

United States District Court
For The Southern District of Illinois

Cristina Nichole Iglesias,)
(A.K.A. Cristian Noel Iglesias))
Plaintiff,)

Case No. 3:19-cv-00415-JPG

VS.)

Ian Connors, et al.,)
Defendants,)

Plaintiff's Response & Objections to
Defendant Ian Connors Motion to Dismiss Individual-
Claim,

Comes now, Plaintiff, Cristina Nichole Iglesias,

Pro se Responds & Objects to Defendant Ian Connors
claim of Qualified Immunity,

Ian Connors is the National Inmate Appeals Administrator
which is the last step in the Administrative Remedy
Process. Ian Connors signed Plaintiff's Administrative Remedy.
For that reason alone Ian Connors is responsible
for what response with his signature appears.

An inmate in the Federal Bureau of Prison exhausting
his or her Administrative Remedy has to place the
Administrative Remedy in the U.S. Postal Service -

With a Postage Stamp(s) to the National Appeals Administrator at 320 First Street N.W. Washington, D.C. 20534 Federal Bureau of Prisons. Due to Ian Connors being the National Inmate - Appeals Administrator for the Bureau of Prisons and his signature is on the response, Mr. Ian - Connors is responsible. Qualified Immunity cannot be solely used as an excuse to violate Plaintiff's 8th Amendment Rights of "Medical Deliberate Indifference."

Plaintiff agrees with the Defendant that other staff such as the T.C.C.T and T.C.E and the Director of the Bureau of Prisons, since Plaintiff is in their custody and has the morale Authority to provide proper medical & mental Health treatment. Plaintiff in her Complaint filed for those other staff responsible be held accountable, however the Court stated that Ian Connor was the only Defendant that Plaintiff could sue.

Facts: Plaintiff, who is transsexual female, has been seeking gender affirming surgery since 2016. She has filed 2-X for Gender Affirming Surgery.

due to being in "excruciating Pain" and frustration in the status Que by the Bureau of Prisons. The Anxiety caused by her Gender Dysphoria causes symptoms such as sleeplessness, cold sweats, Panic attacks, mood swings and thoughts of "Auto-Castration". Plaintiff has and continues to experience "Psychological and emotional Pain" due to her not being able to complete who she is.

Plaintiff, does not like the U.S. Government's assertion that Plaintiff believes she needs Gender Affirming Surgery due to believing her Gender dysphoria automatically requires surgery. That statement on Page 7.

C. Gender Affirming Surgery is misleading to the Court because in Plaintiff's Preliminary Injunction Request, she asserts that she has met all requirements of surgery.

Facts: (1) Persistent, well documented gender dysphoria. (2) Plaintiff's response, have well documented Gender-Dysphoria. (3) Capacity to make well informed decision and to consent to treatment. Plaintiff's response, able to make those decisions. (4) Age of majority in a given country. Plaintiff's response, 45 years of age.

(2.) If significant medical or mental health concerns are present, they must be well controlled.

Plaintiff's response, medical and mental health concerns are well controlled,

(5.) 12 continuous months on hormone therapy as appropriate to the patient's gender goals.

Plaintiff's response, on hormone therapy since 2015.

(6.) 12 continuous months of living in a gender role that is congruent with patient's identity.

Plaintiff's response, have done so from 2015 to current.

Please read Administrative Remedy #920251-A1, The T.C.T has acknowledged they have received your parent institution request for you to receive gender reassignment surgery.

Having Gender Dysphoria causes Plaintiff to feel anxiety and depression as well as "emotional-pain". Ian Connors name with signature, is on that response. The U.S. Government response states that the Bureau of Prisons offers a 3 step approach for Gender Affirming surgery.

* Borderline Personality Disorder is well under control. *

This Court does have Jurisdiction because Plaintiff has been at USP-Marion since June 12, 2017 and the fact that Ian Connors works in DC, he works for the Federal Bureau of Prisons and the fact that Ian Connors is the only Inmate Appeals Administrator for the Federal Bureau of Prisons who is the final step in the administrative-Remedy Process makes this Court have Jurisdiction. That is why the PLRA requires inmates to exhaust all Administrative Remedies before going to Court.

