people not getting the care they need -- from people living with HIV seeking treatment to women seeking safe, legal abortions to LGBTQ patients getting basic care for themselves or their families.

I am a member of the community that could be targeted. I do not believe doctors should be able to deny care to individuals. If they do not believe in treating all people, they should not be doctors. This is an egregious attempt to promote discrimination and restrict access to health care, particularly for vulnerable communities that already have trouble accessing it. I urge you to withdraw this dangerous and shameful proposed rule and instead focus your office on protecting access to care.
