AMICI'S IDENTITIES AND INTERESTS¹

Amici are 155 current and former athletes in women's sports, the Women's National Basketball Players Association, the Women's Sports Foundation ("WSF"), and Athlete Ally. *Amici* believe in the importance of equal opportunity to participate in primary, secondary, and collegiate athletic programs.

Amici athletes have participated in sports at every level and represent a broad cross section of sports, ranging from tennis to soccer, and ice hockey to surfing. They include Olympians, professional athletes, and intercollegiate athletes. Among the individual *amici* athletes are:

- **Billie Jean King** is the first female athlete to receive the Presidential Medal of Freedom. She was the world's number one ranked tennis player six times and won 39 Grand Slam singles, doubles, and mixed doubles titles. In 1973, she won the "Battle of the Sexes" match against Bobby Riggs. King is the founder of the Women's Tennis Association, the Women's Sports Foundation and the Billie Jean King Leadership Initiative and has been inducted into the International Tennis Hall of Fame and National Women's Hall of Fame.

¹ No party's counsel authored this brief in whole or in part, and no party or party's counsel contributed money that was intended to fund preparing or submitting this brief. No person other than *amici*, their members, or their counsel made a monetary contribution to its preparation or submission.

- **Megan Rapinoe** Two-time World Cup Champion and co-captain of the U.S. Women's National Team, Megan Rapinoe is a fan favorite and one of the team's most technical players. A vocal leader on and off the pitch, Megan helped lead the USWNT to the 2019 Women's World Cup Championship scoring some of the biggest goals of the tournament. Megan took home the tournament's two top honors – the Golden Boot for top scorer, and the Golden Ball for the best player in the tournament. Megan is an advocate for equality for all and has been able to intersect her passion for humanity and authenticity.
- **Layshia Clarendon** Selected #9 overall in the 2013 WNBA Draft, Layshia currently plays for the Minnesota Lynx. Recently re-elected to a second term as WNBPA Vice President she helped negotiate a groundbreaking CBA Agreement that will serve as a bedrock for women's professional sports leagues moving forward. A current member of both 5x5 and 3x3 National Team pools, Layshia captured gold with Team USA in the 2018 FIBA World Championships. In 2017, Layshia was named a WNBA All Star, led the league in total assists and broke the franchise record for assists in a single season. Clarendon is a noted social advocate, speaker and writer.
- **Phaidra Knight** is a former rugby player who was a member of the U.S. National Team from 1999 to 2017. She participated in the 2002, 2006, and 2010 Women's Rugby World Cup, and won All-World Team honors in the

first two World Cups. She was named USA Rugby's Player of the Decade in 2010. On November 10, 2017, she was inducted into the World Rugby Hall of Fame. Phaidra is currently the President of WSF.

- **Natalie Achonwa** is a Canadian professional basketball player for the Minnesota Lynx, member of the Canadian National Team, and WNBPA Treasurer.
- **Meike Babel** is a former professional tennis player from Germany who played on the Women's Tennis Association Tour for ten years. She was Women's Tennis Assistant Coach at Tulane University and at Vanderbilt University.
- **Gwen Berry** is an American track and field athlete and activist. Berry is a two-time Olympian (2016 & 2020) and holds the world record in the weight throw. She is a three-time national champion in the weight throw at the USA Indoor Track and Field Championships. Berry won gold in the hammer at the 2014 Pan American Sports Festival.
- **Pam Boteler** was a top-ranked sprint canoe athlete who, in 2000, became the first woman in the U.S. to compete in sprint canoe against men at the national championships. She continued to race against the men in 2001, winning Gold in the Men's 4-person canoe. In 2002, influenced by her success on the water and lobbying off the water, USA Canoe/Kayak changed its by-laws to allow women to compete at the National Championships equal to the men. For

nearly 20 years, Pam also successfully led a global fight for inclusion and gender equality for women in Olympic Canoeing. Women's canoe events made their debut in Tokyo 2020/2021 Olympics.

- **Rachel Dawson** is an American field hockey player who earned her first senior career cap vs Australia in 2005. Dawson was named to the U.S. Field Hockey Team for the 2008 Summer Olympics, 2012 Summer Olympics and the 2016 Summer Olympics, finishing 8th, 12th, and 5th respectively.
- **Imani Dorsey** is an American professional soccer player who currently plays for Gotham FC of the National Women's Soccer League.
- **Meghan Duggan** is a retired American ice hockey forward who had a 14-year career with Team USA. She competed in three Olympic Games and captained the team in two of those games. She won two silver medals in 2010 and 2014; and captained the team to the gold medal in 2018. She also represented the United States at eight Women's World Championships, capturing seven gold medals and one silver medal. Meghan currently works in the National Hockey League with the New Jersey Devils Organization as the Manager of Player Development. She is also a motivational speaker, a mentor, an advocate, a wife, and a mom.
- **Grete Eliassen** is an American-Norwegian freestyle skier. She is a four-time U.S. Open Champion and has won 6 medals at the Winter X Games in

slopestyle and halfpipe events including back-to-back gold medals in 2005 and 2006. She served as President of WSF from 2017-2018.

