*Attorneys for Plaintiff Jennifer Fletcher*

UNITED STATES DISTRICT COURT  
DISTRICT OF ALASKA

Jennifer Fletcher,

Plaintiff,

vs.

State of Alaska,

Defendant.

Case No. 1:18-cv-00007-HRH

**EXPERT DECLARATION OF LOREN S. SCHECHTER, M.D. IN SUPPORT OF  
PLAINTIFF'S MOTION FOR PARTIAL SUMMARY JUDGMENT**

*Fletcher v. Alaska*, No. 1:18-cv-00007-HRH

I, Loren S. Schechter, M.D., do hereby declare as follows:

**I. PRELIMINARY STATEMENT**

1. I am a board-certified plastic surgeon. I specialize in performing gender confirming surgeries (including chest reconstruction surgeries, genital reconstruction surgeries, and other procedures to feminize or masculinize the face and body, as described in more detail below),<sup>1</sup> and I am a recognized expert in this field.

2. I have been retained by counsel for Plaintiff in the above-captioned lawsuit to provide an expert opinion on: 1) the standards of care for treating individuals diagnosed with gender dysphoria; 2) the safety, efficacy, and cost of gender confirming surgeries as treatment for gender dysphoria; 3) the similarities between surgical techniques to treat gender dysphoria with those utilized for surgical treatment of other diagnoses; and 4) whether the categorical exclusion of transition-related surgical care in the Alaska state employee healthcare plan, AlaskaCare, is consistent with the standards of care for treating transgender individuals diagnosed with gender dysphoria.

---

<sup>1</sup> I refer to this family of procedures as “gender confirmation” or “gender confirming surgeries” because they are one of the therapeutic tools used to enable people to be comfortable living in accordance with their gender identities. Out of the myriad of labels I’ve heard for these procedures—“sex reassignment surgery,” “gender reassignment surgery,” and “sex change operation,” to name but a few—none is as accurate when it comes to describing what is actually taking place as “gender confirmation” or “gender affirmation surgery.” Most, if not all, of the other names used for these procedures suggest that a person is making a choice to switch genders, or that there is a single “surgery” involved. From the hundreds of discussions I have had with patients over the years, nothing could be further from the truth. This is not about choice; it is about using one or more surgical procedures as therapeutic tools to enable people to live authentically.

## II. BACKGROUND AND QUALIFICATIONS

### A. Qualifications

3. The information provided regarding my professional background, experiences, publications, and presentations are detailed in my curriculum vitae (“CV”).

A true and correct copy of my most up-to-date CV is attached as Exhibit A.

4. I received my medical degree from the University of Chicago, Pritzker School of Medicine. I completed my residency and chief residency in plastic and reconstructive surgery and a fellowship in reconstructive microsurgery at the University of Chicago Hospitals.

5. I am currently a Clinical Professor of Surgery at the University of Illinois at Chicago. I also maintain a clinical practice in plastic surgery in Illinois where I treat patients from around the country, as well as from around the world.

6. I have been performing gender confirming surgeries for over 20 years. For the past four or five years, I have been performing approximately 150 gender confirmation procedures every year. I have performed over 500 gender confirmation surgeries during my medical career. Currently, approximately 85-90 percent of the patients in my clinical practice are transgender individuals seeking gender confirmation surgeries.

7. I was a contributing author to the Seventh Version (current) of the World Professional Association for Transgender Health’s (“WPATH”) *Standards of Care for the Health of Transsexual, Transgender, and Gender-Nonconforming People* (“WPATH

SOC”). In particular, I wrote the section focused on the relationship of the surgeon with the treating mental health professional and the physician prescribing hormone therapy.

WPATH is in the midst of drafting the eighth version of the WPATH SOC. I am the co-lead author of the surgical and postoperative care chapter in the eighth version.

8. The WPATH SOC provide clinical guidance for health professionals based on the best available science and expert professional consensus. The purpose of the WPATH SOC is to assist health providers in delivering medical care to transgender people in order to provide them with safe and effective pathways to achieving lasting personal comfort with their gendered selves and to maximize their overall health, psychological well-being, and self-fulfillment.

9. In addition, I have written a number of peer-reviewed journal articles and chapters in professional textbooks about gender confirmation surgeries. In 2016, I published *Surgical Management of the Transgender Patient*, the first surgical atlas (a reference guide for surgeons on how to perform surgical procedures using safe, well-established techniques) dedicated to gender confirming surgeries. A full and complete list of my publications is included in my CV.

10. I am a guest reviewer for the *Journal of Plastic and Reconstructive Surgery*, the *Journal of Reconstructive Microsurgery*, *JAMA Surgery*, and the *Journal of Sexual Medicine*. I also serve on the editorial board of both *Transgender Health* and the *International Journal of Transgenderism*. Each of these publications is a peer-reviewed medical journal.

11. I am actively involved in training other surgeons to perform gender confirmation surgeries. Two years ago I started the surgical fellowship in gender surgery at Weiss Memorial Hospital in Chicago. I am also the Medical Director of the Center for Gender Confirmation Surgery at Weiss Memorial Hospital. In addition, I am the site director for a fellowship in reconstructive urology and gender surgery at Weiss Memorial Hospital, under the auspices of the Department of Urology at the University of Illinois at Chicago.

12. I have given dozens of public addresses, seminars, and lectures on gender confirming surgeries, including many through the American Society of Plastic Surgeons. I have also taught a number of courses through WPATH's Global Education Initiative, which provides training courses toward a member certification program in transgender health for practitioners around the world. In addition, I recently co-directed the first live surgery course in gender confirmation procedures at Mount Sinai Hospital in New York City, and co-directed a second course in March 2019. In November 2017, I was an invited discussant at the Pentagon/Department of Defense during deliberations regarding service of transgender individuals in the military.

13. I am also a former member of the Board of Governors of the American College of Surgeons and a current member of the Board of Directors of the World Professional Association for Transgender Health.

**B. Compensation**

14. I am being compensated at an hourly rate of \$450/hour plus expenses for

my time spent preparing written testimony and reports, and providing local testimony (including deposition or providing hearing testimony by telephone or video-teleconference). I will be compensated a flat daily rate of \$7,500 for any out-of-town deposition or hearing testimony. My compensation does not depend on the outcome of this litigation, the opinions I express, or the testimony I may provide.

### **C. Previous Testimony**

15. In the previous four years, I was retained as an expert witness by the defendant in *Willis v. Flagg*, a medical malpractice case heard in Cook County (IL) Circuit Court. In that case, I testified as an expert witness at trial. I was also retained as an expert witness by the defendant in *Carver v. VanRaalte*, a medical malpractice case heard in Rock Island County (IL) Circuit Court. Again, I testified as an expert witness at trial. In addition, I was retained as an expert in two cases where I was deposed: *Boyden v. State of Wisconsin Dep't of Employee Trust Funds*, No. 3:17-cv-00264 (W.D. Wis.), and *Bruce v. State of South Dakota*, No. 5:17-cv-05080-JLV (D.S.D.). I have not given expert testimony at a trial or at a deposition in any other case in the last four years.

