Additional information regarding attempted service, etc.:

Federal Rule of Civil Procedure 45 (c), (d), (e), and (g) (Effective 12/1/13)**(c) Place of Compliance.**

(1) For a Trial, Hearing, or Deposition. A subpoena may command a person to attend a trial, hearing, or deposition only as follows:

- (A) within 100 miles of where the person resides, is employed, or regularly transacts business in person; or
- (B) within the state where the person resides, is employed, or regularly transacts business in person, if the person
 - (i) is a party or a party's officer; or
 - (ii) is commanded to attend a trial and would not incur substantial expense.

(2) For Other Discovery. A subpoena may command:

- (A) production of documents, electronically stored information, or tangible things at a place within 100 miles of where the person resides, is employed, or regularly transacts business in person; and
- (B) inspection of premises at the premises to be inspected.

(d) Protecting a Person Subject to a Subpoena; Enforcement.

(1) Avoiding Undue Burden or Expense; Sanctions. A party or attorney responsible for issuing and serving a subpoena must take reasonable steps to avoid imposing undue burden or expense on a person subject to the subpoena. The court for the district where compliance is required must enforce this duty and impose an appropriate sanction—which may include lost earnings and reasonable attorney's fees—on a party or attorney who fails to comply.

(2) Command to Produce Materials or Permit Inspection.

(A) *Appearance Not Required.* A person commanded to produce documents, electronically stored information, or tangible things, or to permit the inspection of premises, need not appear in person at the place of production or inspection unless also commanded to appear for a deposition, hearing, or trial.

(B) *Objections.* A person commanded to produce documents or tangible things or to permit inspection may serve on the party or attorney designated in the subpoena a written objection to inspecting, copying, testing, or sampling any or all of the materials or to inspecting the premises—or to producing electronically stored information in the form or forms requested. The objection must be served before the earlier of the time specified for compliance or 14 days after the subpoena is served. If an objection is made, the following rules apply:

- (i) At any time, on notice to the commanded person, the serving party may move the court for the district where compliance is required for an order compelling production or inspection.
- (ii) These acts may be required only as directed in the order, and the order must protect a person who is neither a party nor a party's officer from significant expense resulting from compliance.

(3) Quashing or Modifying a Subpoena.

(A) *When Required.* On timely motion, the court for the district where compliance is required must quash or modify a subpoena that:

- (i) fails to allow a reasonable time to comply;
- (ii) requires a person to comply beyond the geographical limits specified in Rule 45(c);
- (iii) requires disclosure of privileged or other protected matter, if no exception or waiver applies; or
- (iv) subjects a person to undue burden.

(B) *When Permitted.* To protect a person subject to or affected by a subpoena, the court for the district where compliance is required may, on motion, quash or modify the subpoena if it requires:

- (i) disclosing a trade secret or other confidential research, development, or commercial information; or

(ii) disclosing an unretained expert's opinion or information that does not describe specific occurrences in dispute and results from the expert's study that was not requested by a party.

(C) *Specifying Conditions as an Alternative.* In the circumstances described in Rule 45(d)(3)(B), the court may, instead of quashing or modifying a subpoena, order appearance or production under specified conditions if the serving party:

- (i) shows a substantial need for the testimony or material that cannot be otherwise met without undue hardship; and
- (ii) ensures that the subpoenaed person will be reasonably compensated.

(e) Duties in Responding to a Subpoena.

(1) Producing Documents or Electronically Stored Information. These procedures apply to producing documents or electronically stored information:

(A) *Documents.* A person responding to a subpoena to produce documents must produce them as they are kept in the ordinary course of business or must organize and label them to correspond to the categories in the demand.

(B) *Form for Producing Electronically Stored Information Not Specified.* If a subpoena does not specify a form for producing electronically stored information, the person responding must produce it in a form or forms in which it is ordinarily maintained or in a reasonably usable form or forms.

(C) *Electronically Stored Information Produced in Only One Form.* The person responding need not produce the same electronically stored information in more than one form.

(D) *Inaccessible Electronically Stored Information.* The person responding need not provide discovery of electronically stored information from sources that the person identifies as not reasonably accessible because of undue burden or cost. On motion to compel discovery or for a protective order, the person responding must show that the information is not reasonably accessible because of undue burden or cost. If that showing is made, the court may nonetheless order discovery from such sources if the requesting party shows good cause, considering the limitations of Rule 26(b)(2)(C). The court may specify conditions for the discovery.

(2) Claiming Privilege or Protection.