- **Sophia Herzog** is a two-time World Champion Paralympic Swimmer and a two-time Paralympian winning silver medal at the 2016 Rio Paralympic Games Rio 2016 and bronze at the 2020 Tokyo Paralympics. She joined the U.S. National Team in 2014.
- **Elena Hight** is a snowboarder who represented the United States in 2006 and 2010 Winter Olympic games. She is also Gold, Silver, and Bronze medalist at the Winter X Games.
- **Briann January** is an American professional basketball player for the Connecticut Sun.
- **Tziarra King** is a professional soccer player who plays as a forward in the NWSL. She was the first women's soccer player from NC State to win the Atlantic Coast Conference's Scholar-Athlete of the Year and has been called in to multiple U.S. Under-23 National Team Camps.
- **Lori Lindsey** is a retired soccer midfielder and former member of the U.S. Women's National Team. She played in the 2011 FIFA Women's World Cup in Germany and was an alternate for the 2012 London Olympics.
- **Esther Lofgren** is an American rower and an Olympic gold medalist. She won the gold medal in the women's eight at the 2012 Summer Games in

London and is an eight-time member of the U.S. National Rowing Team and a seven-time World Championship medalist.

- **Devin Logan** is an American freeskier. She won a silver medal at the 2012 Winter X Games in the slopestyle contest and won a silver medal in the first ever Olympic slopestyle competition held in the 2014 Sochi Winter Olympics.
- **Joanna Lohman** is a retired professional soccer player and former member of the U.S. Women's National Soccer Team.
- **Angel McCoughtry** is an American professional basketball player for the Las Vegas Aces and a two-time Olympic Gold medalist.
- **Kaiya McCullough** is a former professional soccer player who previously played as a defender in the German 2 Frauen-Bundesliga and in the NWSL. McCullough was part of the U.S. Under-18, Under-19, and Under-20 national teams.
- **Alana Meyers Taylor** is a four-time World Champion, eight-time World Championships medalist, three-time Winter Olympian and medalist (2010, 2014, 2018) and 2015 World Cup Champion in bobsled. She is currently training for the 2022 Winter Olympics in Beijing. Meyers Taylor served as President of WSF from 2018-2019.
- **Aimee Mullins** is an actor, model, and public speaker. A former track and field athlete who set three world records in the 100-meter, 200-meter and long

jump events and competed at the 1996 Paralympics in Atlanta. She was President of WSF from 2007-2009, and Chef de Mission of Team USA for the 2012 Games.

- **Margaret “Digit” Murphy** is an innovator and builder in the women’s sports world. She is currently the President of the first professional women’s ice hockey franchise in Canada and prior to that, helped the KHL to build women’s hockey in China in preparation for Beijing hosting the 2022 winter Olympics. Digit has over twenty years of coaching experience since her start at Division I Brown University. She has coached Olympians and All-Americans, earned numerous ECAC and Ivy League titles, and is the founder of United Women’s Sports.
- **Mary Osborne** is a champion long-boarder and professional surfer. She won the Malibu Surfing Association Surf Contest in 2009 and 2010. In 2010, she became the first woman to ride China’s Qiantang River tidal bore, the world’s largest and fastest bore, a roaring river-wave with recorded heights nearing 30-feet.
- **Madeleine Pape** is an Australian former track and field athlete, who competed at the 2008 Beijing Olympics in the 800 meters and won an 800m gold medal at the 2009 Summer Universiade in Belgrade. She is currently a

Postdoctoral Researcher at the University of Lausanne, affiliated with the Institute of Sports Sciences and the Gender Studies Center.

- **Maya Satya Reddy** is a queer South Asian former professional golfer, LGBTQ+ athlete activist and Athlete Ally Ambassador. She was a three-time NCAA All-American and gained status on the Symetra Tour before having to take a step back from the sport due to its exclusive culture and the many harmful experiences she endured.
- **Dawn Riley** is an American sailor, and a pioneer in the sport of sailboat racing. She sailed in three America's Cup races and two Whitbread Round the World races and was the first American, male or female, to do so. She is a former President of WSF.
- **Toccaro Ross** is an international professional basketball player. She has played professionally in Puerto Rico, Ecuador, Colombia, Taiwan, Finland, Romania, Israel, Switzerland, and France. A Chicago native, she played collegiate basketball at Iowa State.
- **Becky Sauerbrunn** is a professional soccer player who plays in the NWSL and the U.S. Women's National team. Sauerbrunn won gold with the national team at the 2012 London Summer Olympics, the 2015 FIFA Women's World Cup, and the 2019 FIFA Women's World Cup.