### **III. BASIS FOR OPINIONS**

16. My opinions contained in this declaration are based on all of the following: (1) my clinical experience of over 20 years of caring for transgender individuals; (2) my review and familiarity with relevant peer-reviewed literature;<sup>2</sup> and (3) discussions with

---

<sup>2</sup> I regularly and routinely perform literature searches as an educator, including in my roles as clinical professor of surgery at the University of Illinois, where I participate in fellow, resident, and student education; Director of the Center for Gender Confirmation

colleagues and other experts in the field, including attendance and participation in various educational conferences both nationally and internationally. The research I relied on in preparing this declaration is cited in the footnotes and detailed in the reference list attached as Exhibit B to this declaration.

#### **IV. DISCUSSION**

##### **A. Background on Gender Identity and Gender Dysphoria**

17. The term “transgender” is used to describe a diverse group of individuals whose gender identity, or internal sense of gender, differs from the sex they were assigned at birth.

18. Many transgender individuals experience gender dysphoria at some point in their lives. Gender dysphoria is defined by the Diagnostic and Statistical Manual of Mental Disorders (DSM-V) published by the American Psychiatric Association as “a difference between one’s experienced/expressed gender and assigned gender, and significant distress or problems functioning.” Gender dysphoria is a serious medical condition recognized by the International Classification of Diseases-10 (ICD-10), as well as the forthcoming ICD-11 under the label of gender incongruence, and the DSM-V. Individuals diagnosed with gender dysphoria have an intense and persistent discomfort

---

Surgery at Weiss Memorial Hospital; lecturer for the Global Education Initiative for WPATH; invited lecturer at national and international conferences; co-lead author of the surgery and post-operative care chapter of the upcoming WPATH Standards of Care Version 8; an editor and reviewer for peer-reviewed publications; and a course director for various educational opportunities for WPATH, American Society of Plastic Surgeons, and other organizations.

with the primary and/or secondary sex characteristics of the sex they were assigned at birth. Gender dysphoria can lead to debilitating anxiety and depression, as well as serious incidents of self-harm, including self-mutilation, suicide attempts, and suicide.

19. Appropriate medical care, including mental health services, hormone therapy, and gender confirmation surgeries can help alleviate gender dysphoria. Gender confirmation surgeries, which bring a person's body into better alignment with their gender identity, have been shown to be an effective treatment for gender dysphoria.

**B. Gender Confirming Surgeries are Standard, Medically Accepted, and Medically Necessary Treatments for Gender Dysphoria for Many Transgender People**

20. It is my professional opinion, supported by the prevailing consensus of the medical community, that procedures used to treat gender dysphoria are medically necessary treatments for gender dysphoria for many transgender individuals; these procedures are properly considered as medically necessary, and are not cosmetic in nature; these procedures are safe and effective treatments for gender dysphoria.

***1. Applicable Standards of Care for Treating Gender Dysphoria***

21. WPATH is a non-profit professional and educational organization devoted to transgender health. WPATH's mission is "to promote evidence-based care, education, research, advocacy, public policy, and respect in transgender health."<sup>3</sup> WPATH publishes the WPATH SOC. The WPATH SOC are based on the best available scientific evidence and expert professional consensus. WPATH published the first version of the Standards

---

<sup>3</sup> WPATH, Mission and Vision, <https://www.wpath.org/about/mission-and-vision>.

of Care in 1979. Since that time, the guidelines have been updated through seven versions, reflecting the significant advances made in the understanding, management, and care of transgender individuals. The WPATH SOC are widely recognized guidelines for the clinical management of transgender individuals with gender dysphoria. Most surgeons who regularly treat individuals experiencing gender dysphoria, including myself, practice in accordance with the WPATH SOC.

22. As indicated in the WPATH SOC, effective treatment options for gender dysphoria include mental health care, hormone therapy, and various surgical procedures to align a person's primary and/or secondary sex characteristics with the person's gender identity. (WPATH SOC at 9-10). Surgery is often the last and most considered of the treatment options for gender dysphoria in transgender individuals. Not every transgender person wants, requires, or qualifies for every available surgical procedure. In fact, the WPATH SOC note that "[t]he number and sequence of surgical procedures may vary from patient to patient, according to their clinical needs." (WPATH SOC at 58). Evidence shows that while some transgender individuals do not require surgery, "for many others surgery is essential and medically necessary to alleviate their gender dysphoria. For the latter group, relief from gender dysphoria cannot be achieved without modification of their primary and/or secondary sex characteristics to establish greater congruence with their gender identity." (WPATH SOC at 54-55).

23. The WPATH SOC set forth criteria for initiation of surgical treatment. The Endocrine Society—the leading professional organization devoted to research on

hormones and the clinical practice of endocrinology—has also issued clinical guidelines for the treatment of transgender individuals.<sup>4</sup> The guidelines indicate, that for many transgender individuals, gender confirming surgeries are necessary and effective treatments.<sup>5</sup>

24. The broader medical community, including the American Medical Association, American Psychological Association, American Psychiatric Association, American College of Obstetricians and Gynecologists, American Academy of Family Physicians, and World Health Organization, recognizes that gender confirming surgeries are standard, appropriate, and necessary treatments for many people with gender dysphoria.

## 2. *Surgical Treatments for Gender Dysphoria*

25. For transgender women (women who were assigned male at birth and have a female gender identity), surgical treatment options that are generally accepted in the medical community and are consistent with the WPATH SOC include, but are not limited to:

- Chest reconstruction surgery: augmentation mammoplasty (breast implants);
- Genital reconstruction surgeries: penectomy (removal of the penis), orchiectomy (removal of the testes), vaginoplasty, clitoroplasty, and/or vulvoplasty (creation of female genitalia including the labia minora and majora).

<sup>5</sup> *Id.*

**3. *Gender Confirmation Surgeries are Medically Necessary, Not Cosmetic***

26. The medical community and insurance providers recognize a distinction between surgery which is medically necessary, and cosmetic surgery, which generally is not. No particular procedure is inherently cosmetic or inherently medically necessary; rather, the underlying diagnosis determines whether the procedure is considered cosmetic or medically necessary.