Plaintiff has ~~cut~~ cut herself in the past (2009) to attempt at Auto castration. A Plaintiff should not have to Auto castrate or worse die due to staff not giving her adequate and gender affirming surgery for staff to be held liable.

Injunctive Relief is the only way

that the Plaintiff will be able to stop her "excruciating pain" and stop the emotional and frustration, torture, to complete her existence. Plaintiff has met all requirements of Gender Affirming Surgery. The Bureau of Prisons continued delay causes "irreparable Harm" and unwanted infliction of Pain caused by Prison - Officials delay or hindrance by staff proscribed by the 8th Amendment, laser hair removal also causes torture and stress because being called a bearded lady by inmates as well as her gender dysphoria. Having facial hair causes "Pain" (emotional/ing).

Please Note Defendants Federal Bureau of Prisons gave Vanessa Adams in Adams v. BOP No. 1:09 CV 10272 (D. Massachusetts) gave her laser-hair removal as part of her treatment.

Plaintiff has exhausted all Administrative Remedies created by the P.L.R.A.

Transfer to a female Prison has been requested 5 X since 2016 in which Ian Connors signed those responses as well. Being a feminine woman in a males Prison subjects Plaintiff to violence, and sometimes sexual violence. In the Complaint inmates, Peter Langdon is currently at FMC - Devens, biological-male, at a womens Prisons, Vanessa Adams biological male was moved from FCI - Butner-1 to FCI - Dublin, Ca a womens prisons. Being in a males Prison causes me to live outwardly as a male and be treated as a male by staff and causes me stress and being feminine causes me a lot of Problems.

Plaintiff, has clearly demonstrated to this Court that the Federal Bureau of Prisons has and continues to violate her Rights and cause delay and hinder her process to gender affirming surgery, and to give her access to adequate care (medical.)

Therefore, the Plaintiff Request that this Court deny the motion by the Defendant to dismiss Individual Capacity Claim against Ian Connors.

Plaintiff also request this Court grant the Preliminary Injunction Ordering the Federal Bureau of Prisons to grant Plaintiff access to adequate medical care and referral to a qualified surgeon for the sole purpose of Gender Affirming surgery. Then move Plaintiff to female prison.

Plaintiff also ask this Court issue
a Court order as to such.

Respectfully Submitted,

10-12-19

COMPLAINT 1 **Provider:** Morales, Ruben B. MD/CD

Chief Complaint: Chronic Care Clinic

Subjective: This 41 year old white transgender, relatively new here at FCI Fairton, expresses intense desire to obtain secondary female sex characteristics. She wanted to lose her facial hair, waist to get smaller and breast to become bigger. Currently on Estrace but claims that the medication is not giving him the physical changes she wanted to happen. She is asking for premarin in combination with Estrace. She states that she has been taking Estrogen on and off since a age 13 and usually combined it with premarin. **She states that she feels frustrated and anxious for not being able to get what she has been asking for. She states that her ultimate goal is to get a sex change operation and thinks that she could not take that next step without the physical transformation she wanted to happen.**

Asthma: mild, controlled, at treatment goal. No report of wheezing/cough/night symptoms and condition has not interfered with ADL's

TRANSGENDER -

- *overall she is happy with the current hormone prescriptions and the labs are right where we want them as well
- *all meds will be renewed at current doses
- *she is frustrated that her requests for laser hair removal and for sexual reassignment surgery are in limbo
- *we discussed that at this point those procedures are not something we can initiate locally, and we, like her, are waiting for more guidance from the central office
- *a separate Admin Note will be placed on record, with the details of the transgender treatment, that she can use for her petition to change her gender markings

MENTAL HEALTH -- denies any suicidal thoughts or other acute concerns -- working closely with Psychology

ROS Comments

Working with Psychology to help with the gender dysphoria and her strong desire to have her male genitals removed

Other concerns:

-eyeglasses have not arrived

-wants to make sure mammogram is ordered -- she is concerned due to +FH of breast cancer -- reports she does daily self-breast exams and denies any areas of concern

-woke up this morning with "crick" in left upper back/neck

Exam Comments

BMI = 36

Has baseline CXR, EKG, and HIV testing on chart

Had mammogram last October

Recent labs:

-testosterone level 13

*gender dysphoria --discussed this quite a bit today -- she declines offer for antidepressant medication -- says that the sessions with Psychology are helpful but that she really needs the gender affirming surgery -- she understands that there has been no further direction from our central office regarding how/when/where this surgery will be done

Continues on daily aspirin for prevention of CV event and blood clot, at higher risk due to estrogen use

Obesity remains unchanged -- screening regularly for diabetes, dyslipidemia, etc.