- **Naya Tapper** is an American rugby player and a two-time World Championship contestant, 2017, 2018. Tapper competed in her first Olympic games at the 2020 Tokyo Games.
- **Jasmine Thomas** is an American professional basketball player for the Connecticut Sun and WNBPA Player Representative.
- **Brenda Villa** is an American water polo player. She is the most decorated athlete in the world of women's water polo. Villa was named Female Water Polo Player of the Decade for 2000-2009 by the FINA Aquatics World Magazine.
- **Sammi Whitcomb** is an Australian-American professional basketball player for the New York Liberty.
- **Sydney Wiese** is an American professional basketball player for the Washington Mystics and WNBPA Player Representative.

A complete listing of *amici* athletes is provided in the enclosed Addendum.

Amici athletes offer valuable perspectives on a core issue in this case: namely, the life-long benefits of equal opportunity and participation in the athletic programs of primary, secondary, and university schools and the value of inclusive and welcoming sports environments. Each *amicus* athlete has in common an appreciation for, and an understanding of the importance of, participation in school sports.

Accordingly, they oppose efforts to single out groups of women and girls from women's sports, which harms the entire sports community.

The **Women's National Basketball Players Association** ("WNBPA") is the union for current women's professional basketball players in the Women's National Basketball Association ("WNBA"). The WNBPA is the first labor union for professional women athletes, created in 1998. The union's purpose is to protect the rights of players, assist them in achieving their full potential on and off the court, and to unite, in a manner that not only promotes a high sense of loyalty among all members but is also diverse, inclusive and a direct reflection of our core principles.

The **Women's Sports Foundation** ("WSF") exists to enable girls and women to reach their potential in sport and life. The organization is an ally, an advocate, and a catalyst. Founded by Billie Jean King in 1974, they strengthen and expand participation and leadership opportunities through research, advocacy, community programming and a wide variety of collaborative partnerships. The Women's Sports Foundation has positively shaped the lives of millions of youth, high school and collegiate student-athletes, elite athletes, and coaches. They are building a future where every girl and woman can #KeepPlaying and unlock the lifelong benefits of sport participation. *All girls. All women. All sports.*®

Athlete Ally believes sport will change the world when it welcomes and empowers all people. As a leading national nonprofit working at the intersection of

sport and LGBTQI+ equality, Athlete Ally works to end the structural and systemic oppression that isolates, excludes, and endangers LGBTQI+ people in sport. They educate individuals and institutions to understand obstacles to inclusion for LGBTQI+ people and how they can build an inclusive culture within their athletic communities. Athlete Ally works to ensure sport governing bodies, teams and leagues adopt policies that reflect the diversity of their constituents. They also incubate athlete activism to advance LGBTQI+ equality in and through sport.

Amici file this brief pursuant to Federal Rule of Appellate Procedure 29(a)(2).

All parties consent to the filing of this brief.

INTRODUCTION

Sports are “a key part of the social and cultural fabric of human life.”² Embedded in our nation’s shared love of athletics is the fundamental principle that anyone can participate in sports, no matter their race, national origin, religion, sexual orientation, or gender identity. That is because sport is “one of the greatest socialization mechanisms in the world — it communicates values without relying on any one language, and its most successful participants are known and respected globally.”³ As women and LGBTQ+ athletes, and organizations that support and advocate for women and LGBTQ+ athletes, *amici* submit that all youth deserve an equal opportunity to participate in school sports alongside their peers. Such equal opportunity benefits not only the youth seeking to participate in school athletics, but the entire sports community as well.

Amici represent a wide range of international, professional, amateur, collegiate, and former high school athletes. All maintain that participation in athletics was essential to their development as leaders and individuals. Their early experiences in sport helped *amici* to develop key skills that have been instrumental to the successes they have cultivated throughout their lives.

² Will A. Jordan, *Black High School Students’ Participation in School-Sponsored Sports Activities: Effects on School Engagement and Achievement*, 68 J. Negro Educ. 54, 54 (1999).

³ *About Athlete Ally*, www.athleteally.org/about (accessed Oct. 4, 2021).

All *amici* believe that every young person should be able to participate fully in sport alongside their peers and gain the benefits that sports participation brings. This is especially important for transgender and intersex youth. Some *amici* also share the harm they experienced when excluded from athletic participation because of who they are and the ways this was detrimental to their emotional and social development, as well as their sense of self and physical well-being.

Amici's experiences, including those of *amici* athletes, leads them to oppose efforts meant to undermine inclusive participation policies, like those adopted by the Connecticut Interscholastic Athletic Conference, that permit transgender youth to participate in school sports like all other students.