27. With respect to surgical treatments for gender dysphoria, the medical community generally consider those surgeries to be medically necessary. This is true even though the same surgical procedures might be considered cosmetic when performed on someone without a diagnosis of gender dysphoria. Gender confirming surgeries are not cosmetic because, when performed in accordance with the WPATH SOC, they are clinically indicated to treat the underlying medical condition of gender dysphoria. Indeed, as explained further below, the surgical procedures listed above to treat gender dysphoria are similar to surgical procedures performed for other diagnoses (e.g., breast cancer). Because these medically necessary procedures help transgender individuals live and present in a manner more consistent with their gender identity and therefore reduce their gender dysphoria, the professional medical consensus is that these are appropriately categorized as medically necessary.

28. Certain surgical procedures are medically necessary when used to treat gender dysphoria or another medical condition, but are cosmetic when they are used only to alter one's appearance without an underlying medical diagnosis (e.g., a non-

transgender woman obtaining a breast augmentation to improve her self-esteem). While the procedures themselves are technically similar, the reasons for performing the procedures are not. Unlike the transgender patient with gender dysphoria, the non-transgender woman does not have a recognized medical condition for which the surgery performed is a clinically indicated treatment.

**C. Gender Confirming Surgeries are Safe, Effective, and Cost Efficient**

29. The prevailing peer-reviewed clinical research, as well as my own clinical expertise as a plastic surgeon specializing in gender confirmation surgeries, shows that surgical procedures for gender dysphoria are safe and effective, and that many of these procedures are analogous to surgical procedures used to treat other medical conditions.

***1. Gender Confirming Surgeries are Safe***

30. It is my professional opinion, based on my clinical experience and review of available peer-reviewed research, that gender confirmation surgeries are safe. Notably, when performing gender confirmation surgeries, surgeons use many of the same procedures that they use to treat other medical conditions. The fact that the medical community deems these analogous procedures sufficiently safe to treat conditions other than gender dysphoria is by itself more than sufficient to support the safety of those surgeries to treat gender dysphoria. There is no medical basis to conclude that the same surgical procedures are more or less safe simply because they are used to treat gender dysphoria, versus other underlying medical conditions.

31. For example, surgeons regularly perform mastectomies and chest/breast

reconstruction, hysterectomies/salpingo-oophorectomies (which includes removal of the fallopian tubes and ovaries), and orchiectomies to treat individuals with cancer, or a genetic predisposition to cancer (BRCA 1, 2 genes in the case of prophylactic mastectomy or oophorectomy). Similarly, surgeons perform procedures to reconstruct external genitalia for individuals who have certain medical conditions (e.g., cancer) or who have suffered traumatic injuries or disabling infections to their genitalia. This would include procedures to correct conditions such as hypospadias (a disorder in which the urinary opening is not in the typical location on the glans penis), epispadias (a condition where the urethra is not properly developed), exstrophy (where the bladder develops outside the fetus), fournier's gangrene (where tissue dies because of an infection), penile webbing, or buried penis (which can occur as a result of obesity, diabetes, or recurrent infections). This would also include procedures to correct conditions such as congenital absence of the vagina or reconstruction of the vagina/vulva following oncologic resection, traumatic injury, or infection.

## **2. *Gender Confirmation Surgeries Effectively Treat Gender Dysphoria***

32. It is my professional opinion, based on decades of clinical experience, as well as a substantial body of peer-reviewed research, that standard medical surgical treatments for gender dysphoria are effective when performed in accordance with the WPATH SOC.

33. Peer-reviewed studies find that transgender women who undergo one or more gender confirmation surgeries report positive healthcare outcomes. For example, a

peer-reviewed study of transgender women found that those who underwent breast reconstruction surgeries experienced statistically significant improvements in their psychosocial well-being.<sup>6</sup> Another peer-reviewed study of transgender women who had vaginoplasty found that study participants' mean improvement in quality of life after surgery was 7.9 on a scale from one to ten.<sup>7</sup> Another study of transgender women found that surgical interventions were highly correlated with alleviating gender dysphoria.<sup>8</sup> A recent literature review concluded that in appropriately selected individuals, gender confirmation surgery is effective at improving quality of life, overall happiness, and sexual functioning in transgender women who are diagnosed with gender dysphoria.<sup>9</sup> Another recent post-operative and six-month follow-up survey of transgender female patients found improvements in quality of life in a significant majority of patients.<sup>10</sup>

34. The overwhelming majority of patients who obtain gender confirmation

<sup>10</sup> Papadopulos, N.A., et al. Male-to-Female Sex Reassignment Surgery Using the Combined Technique Leads to Increase Quality of Life in a Prospective Study. *Plast Reconstr Surg*. 2017 Aug;140(2):286-294. doi: 10.1097.

surgery in a manner consistent with the Standards of Care are both satisfied and experience a reduction of gender dysphoria. For the vast majority of transgender people who seek such surgery, the surgery is successful at treating gender dysphoria and alleviating a lifelong struggle to find peace of mind and comfort with their bodies.

### **3. *Gender Confirmation Surgeries are Cost Efficient***

35. When billing insurers for reimbursement, health care providers use Current Procedural Terminology (CPT) codes, which are developed and maintained by the American Medical Association. The same code or codes may apply to a particular procedure regardless of whether the procedure is performed on a transgender patient or a non-transgender patient. For example, vaginoplasty may be performed for a non-transgender woman as treatment for congenital absence of the vagina or for a transgender woman with gender dysphoria. The same CPT code(s) may be used for both procedures. The same is true for a subcutaneous mastectomy, which may be performed for a non-transgender woman to reduce her risk of breast cancer or for a transgender man with gender dysphoria.

36. Researchers affiliated with the Johns Hopkins Bloomberg School of Public Health, the Commonwealth of Massachusetts Group Insurance Commission, and the University of Colorado, found access to gender confirmation surgeries through insurance to be a likely cost-effective treatment long-term.<sup>11</sup> Gender confirmation surgery typically

---

<sup>11</sup> William V Padula, Shiona Heru & Jonathan D Campbell, Societal Implications of Health Insurance Coverage for Medically Necessary Services in the U.S. Transgender

results in, at a minimum, a significant reduction of gender dysphoria. Transgender people with gender dysphoria who, for lack of insurance access, are unable to obtain gender confirmation surgeries tend to have higher rates of negative health outcomes such as depression, HIV, drug abuse, and suicidality. These researchers found that the one-time costs of gender confirmation surgeries coupled with standard post-operative care, primary and maintenance care, were overall less expensive at 5- and 10-year marks, as compared to the long-term treatment of the negative health outcomes associated with lack of insurance and resulting healthcare access.<sup>12</sup> Similarly, a RAND Corporation study reported findings that due to discrimination, lack of insurance, and problematic interactions with providers, transgender people often avoid seeking treatment for gender dysphoria and other more common health issues. This avoidance resulted in negative healthcare outcomes and greater potential costs related to treating to those outcomes in the long-term.<sup>13</sup> Additionally, this research confirms that coverage for gender confirmation surgeries is affordable and a nominal percentage of the care offered through group health plans.