Reassured her that glasses have been ordered and we will continue to track this

The "crick" in the neck seems to be a self-limited problem

COMPLAINT 1 **Provider:** Richardson, J. FNP-C

Chief Complaint: Chronic Care Clinic

Subjective: 44 year old transgender inmate here for CCC appointment:

1) TRANSGENDER ~ gets estradiol injection every 2 weeks, and takes self-carry finasteride and spironolactone ~ hormone levels are in desired range (see below)

2) She is continuing to work through the court system for more aggressive treatment ~ laser hair removal, surgery, etc. is currently quite happy with the medication regimen and hormone therapy she is receiving here~ she is working with Psychology and denies being suicidal at this time

3) Also takes aspirin due to elevated cardiovascular risk profile

Care Level 2, no medical restrictions

Immunizations ~ UTD with flu, pneumonia, and tetanus shots

Pain: No

Seen for clinic(s): Endocrine/Lipid, General

Return To Sick Call if Not Improved

Other:

Inmate allergies reviewed and needed updates were applied during this visit -- see Chart: Allergies for current inmate allergy list.

TRANSGENDER -

*overall she is happy with the current hormone prescriptions and the labs are within treatment goals as well

*all meds will be renewed at current doses

*she is still frustrated that her requests for laser hair removal and for sexual reassignment surgery are in limbo

*we discussed that at this point those procedures are not something we can initiate locally, and she understands this and she is actively working to advocate for change at the national level

MENTAL HEALTH -- denies any suicidal thoughts or other acute concerns -- sees Psychology monthly

WEIGHT GAIN -- weight has remained steady since last CCC with MD. she has started working on increasing physical activity but still admits to over eating and making poor food choices. Diet changes discussed today.

*cholesterol is high, but not to the point that a statin is indicated -- Framingham risk score at 1%

*does take aspirin daily for cardiac protective purposes

Date of Birth: 06/10/1974	Sex: M Facility: MAR	Unit Team: UM NORTH
Date: 07/03/2019 10:10	Provider: Owings, Lindsay PhD/SOMP	

Focus of Session

Inmate IGLESIAS presented on time to her scheduled callout.

Subjective/Objective Presentation

She stated her mood was alright and her affect was consistent with the topics discussed. Her speech was normal with regard to rate, tone, and volume. No evidence of delusional thought processes or perceptual disturbances were noted throughout the interaction. Her memory appeared to be intact. She denied suicidal ideation, intent or plan. She continued to acknowledge passive thoughts of self-harm specific to her genitalia and her distress associated with that appendage.

Intervention(s)

Inmate IGLESIAS completed the Trauma and Life workbook and the materials were discussed. She acknowledged she had a difficult time completing it as it brought back a lot of memories but noted she was excited to move forward to seeking safety.

Progress/Plan

Inmate IGLESIAS will continue to be met with individually for care2-mh contacts to assess mental status and provide clinical intervention. She will also be met with for individual seeking safety (notes will be entered in a group as seeking safety is a priority practice approved group but will be offered individually as the empirically supported manual supports the use of the material in that manner).

Inmate Work Assignment: AM Corridor

I am Officially Requesting to receive Approval for laser hair removal on my face, as this was done for other transgender females in the BOP. I am transsexual/transgender female with a current diagnoses of Gender Dysphoria, having facial hair on my face causes me great stress, depression, sadness. This is not a cosmetic procedure for me as a woman transitioning and wanting the sexual reassignment surgery to a female this is medically necessary. Please Approve me to get this procedure.