ARGUMENT

I. EQUAL OPPORTUNITY TO PARTICIPATE IN SCHOOL SPORTS IS CRUCIAL FOR ALL ATHLETES.

A. Sport Thrives on Diversity.

Participation in school sports brings together a diverse community of student athletes, who share a sense of belonging and connectedness that fosters values of inclusion and empathy. Diversity across athletes' race, LGBTQ+ status, disability, geographical location, and other experiences and identities, enriches the experiences of individual athletes and benefits the entire sports community.

Athletic communities that foster inclusion of young people from different racial backgrounds help athletes embrace racial diversity and support and uplift their

teammates on and off the field. In July 2020, the WNBA and *amicus* WNBPA jointly announced the 2020 WNBA Season as a “Season of Social Justice.” This was marked by the creation of the Social Justice Council, of which *amicus* Layshia Clarendon is a leading member. The Council’s mission to “be a driving force of necessary and continuing conversations about race, voting rights, LGBTQ+ advocacy, and gun control amongst other important societal issues,”⁴ is an example of how diversity in sport can foster long-term solidarity, coalition building, and meaningful social change.

Sports also benefit from the participation of athletes with disabilities. As *amicus* and Paralympic track athlete Aimee Mullins explains,

I think the greatest adversity that we create for ourselves is this idea of ‘normalcy’ as it applies to human beings. There is no normal. There’s common, there’s typical, but there’s no normal. Whether it’s gender, physical or mental ability, or another categorization used to make assumptions about people, sports help break down barriers that society imposes.

Ms. Mullins’ confidence in sharing her experiences and reframing what is possible for all athletes and people has benefitted sports and athletes around the world. She explains how celebrating diversity in sport increases who can benefit from sport and in turn benefit their communities:

⁴ Press Release, Women’s Nat’l Basketball Ass’n, WNBA Announces A 2020 Season Dedicated to Social Justice (July 6, 2020), <https://www.wnba.com/news/wnba-announces-a-2020-season-dedicated-to-social-justice/> (accessed Oct. 4, 2021).

If we can begin to shift away from the mirage of normalcy and instead view deviations from the common through a lens of possibility, we can increase access to sports and all the benefits they provide. So many more potential participants would be invited to engage their rare and valuable abilities, both in sport and in their communities.

Sports also benefit from geographic diversity. Through sports, students can participate with athletes from different parts of their city, different regions in their state, from across the United States, and from around the world. These opportunities help young people learn how to bridge regional, cultural, and national differences. As *amicus* Meike Babel explains, “Playing sport has allowed me to meet people from all over the world, from different cultures, different backgrounds and experiences, and that has fostered respect and open-mindedness towards people who may be different from me.” The love of sport is shared around the world, and that connection serves as a foundation for meaningful relationships and building shared understanding outside of athletics.

Sports also provide an opportunity for LGBTQ+ athletes and their peers to foster acceptance for one another through commitment to shared values of participation and inclusion. As explained by *amicus* Lori Lindsey, “I was grateful that when I came out as a lesbian, I didn't have to step away from the sport I loved. I gained the tremendous gift of being fully myself and showing other LGBTQ+ athletes that there's a place for them in sports.” Ensuring LGBTQ+ athletes' equal opportunity to participate in sports as their authentic selves without fear of rejection

enriches the experience for all athletes. As *amicus* and tennis legend Billie Jean King shares,

There is no place in any sport for discrimination of any kind. I am proud to support all transgender athletes who simply want the access and opportunity to compete in the sport they love. The global athletic community grows stronger when we welcome and champion all athletes – including LGBTQI+ athletes.

Championing diversity in sports provides all student athletes with the opportunity to learn and support people who are different from themselves, a value they carry into their adult lives. As Meike Babel shares,

Trans athletes deserve to play just like any other athlete. We all deserve to experience all the benefits of sports. In my mind, any athlete that fights to be themselves on and off the field or court are role models with inner strength and resiliency. As athletes and as human beings, we learn from each other when we are around people who embrace who they are.

Athletes, and athletics more broadly, are benefitted by the diversity that equal participate creates. Sport thrives on the camaraderie that differences in identity, experience, and ability amplify and enrich.

B. Through Sport, Athletes Develop a Sense of Belonging, Connectedness, and Contribution.

Participation in sports provides student athletes with unique opportunities to develop a sense of belonging, connectedness, and contribution. It also “often means exposing student athletes to a supportive environment that enriches both their love

for their respective sports as well as their interest in school.”⁵ Through sports, athletes access a natural community of peers who are connected through shared goals and the commitment of time, discipline, and hard work they each have undertaken.⁶ These shared experiences extend beyond the rigors of the gridiron, pool, court, or rink and enrich the lives of the athletes for years beyond their athletic endeavors.