## V. SUMMARY OF OPINIONS AND CONCLUSIONS

37. Based on my 20 years of clinical experience performing gender

---

Population: A Cost-Effectiveness Analysis, *J Gen Intern Med*, 31(4), 394–401 (2015). doi: 10.1007/s11606-015-3529-6.

<sup>12</sup> *Id.* at 398.

<sup>13</sup> Schaefer, Agnes Gereben, Radha Iyengar Plumb, Srikanth Kadiyala, Jennifer Kavanagh, Charles C. Engel, Kayla M. Williams, and Amii M. Kress, *The Implications of Allowing Transgender Personnel to Serve Openly in the U.S. Military*. Santa Monica, CA: RAND Corporation, 2016. [https://www.rand.org/pubs/research\\_briefs/RB9909.html](https://www.rand.org/pubs/research_briefs/RB9909.html).

confirmation procedures and caring for transgender individuals, my knowledge of the standards of care and relevant peer-reviewed literature, and my discussions and interactions with experts throughout the world, it is my professional opinion that gender confirmation surgeries are a safe, effective, and medically necessary treatments for gender dysphoria in many transgender individuals. In my experience, the overwhelming number of individuals who undergo gender confirmation procedures describe relief and/or reduction of their gender dysphoria and improvement in their quality of life and overall functioning.

38. Furthermore, based on my clinical and professional experience and my ongoing review of the literature, it is my professional opinion that the denial of necessary medical care is likely to perpetuate gender dysphoria and create or exacerbate other medical issues, such as depression and anxiety, leading to an increased possibility of self-harm, negative health outcomes, and even suicide.

39. In conclusion, it is my professional opinion that the categorical exclusion of transition-related surgical care in the Alaska state employee health plan is 1) inconsistent with the Standards of Care for treating transgender individuals diagnosed with gender dysphoria, 2) inconsistent with the peer-reviewed scientific and medical research demonstrating that gender confirmation surgeries are safe, effective, and more cost efficient treatments for gender dysphoria over the long-term, 3) and inconsistent with expert medical and surgical consensus. To the extent the exclusion is premised on the assumption that gender confirmation surgical care is not medically necessary, that

assumption is wrong. The Standards of Care confirm, based on clinical evidence, that gender confirmation surgeries are medically necessary to help people alleviate the often serious and life-threatening symptoms of gender dysphoria.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct. Executed this 23<sup>rd</sup> day of June, 2019.

American Society of Plastic Surgeons, Practice Management Education Committee

Medicare Carrier Advisory Committee

Chair of the Metro Chicago District #2 Committee on Applicants, American College of Surgeons

American Society of Plastic Surgery, Health Policy Committee

American Society of Plastic Surgery, Patient Safety Committee

**OTHER:**

Guest Reviewer, The Journal of The American College of Surgeons

Guest Book Reviewer, Plastic and Reconstructive Surgery

Editorial Board, Transgender Health

Editorial Board (Associate Editor), International Journal of Transgenderism

Fellow of the Maliniac Circle

Guest Reviewer, Journal of Reconstructive Microsurgery

Guest Reviewer, Journal of Plastic and Reconstructive Surgery

Guest Reviewer, Journal of Sexual Medicine

Guest Editor, Clinics in Plastic Surgery, Transgender Surgery  
(Elsevier Publishing)

Guest Reviewer, The Journal of Plastic and Reconstructive  
Surgery

**PREVIOUS EDITORIAL ROLE:**

Guest Reviewer, EPlasty, online Journal

Module Editor for Patient Safety, Plastic Surgery  
Hyperguide

Editorial Advisory Board, Plastic Surgery Practice

Guest Reviewer, International Journal of Transgenderism

Guest Reviewer, Pediatrics

**PREVIOUS ACADEMIC APPOINTMENT:**

Visiting Clinical Professor in Surgery, The University of  
Illinois at Chicago

Chief, Division of Plastic and Reconstructive Surgery,  
Chicago Medical School, Rosalind Franklin University of  
Medicine and Science

Associate Professor of Surgery, The College of Health  
Professionals, Rosalind Franklin University

Clinical Associate in Surgery, The University of Chicago

**PREVIOUS HOSPITAL COMMITTEES:**

Division Director, Plastic Surgery, Lutheran General Hospital

Division Director, Plastic Surgery, St. Francis Hospital

Medical Staff Executive Committee, Secretary, Advocate  
Lutheran General Hospital

Credentials Committee, Lutheran General Hospital

Pharmacy and Therapeutics Committee Lutheran General  
Hospital

Operating Room Committee, St. Francis Hospital

Cancer Committee, Lutheran General Hospital  
-Director of Quality Control

Risk and Safety Assessment Committee, Lutheran General  
Hospital

Nominating Committee, Rush North Shore Medical Center

Surgical Advisory Committee, Rush North Shore Medical  
Center

Section Director, Plastic Surgery, Rush North Shore Medical  
Center

**PREVIOUS SOCIETY COMMITTEES:**

Board of Governors, Governor-at-large, The American  
College of Surgeons

American College of Surgeons, International Relations  
Committee

Chair, Government Affairs Committee, American Society of  
Plastic Surgeons

President, The Metropolitan Chicago Chapter of The  
American College of Surgeons

2012 Nominating Committee, American Society of Plastic  
Surgeons

Program Committee, The World Society for  
Reconstructive Microsurgery, 2013 Bi-Annual Meeting

President, Illinois Society of Plastic Surgeons

Vice-President, The Illinois Society of Plastic  
Surgeons (formerly the Chicago Society of Plastic  
Surgery)

Vice-President, The Metropolitan Chapter of the American College of Surgeons

American Society of Plastic Surgery, Chairman, Patient Safety Committee

2006-2007 Pathways to Leadership, The American Society of Plastic Surgery

2005 & 2006 President, The University of Chicago Plastic Surgery Alumni Association

2003 Leadership Tomorrow Program, The American Society of Plastic Surgery

Senior Residents Mentoring Program, The American Society of Plastic Surgery

American Society of Maxillofacial Surgery, Education Committee

Alternate Councilor, Chicago Medical Society

American Society of Aesthetic Plastic Surgery, Electronic Communications Committee

American Society of Aesthetic Plastic Surgery, Intranet Steering Committee

American Society of Aesthetic Plastic Surgery, International Committee

Membership Coordinator, The Chicago Society of Plastic Surgeons

The Illinois State Medical Society, Governmental Affairs Council

The Illinois State Medical Society, Council on Economics

Chicago Medical Society, Physician Review Committee -Subcommittee on Fee Mediation

