Planned Parenthood

Subject: Stop discrimination against patients

Dear Planned Parenthood,

I'm writing about the proposed rule that allows providers and other health care workers to deny access to basic health care services, including -- though certainly not limited to -- transgender health services, abortion, and even birth control. This rule, coupled with the newly created "Conscience and Religious Freedom" division within the Office of Civil Rights, would turn the office charged with protecting people throughout the country from discrimination into an office that gives health care workers a license to discriminate against people, simply because of who they are or the services they seek.

If this rule is adopted, it would result in people not getting the care they need -- from people living with HIV seeking treatment to women seeking safe, legal abortions to LGBTQ patients getting basic care for themselves or their families.

This is an egregious attempt to promote discrimination and restrict access to health care, particularly for vulnerable communities that already have trouble accessing it. I urge you to withdraw this dangerous and shameful proposed rule and instead focus your office on protecting access to care.

Sincerely,
Ms. Jennifer Roth Gordon

This is an egregious attempt to promote discrimination and restrict access to health care, particularly for vulnerable communities that already have trouble accessing it. I demand you withdraw this dangerous and shameful proposed rule and instead focus your office on protecting access to care.

This is a disgusting explicit allowance of discrimination on a vast array of different grounds. When challenged in court (unless withdrawn before your idiocy gets to that point) if this is not struck down as wildly unconstitutional then the Trump administration has truly broken our court system. We all need Ruth Bader Ginsburg's help. This proposal could potentially set us on the path for creating "separate but equal" medical facilities for minorities. Don't fool yourselves into thinking you're "protecting individual rights" - this isn't wartime, minorities are not willing to give up these basic rights of a civilized society. Protect the pursuit of happiness of all citizens, not the right to discriminate (being unhappy someone is gay is not a valid pursuit of anything other than prejudice).

Sincerely,
Miss Darby Larkin

Planned Parenthood

Subject: Stop discrimination against patients

Dear Planned Parenthood,

I'm writing about the proposed rule that allows providers and other health care workers to deny access to basic health care services, including -- though certainly not limited to -- transgender health services, abortion, and even birth control. This rule, coupled with the newly created "Conscience and Religious Freedom" division within the Office of Civil Rights, would turn the office charged with protecting people throughout the country from discrimination into an office that gives health care workers a license to discriminate against people, simply because of who they are or the services they seek.

If this rule is adopted, it would result in people not getting the care they need -- from people living with HIV seeking treatment to women seeking safe, legal abortions to LGBTQ patients getting basic care for themselves or their families.

This is an egregious attempt to promote discrimination and restrict access to health care, particularly for vulnerable communities that already have trouble accessing it. I urge you to withdraw this dangerous and shameful proposed rule and instead focus your office on protecting access to care.

Sincerely,
Miss Alex Ireland