As explained by *amicus* Phaidra Knight, her athletic experiences fostered a sense of belonging that has echoed throughout her life:

Sport is the one thing in my life that has really brought me into a full person; the people I have discovered, the pathways it has allowed me to take, my ability to touch and inspire others whose lives I would never have come across. So, it has been amazing. It has been everything for me.

A deep sense of connection and belonging is also created through participation in sports because many student athletes learn that they can be themselves.⁷ Many athletes are celebrated and accepted by their peers and teammates for who they are, thereby building confidence and self-esteem.⁸ The sense of belonging fostered

⁸ See Sara Pedersen & Edward Seidman, *Team Sports Achievement and Self-Esteem Development Among Urban Adolescent Girls*, 28 Psych. Women Q. 419 (2004); see also Carly B. Slutzky and Sandra D. Simpkins, *The link between*

through sport helps student athletes learn that they and their teammates are valued for their differences and unique characteristics.

Through the sense of belonging and connection to their teammates that comes from shared goals and purpose, young people also gain a sense of contribution. *Amicus* Meghan Duggan explains how sport allowed her to contribute to something larger than herself, “I have always wanted to change the world through sports. Playing hockey empowered me and gave me an amazing platform to advocate for the issues that matter the most to me, especially gender equality and LGBTQ+ inclusion.” A sense of connection and contribution in sport permeates all areas of life for student athletes both during their school years and beyond.

II. PARTICIPATION IN SCHOOL SPORTS BENEFITS YOUTH IN ALL AREAS OF LIFE.

Participation in school sports “has an effect on youth and their immediate environment at the school, community and family levels.”⁹ For example, participation in school sports has been shown to result in benefits such as lower social anxiety, lower social isolation, better social self-concept, and improved self-

children’s sport participation and self-esteem: Exploring the mediating role of sport self-concept, 10 Psych. Sport and Exercise 381–389 (2009).

⁹ Martin Van Boekel, et al., *Effects of participation in school sports on academic and social functioning*, 46 J. Applied Dev. Psych. 31–40, 37 (2016).

esteem.¹⁰ Moreover, “many of the skills developed through participation [in school sports] are scaffolded to promote academic and social success.”¹¹ These benefits of participation in sports continue throughout life.

A. Participation Fosters Academic Achievement and Helps Students Manage Pressure.

Research shows that participation in school sports has a documented effect on academic achievement.¹² Indeed, participation in school sports “is associated not only with higher grades, better self-concept, and greater academic self-confidence but also with higher academic achievement.”¹³ School sports programs often require academic eligibility to participate or center such achievement as an ethic within the team or athletic program. Most athletic programs require student athletes to maintain a minimum grade point average to be eligible to participate in games or

¹⁰ Rochelle M. Eime, et al., *A systematic review of the psychological and social benefits of participation in sport for children and adolescents: informing development of a conceptual model of health through sport*, 10 Int’l J. Behav. Nutrition and Physical Activity 98 (2013), at 18.

¹¹ *Id.* at 32.

¹² See, e.g., Scott L. Zuckerman, et al., *The behavioral, psychological, and social impacts of team sports: a systematic review and meta-analysis*, 49 The Physician and Sports Med. 246–261, 253 (2021); Ryan D. Burns, et al., *Sports Participation Correlates With Academic Achievement: Results From a Large Adolescent Sample Within the 2017 U.S. National Youth Risk Behavior Survey*, 127 Perceptual and Motor Skills 448–467 (2020); Kelly Troutman & Mikaela Dufur, *From High School Jocks to College Grads: Assessing the Long-Term Effects of High School Sport Participation on Females’ Educational Attainment*, 38 Youth & Society 443 (2007).

¹³ Jordan, *supra* note 2, at 68.

meets. But many teams go further, making academic achievement at least as important as athletic achievement. In addition, participation in sports “facilitates the socialization of participants helping them to develop a strong work ethic, persistence, and respect for values essential for academic success.”¹⁴ Thus, students who participate in school athletics generally experience better academic achievement and outcomes than those who do not.¹⁵

While athletic participation fosters academic achievement, such participation also helps athletes manage academic and social pressures. Athletic participation eases some of the social pressure to make friends and “fit in” with other youth because athletes enjoy a supportive community of teammates and peers.¹⁶ Participation in athletics also provides a healthy outlet for academic stress, as well as a community of support when youth need it.¹⁷ Learning how to manage pressures early in life provides benefits to athletes beyond their time participating in sports.

¹⁴ Van Boekel, *supra* note 9, at 32.

¹⁷ See Susan Gore, et al., *Sports Involvement as Protection Against Depressed Mood*, 11 J. Rsch. Adolescence 119, 128 (2001).