Chairman, Chicago Medical Society, Healthcare Economics Committee

Secretary/Treasurer, The Metropolitan Chicago Chapter of the American College of Surgeons

Scientific Committee, 2007 XX Biennial Symposium WPATH

Local Organizing Committee 2007 WPATH

Secretary, The Chicago Society of Plastic Surgeons

Treasurer, The Chicago Society of Plastic Surgeons

Council Member, The Metropolitan Chicago Chapter of the American College of Surgeons

**INTERNATIONAL MEDICAL SERVICE:**

Northwest Medical Teams  
Manos de Ayuda (Oaxaca, Mexico)

Hospital de Los Ninos (San Juan, Puerto Rico)

**COMMUNITY SERVICE:**

Board of Directors, Chicago Plastic Surgery Research Foundation

**PREVIOUS COMMUNITY SERVICE:**

Board of Directors, Committee on Jewish Genetic Diseases, Jewish United Fund, Chicago, Il

Governing Council, Lutheran General Hospital, Park Ridge, Il

Lutheran General Hospital Development Council, Park Ridge, Il

Lutheran General Hospital Men's Association, Park Ridge, Il

Advisory Board, Committee on Jewish Genetic Diseases, Cancer Genetics Subcommittee, Jewish United Fund, Chicago, Il

Health Care Advisory Board, Congressman Mark Kirk, 10<sup>th</sup>  
Congressional District, IL

Major Gifts Committee, Saint Francis Hospital Development  
Council, Evanston, IL

**Visiting Professor:**

1. University of Utah, Division of Plastic Surgery, November 6-8, 2014.
2. Northwestern University, Division of Plastic Surgery, April 21-22, 2016.
3. The University of North Carolina, Division of Plastic Surgery, March 28-29, 2017
4. Georgetown University, Department of Plastic Surgery, May 17-18, 2017
5. The University of Basel, Basel, Switzerland, August 31-September 1, 2018
6. The Ochsner Health System, January 28-January 30, 2019
7. The University of Toronto, Toronto, Ontario, Canada, February 21-22, 2019
8. The University of Michigan, Ann Arbor, MI (scheduled October 4-5, 2019)

**Invited Discussant:**

1. Department of Defense, Military service by people who are transgender, Invitation from Terry Adirim, M.D., M.P.H. Deputy Assistant Secretary of Defense for Health Services Policy & Oversight, The Pentagon, November 9, 2017
2. Aesthetic Surgery Journal, Invited Discussant May 7, 2019, Journal Club. "What is "Nonbinary" and What Do I need to Know? A Primer for Surgeons Providing Chest Surgery for Transgender Patients."

**Research Interests:**

1. Role of Omental Stem Cells in Wound Healing (Grant: Tawani Foundation)
2. Robotic-Assisted Bilateral Prophylactic Nipple Sparing Mastectomy with Immediate Tissue Expander/Implant Reconstruction (Pending submission to the FDA for Investigational Device Exemption in association with Intuitive Surgical)
3. Transgender Health and Medicine Research Conference, National Institutes of Health, Bethesda, MD May 7-8, 2015

51. American Society of Plastic Surgeons Annual Meeting, October 23-27, 2009, Seattle, WA, "President's Panel: The Future of the Solo Practice-Can We, Should We Survive?"
52. The 12<sup>th</sup> Annual Chicago Trauma Symposium, August 5-8, 2010, Chicago, IL "Management of Complex Injuries"
53. Breast MRI to Define The Blood Supply to the Nipple-Areolar Complex. German Society of Plastic, Reconstructive and Aesthetic Surgery (DGPRAC), Dresden, Germany, September 2010
54. Roundtable Discussion: Electronic Health Records-Implications for Plastic Surgeons, The American Society of Plastic Surgeons Annual Meeting, October 3, 2010, Toronto, CA
55. Breast MRI Helps Define the Blood Supply to the Nipple-Areolar Complex, The American Society of Plastic Surgeons Annual Meeting, October 3, 2010, Toronto, CA.
56. ASPS/ASPSN Joint Patient Safety Panel: Patient Selection and Managing Patient Expectations, The American Society of Plastic Surgeons Annual Meeting, October 4, 2010, Toronto, CA
57. Lunch and Learn: Prevention of VTE in Plastic Surgery Patients, The American Society of Plastic Surgeons Annual Meeting, October 5, 2010, Toronto, CA
58. Breast MRI Helps Define the Blood Supply to the Nipple-Areolar Complex, 16<sup>th</sup> Congress of The International Confederation for Plastic Reconstructive and Aesthetic Surgery, May 22-27, 2011, Vancouver, Canada
59. Breast MRI Helps Define the Blood Supply to the Nipple-Areolar Complex, The 6<sup>th</sup> Congress of The World Society for Reconstructive Microsurgery, WSRM 2011, 29 June-2 July, 2011, Helsinki, Finland
60. Applications of the Omentum for Limb Salvage: The Largest Reported Series, The 6<sup>th</sup> Congress of The World Society for Reconstructive Microsurgery, WSRM 2011, 29 June-2 July, 2011, Helsinki, Finland
61. Successful Tongue Replantation Following Auto-Amputation Using Supermicrosurgical Technique, Poster Session, The 6<sup>th</sup> Congress of The World Society for Reconstructive Microsurgery, WSRM 2011, 29 June-2 July, 2011, Helsinki, Finland

62. The 13<sup>th</sup> Annual Chicago Trauma Symposium, August 25-28, 2011, Chicago, IL  
“Soft Tissue Defects-Getting Coverage”
63. WPATH: Pre-conference Symposium, September 24, 2011, Atlanta, GA  
“Surgical Options and Decision-Making”
64. American Society of Plastic Surgeons Annual Meeting, September 27, 2011,  
Denver, CO Closing Session Lunch and Learn: Pathways to Prevention-Avoiding  
Adverse Events, Part I: Patient Selection and Preventing Adverse Events in the  
Ambulatory Surgical Setting
65. American Society of Plastic Surgeons Annual Meeting, September 27, 2011,  
Denver, CO Closing Session Lunch and Learn: Pathways to Prevention-Avoiding  
Adverse Events, Part III: Preventing VTE
66. XXIV Congresso Nazionale della Societa Italiana di Microchirurgia congiunto con  
la American Society for Reconstructive Microsurgery, October 20-22, 2011,  
Palermo, Sicily: 3 Step Approach to Lower Extremity Trauma
67. XXIV Congresso Nazionale della Societa Italiana Microchirurgia congiunto con la  
American Society for Reconstructive Microsurgery, October 20-22, 2011,  
Palermo, Sicily: Applications of the Omentum for Limb Salvage: The Largest  
Reported Series
68. American Society for Reconstructive Microsurgery, Poster Presentation, January  
14-17, 2012, Las Vegas, NV: Neonatal Limb Salvage: When Conservative  
Management is Surgical Intervention
69. The 14<sup>th</sup> Annual Chicago Trauma Symposium, August 2-5, 2012, Chicago, IL  
“Soft Tissue Defects-Getting Coverage”
70. The Annual Meeting of The American Society of Plastic Surgeons, October 25<sup>th</sup>-  
30, 2012, New Orleans, LA “Reimbursement in Breast Reconstruction”
71. The Annual Meeting of The American Society of Plastic Surgeons, October 25<sup>th</sup>-  
30, 2012, New Orleans, LA “Thriving in a New Economic Reality: Business  
Relationships and Integration in the Marketplace”
72. The 15<sup>th</sup> Annual Chicago Trauma Symposium, August 2-5, 2013, Chicago, IL  
“Soft Tissue Defects-Getting Coverage”