(A) *Information Withheld.* A person withholding subpoenaed information under a claim that it is privileged or subject to protection as trial-preparation material must:

- (i) expressly make the claim; and
- (ii) describe the nature of the withheld documents, communications, or tangible things in a manner that, without revealing information itself privileged or protected, will enable the parties to assess the claim.

(B) *Information Produced.* If information produced in response to a subpoena is subject to a claim of privilege or of protection as trial-preparation material, the person making the claim may notify any party that received the information of the claim and the basis for it. After being notified, a party must promptly return, sequester, or destroy the specified information and any copies it has; must not use or disclose the information until the claim is resolved; must take reasonable steps to retrieve the information if the party disclosed it before being notified; and may promptly present the information under seal to the court for the district where compliance is required for a determination of the claim. The person who produced the information must preserve the information until the claim is resolved.

(g) Contempt.

The court for the district where compliance is required—and also, after a motion is transferred, the issuing court—may hold in contempt a person who, having been served, fails without adequate excuse to obey the subpoena or an order related to it.

11 ABC0000002,PROD001,\\IMAGES\001\ABC0000002.tif,,,
12 ABC0000003,PROD001,\\IMAGES\001\ABC0000003.tif,Y,,1
- 13 g. *Bates Numbering.* All images must be assigned a unique and sequential Bates
14 Number. Each party agrees to use the same Bates Numbering format through
15 its entire production unless a new Bates format is necessary, at which point
16 the party using the new Bates Numbering format will inform the other party
17 of the change.
- 18 h. *Protective Order Designations.* Any document(s) determined by the
19 producing party to fall within the scope of a protective order shall have the

23 document(s).
- 24 i. *Native File Productions.* The parties agree that when producing a native file,
25 they will include a TIFF image as a placeholder for the file to represent the
26 file in the production set. The TIFF image placeholder for a native file should
27 be branded with a unique Bates number and state "See Native Document" on
28

1 the TIFF image. The native file should then be renamed to match the Bates
2 number assigned to the document with its original file extension. The
3 filename field produced in the production load file that reflects the original
4 metadata should maintain the original file name. If a native file falls within
5 the scope of a protective order (*see* paragraph (h), above), then the
6 appropriate designation is to be included in the filename along with the
7 assigned Bates number (*i.e.*, ABC000001_CONFIDENTIAL.xls).

14 file.

16 single-page TIFF images and produced consistent with the specifications
17 provided herein. Attachments shall be processed as separate documents, and
18 the text database load file shall include a field in which the producing party
19 shall identify the production range of all attachments of each e-mail.

20 l. *Microsoft PowerPoint and other Presentation Files.* The parties shall process
21 presentations (*e.g.*, MS PowerPoint, Google Presently) to include hidden
22 slides and speaker's notes by imaging in a way that both the slide and the
23 speaker's notes display on the TIFF image.

24 m. *Spreadsheets.* The parties shall produce spreadsheets (*e.g.*, MS Excel,
25 Google Trix) in native format where available. *See paragraph (i) above.* If a
26 spreadsheet requires redaction, the parties will use native file redaction
27 applications (*e.g.*, Blackout).

- 1 n. *Good Cause for Additional Native Files.* If good cause exists to request
2 production of specified files in native format, then the party may request such
3 production and provide an explanation of the need for native file review.
- 4 o. *Other Documents or Data.* If production of certain structured or other
5 electronic data that is not easily converted to static TIFF images, such as
6 databases, CAD drawings, GIS data, videos, audio files, websites, social
7 media, then the parties will meet and confer to discuss an appropriate form
8 of production.
- 9 p. *Social media and other web-based content.* The production of social media
10 or other web-based content should be converted to single-page TIFF images
11 and produced consistent with the specifications provided herein. If the social
12 media and/or web-based content cannot be produced in single-page TIFF
13 images, then the parties shall meet and confer to discuss a form of production.
14 Further, the parties will also confer regarding the specific web location of the
15 social media or other web-based content and agree upon the available
16 metadata that can be produced therewith.
- 17 q. *Color Documents.* Parties will produce documents in black and white, unless
18 to do so would alter or obscure the substance of the document. A party may
19 request that a reasonable number of documents be produced in a color format
20 upon review of the other party's production.in single page JPEG format.
- 21 r. *Redactions.* In the event that a document requires redaction, the parties agree
22 the native file, if applicable, will be excluded from the production. In
23 addition, any redacted text will be omitted from the full text and/or OCR, and
24 any corresponding metadata fields from the production. The TIFF image will
25 readily identify the redactions.

23 documents should be produced as soon as they become available.

24 17. These Requests for Production are deemed to be continuing in nature so as
25 to require that You supplement Your response if You obtain or discover additional