B. Participation Builds Teamwork, Leadership, and Discipline Skills.

Participation in school sports also enables students to develop skills, including skills related to teamwork, that benefit them throughout life. Students learn how to work as part of a team and that each team member has a distinct and important role to achieve the team's goals.¹⁸ They learn to trust one another and to understand the importance of each team member. *Amicus* Lori Lindsey explains that the value of teamwork to her athletic experience was critical, and she specifically learned “so many incredible lessons from soccer—especially the values of hard work, discipline, and teamwork. These values have carried over into every part of my life, beyond sport.”

Participation in sports provides youth with an opportunity to develop discipline and embrace hard work. Students learn the value of perseverance and drive through countless hours of practice that can lead to team success and personal fulfillment. *Amicus* Meghan Duggan learned about the fulfillment that comes from teamwork, and about the value of working for the common good, which builds life-long skills. She stresses that “every child, regardless of gender identity, should have the chance to access the lifelong skills that sports teach like confidence, perseverance, and leadership.” Teamwork skills are fundamental to success in many facets of life and participation in school sports provides young people with important

¹⁸ Eime, *supra* note 10, at 15, 16.

opportunities to hone and develop these crucial skills.

C. Participation Benefits Social Skills and Emotional Maturity.

Through sports, students develop crucial social skills and emotional maturity. Participation in sports allows students to create and sustain friendships that last a lifetime. Athletes spend considerable time with their teammates, both in practice and games. They navigate pressure-filled intense experiences that often lead to meaningful bonding, connection, and close friendship.¹⁹ As *amicus* Phaidra Knight explains,

My rugby teammates are like a family to me. And with that goes, like a family, the bad things: you get sick of each other, you argue, you have fights, but at the end of the day that is your teammate. And like a family member, you always have their back.

Youth who participate in sports also develop emotional maturity. Through sports, student athletes learn self-control and how to regulate their emotions.²⁰ Students also experience significantly lower levels of emotional problems and less emotional distress because of sports participation.²¹ Participation in school sports supports

¹⁹ Leanne Findlay & Robert Coplan, *Come Out and Play: Shyness in Childhood and the Benefits of Organized Sports Participation*, 40 Canadian J. Behav. Sci. 153 (2008).

²⁰ David Hansen, et al., *What Adolescents Learn in Organized Youth Activities: A Survey of Self-Reported Developmental Experiences*, 13 J. Rsch. Adolescence 25, 47 (2003); see also Findlay, *supra* note 19.

²¹ Sarah Donaldson & Kevin Ronan, *The Effects of Sports Participation on Young Adolescents' Emotional Well-Being*, 41 Adolescence 369, 369–389 (2006).

students' growth and personal development, which benefits them throughout life.

Students' access to mentorship and guidance from their coaches and athletic support staff is another significant benefit of participation in school sports.²² As young athletes in particular, students learn respect for coaching staff and gain mentorship and guidance not just about sport, but about academics and life more broadly. Ms. Knight shared her experience serving as a rugby coach to youth at Riker's Island, transforming from an athlete who received mentorship, to a mentor herself, "I'd set up certain guidelines: No talking when someone else is talking. 'You're going to respect everyone; you're going to respect me.' I hope to someday be able to show how introducing discipline with love and direction can transform an individual." Other *amici* became coaches after retirement from sport and echoed the value of contributing to young people's development as athletes and people. *Amicus* Meghan Duggan "now mentor[s] young athletes, inspiring them to find their voices through hockey" thereby continuing the cycle of mentorship that she experienced.

Athletes also learn to communicate with teammates, peers, coaches, and others, building bridges across differences in experience and perspective.²³

²² See Nicholas Holt, et al., *Benefits and Challenges Associated with Sport Participation by Children and Parents from Low-Income Families*, 12 Psychol. Sport Exercise 490, 490–499 (2011).

²³ Lajeana Howie, et al., *Participation in Activities Outside of School Hours in Relation to Problem Behavior and Social Skills in Middle Childhood*, 80 J. Sch. Health 119–125, 123 (2010).

Participating in sports can also provide young people with a platform to speak about issues they care about and reach their peers in ways they might not otherwise. *Amicus* Kaiya McCullough uses her platform and communication skills she learned through soccer to speak about issues that matter to her:

Soccer has given me a platform to speak out about what is important to me, including calling out systemic racism and transphobia. Black trans women face some of the highest rates of violence and suicidality in the country, and through soccer I can encourage my fans to be more knowledgeable and empathetic.

Perhaps most significantly, student athletes learn the meaning and value of sportsmanship throughout their sporting experience. They learn how to live the values embedded in sportsmanship: fairness, equity, courage, and fellowship. Many athletes learn that sportsmanship does not extend only to opponents or referees, but to their own teammates. Kaiya McCullough also learned from her teammates' unique experiences and identities and discovered that her team was stronger because it was diverse. "Every player on a team brings their own unique experience, and that's what makes a team stronger. I value the friendships I have developed with LGBTQ+ teammates, and I've learned from them how to be a better ally." Athletic participation provides students athletes with many opportunities to learn, develop, and practice their sportsmanship skills that yield life-long benefits.