73. 2014 WPATH Symposium, Transgender Health from Global Perspectives, February 14-18, 201, “Short Scar Chest Surgery”
74. 2014 WPATH Symposium, Transgender Health from Global Perspectives, February 14-18, 2014, “Intestinal Vaginoplasty with Right and Left Colon”
75. 24<sup>th</sup> Annual Southern Comfort Conference, September 3-7, 2014, Atlanta, GA, “Gender Confirmation Surgery: State of the Art”
76. The 15<sup>th</sup> Annual Chicago Trauma Symposium, September 4-7, 2014, Chicago, IL “Soft Tissue Defects-Getting Coverage”
77. The Midwest Association of Plastic Surgeons, May 30, 2015, Chicago, IL “Gender Confirmation Surgery: A Single-Surgeon’s Experience”
78. The Midwest Association of Plastic Surgeons, May 30, 2015, Chicago, IL, Moderator, Gender Reassignment
79. the American Society of Plastic Surgeons 2015 Professional Liability Insurance and Patient Safety Committee Meeting, July 17, 2015, “Gender Confirmation Surgery”
80. The American Society of Plastic Surgeons, October 16-20, 2015, Boston, MA From Fee-for-Service to Bundled Payments
81. The American Society of Plastic Surgeons, October 16-20, 2015, Boston, MA Moderator, Transgender Surgery
82. The American Society of Plastic Surgeons, October 16-20, 2015, Boston, MA Efficient Use of Physician Assistants in Plastic Surgery
83. The American Society of Plastic Surgeons, October 16-20, 2015, Boston, MA Patient Safety: Prevention of VTE
84. The World Professional Association for Transgender Health, Objective Quality Parameters for Gender Confirmation Surgery, June 18-22, 2016, Amsterdam, Netherlands
85. The World Professional Association for Transgender Health, Resident Education Curriculum for Gender Confirmation Surgery, June 18-22, 2016, Amsterdam, Netherlands

86. The World Professional Association for Transgender Health, Urologic Management of a Reconstructed Urethra (Poster session #195), June 18-22, 2016, Amsterdam, Netherlands
87. The World Professional Association for Transgender Health, Construction of a neovagina for male-to-female gender reassignment surgery using a modified intestinal vaginoplasty technique, poster session (Poster session #198), June 18-22, 2016, Amsterdam, Netherlands
88. Aesthetica Super Symposium, The American Society of Plastic Surgeons, Genital Aesthetics: What are we trying to achieve?, Washington, DC June 23-25, 2016
89. Aesthetica Super Symposium, The American Society of Plastic Surgeons, Female to Male Gender Reassignment, Washington, DC June 23-25, 2016

99. USPATH, Feb 2-5, 2017, Los Angeles, CA, Vaginoplasty: Surgical Techniques
100. USPATH, Feb 2-5, 2017, Los Angeles, CA, Positioning of a Penile Prosthesis with an Acellular Dermal Matrix Wrap following Radial Forearm Phalloplasty
101. USPATH, Feb 2-5, 2017, Los Angeles, CA, Principles for a
102. Gender Surgery Program
103. USPATH, Feb 2-5, 2017, Los Angeles, CA, Construction of a Neovagina Using a Modified Intestinal Vaginoplasty Technique
104. The 18<sup>th</sup> Annual Chicago Orthopedic Symposium, July 6-9, 2017, Chicago, IL “Soft Tissue Defects-Getting Coverage”
105. The American Society of Plastic Surgeons Annual meeting, October 6-10, 2017, Orlando, FL, Moderator: Genital Surgery Trends for Women
106. The American Society of Plastic Surgeons Annual meeting, October 6-10, 2017, Orlando, FL, Adding Transgender Surgery to Your Practice, Moderator and Speaker
107. The American Society of Plastic Surgeons Annual meeting, October 6-10, 2017, Orlando, FL, Transbottom Surgery
108. 14<sup>th</sup> Congress of The European Federation of Societies for Microsurgery, Belgrade, MA 5-8, 2018 A Novel Approach to IPP Implantation Post Phalloplasty: The Chicago Experience
109. 14<sup>th</sup> Congress of The European Federation of Societies for Microsurgery, Belgrade, MA 5-8, 2018, A Novel Approach for Neovagina Configuration During Vaginoplasty for Gender Confirmation Surgery
110. 14<sup>th</sup> Congress of The European Federation of Societies for Microsurgery, Belgrade, MA 5-8, 2018 Development of a Pelvic Floor Physical Therapy Protocol for Patients Undergoing Vaginoplasty for Gender Confirmation

111. 14<sup>th</sup> Congress of The European Federation of Societies for Microsurgery, Belgrade, MA 5-8, 2018 Establishing Guidelines for Gender Confirmation Surgery: The Perioperative Risk of Asymptomatic Deep Venous Thrombosis for Vaginoplasty
112. The 19<sup>th</sup> Annual Chicago Trauma Symposium, August 16-19, 2018, Chicago, IL "Soft Tissue Defects-Getting Coverage"
113. Midwest LGBTQ Health Symposium, September 14-15, 2018, Chicago, IL "Quality Parameters in Gender Confirmation Surgery"
114. 25<sup>th</sup> WPATH Symposium, November 2-6, 2018, Buenos Aires, Argentina, Poster Session, Proposed Guidelines for Medical Tattoo Following Phalloplasty; An Interdisciplinary Approach
115. 25<sup>th</sup> WPATH Symposium, November 2-6, 2018, Buenos Aires, Argentina, Establishment of the First Gender Confirmation Surgery Fellowship
116. 25<sup>th</sup> WPATH Symposium, November 2-6, 2018, Buenos Aires, Argentina, ISSM Lecture, The Importance of Surgical Training
117. 25<sup>th</sup> WPATH Symposium, November 2-6, 2018, Buenos Aires, Argentina, Tracking Patient-Reported Outcomes in Gender Confirmation Surgery
118. "Theorizing the Phantom Penis," The Psychotherapy Center for Gender and Sexuality's 6<sup>th</sup> Biannual Conference, Transformations, March 29-March 30, 2019, NY, NY

