Re: Limitations or Exclusions of Abortion Services

Dear Mr. Morgan:

It has come to the attention of the Department of Managed Health Care (DMHC) that some Blue Cross of California (Blue Cross) contracts contain language that may discriminate against women by limiting or excluding coverage for termination of pregnancies. The DMHC has reviewed the relevant legal authorities and has concluded that it erroneously approved or did not object to such discriminatory language in some evidence of coverage (EOC) filings. The DMHC has performed a survey and has discovered that such language is present in EOCs for products covering a very small fraction of California health plan enrollees.

The purpose of this letter is to remind plans that the Knox-Keene Health Care Service Plan Act of 1975<sup>1</sup> (Knox Keene Act) requires the provision of basic health care services and the California Constitution prohibits health plans from discriminating against women who choose to terminate a pregnancy. Thus, all health plans must treat maternity services and legal abortion neutrally.

Exclusions and limitations are also incompatible with both the California Reproductive Privacy Act and multiple California judicial decisions that have unambiguously established under the California Constitution that every pregnant woman has the fundamental right to choose to either bear a child or to have a legal abortion.<sup>2,3</sup> A health plan is not required to cover abortions that would be unlawful under Health & Safety Code § 123468.

<sup>1</sup> Health & Safety Code § 1340, *et seq.*

<sup>2</sup> Consistent with 42 U.S.C. § 18054(a)(6), this letter shall not apply to a Multi-State Plan.

Regardless of existing EOC language, effective as of the date of this letter, Aetna must comply with California law with respect to the coverage of legal abortions.

### Required Action

1. Aetna must review all current health plan documents to ensure that they are compliant with the Knox-Keene Act with regard to legal abortion. This includes plan documents previously approved or not objected to by the DMHC.

In regards to coverage for abortion services, the descriptors cited below are inconsistent with the Knox-Keene Act and the California Constitution. Aetna must amend current health plan documents to remove discriminatory coverage exclusions and limitations. These limitations or exclusions include, but are not limited to, any exclusion of coverage for “voluntary” or “elective” abortions and/or any limitation of coverage to only “therapeutic” or “medically necessary” abortions. Aetna may, consistent with the law, omit any mention of coverage for abortion services in health plan documents, as abortion is a basic health care service.

2. To demonstrate compliance, health plans are directed to file any revised relevant health plan documents (e.g. EOCs, subscriber documents, etc.) with the Department as an Amendment to the health plan’s license within 90 days of the date of this letter. The filing should highlight as well as underline the changes to the text as required by the California Code of Regulations, title 28, §1300.52(d).