D. Participation Benefits Physical and Mental Health.

In addition to the many social and psychological benefits that flow from

school sport participation, student athletes gain physical and mental health benefits. Generally, students who participate in school sports take fewer risks and have fewer physical and mental health problems than those who do not.²⁴

Students who participate in sports also experience the benefits of physical activity generally.²⁵ Some of the direct physical benefits include: “positive effects on lipidemia, blood pressure, oxygen consumption, body composition, metabolic syndrome, bone density and depression, increased muscle strength, and reduced damage to the skeleton and muscles.”²⁶ Participation in sport as a young person also fosters continued participation in sport as an adult. This in turn reduces the morbidity and mortality of many diseases that appear later in life and are positively affected by physical activity and exercise.²⁷ Participation in school sports also provides considerable benefit to the mental health of young people including lowering their risk for depressive symptoms.²⁸

Significantly, participation in sport has also been reported to protect against

²⁴ Hans Steiner, et al., *Adolescents and Sports: Risk Or Benefit?*, 39 Clinical Pediatrics 161, 161–166 (2000).

²⁵ Christer Malm, et al., *Physical Activity and Sports—Real Health Benefits: A Review with Insight into the Public Health of Sweden*, 7 Sports 1, 13-14 (2019).

²⁶ *Id.*

²⁷ *Id.*

²⁸ Boone, *supra* note 16, at 79.

feelings of hopelessness and suicidality.²⁹ For transgender youth, who are at considerably higher risk for “suicide and other life-threatening behaviors,” this is particularly important.³⁰ Researchers emphasize that, “good physical and mental health of children and young people participating in sport requires knowledge and organization based on everyone’s participation,” underscoring the need for equal opportunity for all students.³¹

E. Participation Teaches Young People How to Overcome Challenges and Provides Pathways to Success Later in Life.

Athletic participation provides a safe and controlled environment for young people to confront and overcome challenges. The challenges young people confront in the pool, or on the court, field, or course, are opportunities to develop problem-solving skills. Not only does research show that school sports participation promotes the ability to work and persevere, but it also illustrates how “[f]or those who have experienced adverse childhood events—including poverty, disruption in family structure or family deaths, or learning or behavioral problems—sports participation can be a source of resilience and empowerment, protecting against short- and long-

²⁹ Lindsay Taliaferro, et al., *High School Youth and Suicide Risk: Exploring Protection Afforded Through Physical Activity and Sport Participation*, 78 J. Sch. Health 545, 545–553 (2008).

³⁰ See, e.g., Erin Buzuvis, *Transgender Student-Athletes and Sex Segregated Sport: Developing Policies of Inclusion for Intercollegiate and Interscholastic Athletics*, 21 Seton Hall J. Sports & Ent. Law 1, 48 (2011).

³¹ Malm, *supra* note 25, at 13.

term negative impacts to mental health and well-being.”³²

Athletic participation tests student athletes’ resilience and helps them confront and overcome adversity. Like *amicus* Aimee Mullins explains:

As a bilateral below-knee amputee, I spent roughly the first two decades of my life competing against ‘normal’ athletes. Indeed, I had never met another amputee athlete until I was 18 years old. I have never felt defined by the term ‘disabled,’ regardless of what labels others may try to attach to me. Sports have provided a safe and inclusive space for me to grow as both an athlete and a person. Participating in sports created an opportunity to embrace adversity, be better because of it, and ultimately help make society better.

Athletic participation also provides pathways to student athletes experiencing success later in life. Along with support in academic achievement, the ability to manage social and academic pressures, and a clear sense of belonging and connectedness, students are equipped to excel in high stakes and impressive professional roles after their athletic careers have ended. In sum, athletic participation bestows incredible and immediate benefits on young athletes when they are in school and creates a foundation for success thereafter.