**INSTRUCTIONAL COURSES:**

1. Emory University and WPATH: Contemporary Management of Transgender Patients: Surgical Options and Decision-Making, September 5, 2007 Chicago, IL
2. Craniomaxillofacial Trauma Surgery: An Interdisciplinary Approach, February 16-17, 2008, Burr Ridge, IL
3. Societa Italiana Di Microchirurgia, XXIII Congresso Nazionale della Societa Italiana di Microchirurgia, First Atlanto-Pacific Microsurgery Conference, Modena, Italy, October 1-3, 2009, Moderator: Free Papers, Lower Extremity
4. American Society of Plastic Surgeons Annual Meeting, October 23-27, 2009, Seattle, WA, Moderator: ASPS/ASPSN Patient Panel: Effective Communication- A Key to Patient Safety and Prevention of Malpractice Claims

5. American Society of Plastic Surgeons Annual Meeting, October 23-27, 2009, Seattle, WA, Instructional Course: Strategies to Identify and Prevent Errors and Near Misses in Your Practice
6. American Society of Plastic Surgeons Annual Meeting, October 23-27, 2009, Seattle, WA, Roundtable Discussion: Electronic Health Records-Implications for Plastic Surgeons
7. 10<sup>th</sup> Congress of The European Federation of Societies for Microsurgery, May 2—22, 2010, Genoa, Italy, “The Mangled Lower Extremities: An Algorithm for Soft Tissue Reconstruction.”
8. Multispecialty Course for Operating Room Personnel-Craniomaxillofacial, Orthopaedics, and Spine, A Team Approach, AO North American, June 26-27, 2010, The Westin Lombard Yorktown Center
9. Management of Emergency Cases in the Operating Room, The American Society of Plastic Surgeons Annual Meeting, October 4, 2010, Toronto, CA
10. Surgical Approaches and Techniques in Craniomaxillofacial Trauma, November 6, 2010, Burr Ridge, IL
11. The Business of Reconstructive Microsurgery: Maximizing Economic value (Chair)The American Society for Reconstructive Microsurgery, January 14-17, 2012, Las Vegas, NA
12. Strategies to Identify and Prevent Errors and Near Misses in Your Practice, The Annual Meeting of The American Society of Plastic Surgeons, October 25<sup>th</sup>-30<sup>th</sup>, 2012, New Orleans, LA
13. Strategies to Identify and Prevent Errors and Near Misses in Your Practice, The Annual Meeting of The American Society of Plastic Surgeons, October 11<sup>th</sup>-15<sup>th</sup>, 2013, San Diego, CA
14. Mythbusters: Microsurgical Breast Reconstruction in Private Practice, The Annual Meeting of The American Society of Plastic Surgeons, October 11<sup>th</sup>-15<sup>th</sup>, 2013, San Diego, CA
15. Minimizing Complications in Perioperative Care, The American Society for Reconstructive Microsurgery, January 11-14, 2014, Kauai, Hawaii
16. Genitourinary and Perineal Reconstruction, The American Society for Reconstructive Microsurgery, January 11-14, 2014, Kauai, Hawaii

17. Transgender Breast Surgery, The American Society of Plastic Surgeons, October 16-20, 2015, Boston, MA
18. Gender Confirmation Surgery, The School of the Art Institute (recipient of American College Health Fund's Gallagher Koster Innovative Practices in College Health Award), October 27, 2015, Chicago, IL
19. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Certified Training Course, November 5-7, 2015, Chicago, IL Overview of Surgical Treatment Options
20. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Certified Training Course, November 5-7, 2015 Chicago, IL Surgical Procedures
21. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Certified Training Course, November 5-7, 2015, Chicago, IL Surgical Complications
22. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Certified Training Course, November 5-7, 2015, Chicago, IL Post-operative Care
23. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Certified Training Course, November 5-7, 2015, Chicago, IL Case Discussions: The Multidisciplinary Team
24. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Certified Training Course, January 20-23,2016, Atlanta, GA Overview of Surgical Treatment Options
25. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Certified Training Course, January 20-23, 2016, Atlanta, GA Surgical Treatment Options
26. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Certified Training Course, March 30-April 1, 2016, Springfield, MO, Surgical Treatment Options
27. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Certified Training Course, March 30-April 1, 2016, Springfield, MO, Multi-disciplinary Case Discussion

28. Introduction to Transgender Surgery, ASPS Breast Surgery and Body Contouring Symposium, Santa Fe, NM, August 25-27, 2016
29. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Global Education Initiative Advanced Training Course, September 28, 2016, Ft. Lauderdale, FL
30. Cirugias de Confirmacion de Sexo Paso a Paso, XXXV Congreso Confederacion Americana de Urologia (CAU), Panama City, Panama, October 4-8, 2016
31. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Global Education Initiative Advanced Training Course, December 3, 2016, Arlington, VA
32. PSEN (sponsored by ASPS and endorsed by WPATH), Transgender 101 for Surgeons, January 2017-March 2017
33. Surgical Anatomy and Surgical Approaches to M-to-F Genital Gender Affirming Surgery and the Management of the Patient Before, During and After Surgery: A Human Cadaver Based Course, Orange County, CA, Feb. 1, 2017
34. Gender Confirmation Surgery, ALAPP, 2 Congreso Internacional de la Asociacion Latinoamericana de Piso Pelvico, Sao Paulo, Brasil, 9-11 de marzo de 2017
35. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Global Education Initiative Foundations Training Course, Overview of Surgical Treatment, March 31-April 2, 2017, Minneapolis Minnesota
36. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Global Education Initiative Foundations Training Course, The Multi-Disciplinary Team Case Discussions, March 31-April 2, 2017, Minneapolis, MN
37. Transfeminine Cadaver Course, WPATH, May 19-20, 2017, Chicago, IL
38. Transgender/Penile Reconstruction-Penile Reconstruction: Radial Forearm Flap Vs. Anterolateral Thigh Flap, Moderator and Presenter, The World Society for Reconstructive Microsurgery, June 14-17, 2017, Seoul, Korea
39. Primer of Transgender Breast Surgery, ASPS Breast Surgery and Body Contouring Symposium, San Diego, CA, August 10-12, 2017

40. Confirmation Surgery in Gender Dysphoria: current state and future developments, International Continence Society, Florence, Italy, September 12-15, 2017
41. The American Society of Plastic Surgeons Annual meeting, October 6-10, 2017, Orlando, FL, ASPS/WPATH Joint Session, Session Planner and Moderator
42. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Global Education Initiative Foundations Training Course: Overview of Surgical Treatment, Columbus, OH, October 20-21, 2017
43. Transgender Health: Best Practices in Medical and Mental Health Care. A WPATH Global Education Initiative Advanced Training Course: Medical Care in the Perioperative Period, Aftercare: Identifying Potential Complications, Columbus, OH, October 20-21, 2017
44. Webinar: Gender Affirming Surgeries 101: Explore The Latest Topics in Gender Affirmation Surgery, PSEN, April 18, 2018
45. Course Director: MT. Sinai/WPATH Live Surgery Training Course for Gender Affirmation Procedures, April 26-28, 2018, New York, NY
46. Philadelphia Trans Wellness Conference, Perioperative Care of the Transgender Woman Undergoing Vaginoplasty (Workshop), Philadelphia, PA, August 3, 2018
47. Philadelphia Trans Wellness Conference, Gender Confirmation Surgery (Workshop), Philadelphia, PA, August 3, 2018
48. Gender Confirmation Surgery, 2018 Oral and Written Board Preparation Course, The American Society of Plastic Surgeons, August 16-18, 2018, Rosemont, IL
49. Confirmation Surgery in Gender Dysphoria: Current State and Future Developments, The International Continence Society, Philadelphia, PA August 28, 2018
50. WPATH Global Education Initiative, Foundations Training Course, "Overview of Surgical Treatment," Cincinnati, OH, September 14-15, 2018
51. WPATH Global Education Initiative, Foundations Training Course, "The Multi-Disciplinary Team: Case Discussions," Cincinnati, OH, September 14-15, 2018

52. WPATH Global Education Initiative, Advanced Training Course, “Medical Care in the Perioperative Period After Care: Identifying Potential Complications,” Cincinnati, OH, September 14-15, 2018
53. 25<sup>th</sup> WPATH Symposium, Surgeons Conference, November 1, 2018, Buenos Aires, Argentina, Moderator
54. 25<sup>th</sup> WPATH Symposium, November 2-6, 2018, Buenos Aires, Argentina, Global Education Initiative (GEI): Surgery and Ethics
55. WPATH GEI: Best Practices in Medical and Mental Health Care, Foundations in Surgery, New Orleans, March 22, 2019
56. WPATH GEI: Best Practices in Medical and Mental Health Care, Advanced Surgery, New Orleans, LA, March 22, 2019

**SYMPOSIA:**

1. Program Director, 2011 Chicago Breast Symposium, October 15, 2011, The Chicago Plastic Surgery Research Foundation and The Chicago Medical School at Rosalind Franklin University, North Chicago, IL
2. Fundamentals of Evidence-Based Medicine & How to Incorporate it Into Your Practice, Challenging Complications in Plastic Surgery: Successful Management Strategies, The American Society of Plastic Surgeons, July 13-14, 2012 Washington, DC
3. Understanding Outcome Measures in Breast & Body Contouring Surgery, Challenging Complications in Plastic Surgery: Successful Management Strategies, The American Society of Plastic Surgeons, July 13-14, 2012 Washington, DC
4. Benchmarking Complications: What We Know About Body Contouring Complication Rates from Established Databases, Challenging Complications in Plastic Surgery: Successful Management Strategies, The American Society of Plastic Surgeons, July 13-14, 2012 Washington, DC
5. Special Lecture: VTE Prophylaxis for Plastic Surgery in 2011, Challenging Complications in Plastic Surgery: Successful Management Strategies, The American Society of Plastic Surgeons, July 13-14, 2012 Washington, DC
6. Nipple Sparing Mastectomy: Unexpected Outcomes, Challenging Complications in Plastic Surgery: Successful Management Strategies, The American Society of Plastic Surgeons, July 13-14, 2012 Washington, DC

7. Program Director, 2011 Chicago Breast Symposium, October 13-14, 2012, The Chicago Plastic Surgery Research Foundation and The Chicago Medical School at Rosalind Franklin University, North Chicago, IL
8. Practice Strategies in a Changing Healthcare Environment, Moderator, Midwestern Association of Plastic Surgeons, April 27-28, 2013, Chicago, IL
9. Moderator: Breast Scientific Paper Session, The Annual Meeting of The American Society of Plastic Surgery, October 12, 2014, Chicago, IL
10. Moderator: The World Professional Association for Transgender Health, Tuesday, June 21, Surgical Session (0945-1045), June 18-22, 2016, Amsterdam, Netherlands
11. Course Director: Transmale Genital Surgery: WPATH Gender Education Initiative, October 21-22, 2016 Chicago, IL
12. Co-Chair and Moderator: Surgeon's Only Session, USPATH, Los Angeles, CA, Feb. 2, 2017
13. Vascular Anastomosis: Options for Lengthening Vascular Pedicle, Surgeon's Only Session, USPATH, Los Angeles, CA, Feb. 2, 2017
14. Transgender Healthcare Mini-Symposium, Chicago Medical School of Rosalind Franklin University, North Chicago, IL March 10, 2017
15. Moderator: Penile Transplant: Genito-urinary trauma/penile cancer, The European Association of Urologists, Meeting of the EAU Section of Genito-Urinary Reconstructive Surgeons (ESGURS), London, United Kingdom, March 23-26, 2017
16. 25<sup>th</sup> WPATH Symposium, November 2-6, 2018, Buenos Aires, Argentina, Mini-Symposium: A Comprehensive Approach to Gender Confirming Surgery
17. Program Director, 2<sup>nd</sup> Annual Live Surgery Conference for Gender Affirmation Procedures, Ichan School of Medicine at Mt. Sinai, NY, NY February 28, 2019-March 2, 2019
18. Moderator, "Genital Reassignment for Adolescents: Considerations and Conundrums," Discussions on gender affirmation: surgery and beyond, Dignity Health Saint Francis Memorial Hospital and WPATH GEI, San Francisco, CA, May 30-June 1, 2019

19. Moderator, “Reconstructive Urology and Genitourinary Options in Gender Affirming Surgery,” Discussions on gender affirmation: surgery and beyond, Dignity Health Saint Francis Memorial Hospital and WPATH GEI, San Francisco, CA, May 30-June 1, 2019
20. Moderator, “Complications in Masculinizing Genital Reconstruction Surgery,” Dignity Health Saint Francis Memorial Hospital and WPATH GEI, San Francisco, CA, May 30-June 1, 2019
21. Moderator, “Preparing for Surgery and Recovery,” Dignity Health Saint Francis Memorial Hospital and WPATH GEI, San Francisco, CA, May 30-June 1, 2019
22. Discussant, “WPATH Standards of Care Version 8 Preview,” Dignity Health Saint Francis Memorial Hospital and WPATH GEI, San Francisco, CA, May 30-June 1, 2019