III. EXCLUSION FROM SCHOOL SPORTS DEEPLY HARMS THE SOCIAL, EMOTIONAL AND PHYSICAL WELL-BEING OF YOUNG ATHLETES.

A. Discrimination in School Sports Causes Stigma and Harm.

Given the myriad benefits that students who participate in school sports

³² Shoshana K. Goldberg, *Fair Play: The Importance of Sports Participation for Transgender Youth* (Feb. 2021), at 4, <https://ampr.gs/3v7v7xG>.

receive, it is not surprising that discriminatory exclusion from sports inflicts significant stigma and long-lasting harm. Not only does such discriminatory exclusion cause deep harm to student athletes on the receiving end of such treatment, but it also causes lasting negative effects on the athlete's teammates, coaches, school community and sports as an entire institution by denying diversity. Excluding any athlete because of who they are or, where they come from, contravenes the central cultural values of sports in the United States which champions the ethos that "if you can play, you can play."³³

Exclusion from school sports because of a student's race, gender, or LGBTQ+ status is deeply harmful and stigmatizing. Even one experience of exclusion could chill student participation thereby potentially depriving them of a lifetime of benefits.³⁴ As *amicus* Meghan Duggan explains, she was effectively excluded from ice hockey at the professional level after graduating from college "because women were excluded from resources and discouraged from participating." Instead of sacrificing on the ice to build a legacy with her teammates, Duggan was fighting for basic equity:

³³ Yale Athletics, *You Can Play*, YouTube.com (Oct. 4, 2016), <https://youtu.be/wNnM3oBP3uM> (accessed Oct. 4, 2021); You Can Play Project, *University of Connecticut – You Can Play*, YouTube.com (Mar. 1, 2017), <https://youtu.be/ZUb7vg0J3pc> (accessed Oct. 4, 2021).

³⁴ Perri Class, *The Impact of Racism on Children's Health*, The New York Times (Aug. 12, 2019), <https://nyti.ms/3BFdiJ5>.

Women's professional ice hockey continues to struggle because of the lack of resources, visibility, recognition, and support for women in the sport. When I was fighting for equal pay with the U.S. Women's Hockey Team, I was ready to sacrifice a World Championship to stand up for my teammates and the rights we deserved.

For many athletes, sports are presumed to be a place they can forget about their day-to-day pressures and focus on participating in a community of connected peers. Instead of reaping the full benefits of participation, LGBTQ+ athletes worry about rejection for being their authentic selves. Fear and anxiety about other's reactions limits full and meaningful participation and severely diminishes the benefits a young person would otherwise obtain. Painful and stigmatizing experiences with exclusion from school sports only exacerbates the already high rates of discrimination that LGBTQ+ youth face in school environments.³⁵

Exclusion and discrimination because of race, gender and/or LGBTQ+ status harms not only the individual athletes but their teammates, coaches, and the school community more broadly. When any athlete suffers exclusion based on who they are, athletics overall suffers from the loss of fully realized and engaged participation.

B. Exclusion from Participation Causes Harm to Social, Emotional and Physical Well-Being of Young Athletes.

Athletes who are excluded from participation because of discrimination

³⁵ Joseph Kosciw, et al., *The 2019 National School Climate Survey: The Experiences of Lesbian, Gay, Bisexual, Transgender, and Queer Youth in Our Nation's Schools* (2019), https://www.glsen.org/sites/default/files/2020-10/NSCS-2019-Full-Report_0.pdf.

experience harm to their social, emotional, and physical well-being. Student athletes excluded from participation are cut off from a primary point of community, connection, and belonging within their school. These student athletes are denied the ability to bond with their peers or develop personal and social skills that carry through a lifetime.³⁶ Such exclusion also negatively impacts their emotional well-being. Exclusion from participation and the accompanying sense of belonging deeply harms athletes' sense of self and identity within their team, athletic, and larger school community. Not only do the excluded athletes experience such social and emotional harms, but so do their teammates, who also feel the impact and loss of a valued team members' exclusion from participation.³⁷

Student athletes who are excluded from participation also experience harm to their physical well-being. They are denied the positive health outcomes that result from participating in athletics.³⁸ They do not have the same access to healthy coping mechanisms that can reduce stress, anxiety, and depressive symptoms.³⁹ With no alternative, excluded students may turn to unhealthy measures to deal with feelings

³⁶ Expert Declaration of Professor Mary D. Fry, Ph.D., *B.P.J. v. W. Va. State Bd. of Ed.*, No. 2:21-cv-11111 (S.D. W. Va. filed May 26, 2021) (Dkt. 201-4), at ¶ 48.

³⁷ *Id.* at ¶ 47.

of shame and stigma.⁴⁰ Without encouragement and connection to teammates, athletes who were unable to participate lose motivation and are not as likely to engage in planning for their future.⁴¹ Having such a negative experience during a phase of life where habits are developed does long-term harm to student athletes' ability to generate positive associations with physical activity for their future.⁴² Overall, the social, emotional, and physical harms experienced by athletes who are excluded from sport are significant and far reaching.

CONCLUSION

Sports is a critical and beneficial part of the school experience for many students. Athletic participation provides unparalleled opportunities to forge a sense of belonging, connectedness, and contribution. The benefits of sports extend to all aspects of school and throughout life. But these benefits are diminished when some athletes are excluded because of who they are. *Amici's* experiences in sports and in life are a testament to the value of inclusion in building powerful teams and social, societal, and business institutions.
