1 (PROCEEDINGS, 04/04/2022, 9:00 a.m.)

2 FREDERICK LEWIS,

3 duly sworn, was examined and testified as follows:

4 EXAMINATION

5 BY MS. PRAKASH:

6 Q. Good morning, Mr. Lewis. My name is Anna  
7 Prakash. I am one of the lawyers that is  
8 representing Christopher Fain and Shauntae Anderson  
9 in this lawsuit. I am an attorney with the law  
10 firm of Nichols Kaster in Minneapolis. And my  
11 pronouns are she/her.

12 I'm going to be asking you some questions  
13 today and the one rule that I want you to really  
14 remember is that if you don't understand what I am  
15 asking, can you please ask me to clarify?

16 A. I sure can.

17 Q. Okay. Great. And if you answer my  
18 question, I'm going to assume that you understood  
19 it. Does that make sense?

20 A. Yes.

21 Q. Okay. Great.

22 A. Fair enough.

23 Q. Can you state your full name for the  
24 record?

25 A. Frederick Samuel Lewis.

1 Q. Great. And do you go by Fred?

2 A. I go by Fred. Thank you.

3 Q. And, Fred, do you have -- do you use he/him  
4 pronouns?

5 A. Yes.

6 Q. Okay. And you understand, Mr. Lewis, that  
7 you're designated to testify today on behalf of the  
8 West Virginia Bureau for Medical Services, right?

9 A. I do.

10 Q. Okay. And you are designated with respect  
11 to certain topics. One of them is the relationship  
12 with Mountain Health Trust, UniCare, The Health  
13 Plan, Aetna, and the Rational Drug Therapy Program.  
14 Does that sound right to you?

15 A. Yes.

16 Q. Okay. And are you prepared to testify  
17 about that today?

18 A. I believe so.

19 Q. Okay. And then you are also designated to  
20 testify about the decision to stop excluding  
21 hormone therapy from coverage in 2017 and the  
22 Bureau's experience covering and/or denying  
23 coverage for hormone therapy before and after 2017.  
24 Does that sound right to you?

25 A. Yes.

1 Q. And are you prepared to testify about that  
2 today?

3 A. I believe so, yes.

4 Q. Great. And then you are also designated to  
5 testify about certain discovery responses, written  
6 responses, that were submitted on behalf of the  
7 Bureau for Medical Services. Do you recall being  
8 designated for that?

9 A. Yes.

10 Q. Okay. And are you prepared to talk about  
11 that today?

12 A. Yes.

13 Q. Great. So I understand that you are the  
14 deputy commissioner of Plan Management and  
15 Integrity at the West Virginia Bureau for Medical  
16 Services; is that right?

17 A. That's correct.

18 Q. Okay. And the "Plan" in your title refers  
19 to the West Virginia State Medicaid Plan?

20 A. It refers to the MCOs that we contract  
21 with.

22 Q. Okay.

23 A. Arguably, it could be the state Medicaid  
24 Plan too. I have always related it to the MCOs.  
25 We called them plans.

1 Q. I see. And the MCOs are managed care  
2 organizations?

3 A. Yes.

4 Q. Bureau for Medical Services I'm going to  
5 refer to as "BMS" today so if I say that, will you  
6 understand what I mean?

7 A. Yes.

8 Q. Okay. Great. And how long have you been  
9 the deputy commissioner at BMS?

10 A. Today, I am 10 days shy of four years.

11 Q. And though you referenced the MCOs in  
12 describing what the "Plan" in your title refers to,  
13 are you familiar with the operation of the West  
14 Virginia Medicaid Plan?

15 A. I am, for the most part. There's still  
16 areas I'm learning. I came from outside of  
17 Medicaid, but I think I've learned a lot in the  
18 last four years. So I'm going to give you my best  
19 and if I don't know, I'll tell you.

20 Q. Great. And BMS is within the West Virginia  
21 Department of Health and Human Resources, correct?

22 A. Correct.

23 Q. And that is a state agency, the Department  
24 of Health and Human Resources is?

25 A. Yes.

1 Q. BMS is responsible for the administration  
2 of West Virginia's Medicaid program?

3 A. Yes.

4 Q. Mountain Health Trust is the managed care  
5 program for West Virginia Medicaid, right?

6 A. That's correct. It also is the umbrella  
7 for CHIP participants.

8 Q. And you referenced MCOs earlier. Enrollees  
9 in West Virginia Medicaid who are also in the  
10 managed care program of Mountain Health Trust need  
11 to sign up with an MCO; is that right?

12 A. That's correct.

13 Q. And there are three of them: Aetna Better  
14 Health of West Virginia, The Health Plan, and  
15 UniCare; is that right?

16 A. That's right.

17 Q. And how would you describe the role of  
18 those three MCOs with respect to West Virginia  
19 Medicaid?

20 A. They all are here to manage the Medicaid  
21 membership that has been placed in their custody,  
22 and that happens through the -- through the  
23 members' election to participate with whichever one  
24 of those they may choose. And if they don't  
25 choose, there's an auto selection criteria.

1           The MCOs are here to manage the healthcare  
2 of their members within the parameters of the state  
3 program and consistent with federal and state law  
4 and regulations and the contract.

5           Q.    And that's the contract between BMS and the  
6 MCOs?

7           A.    Correct.

8           Q.    You mentioned auto selection criteria.  If  
9 a member doesn't elect one of the MCOs, can you  
10 describe what happens with respect to auto  
11 selection criteria?

12          A.    It's basically an eeny meeny miny moe.  We  
13 have an enrollment broker that is a neutral party  
14 that will -- they have a computer logic that  
15 basically distributes these members evenly around  
16 all of these plans, trying to keep family units  
17 together.

18                So that's the reason it's maybe not just  
19 strictly, you know, directing each sequential  
20 member to a different plan and continuing, you  
21 know, in a circular fashion.  They try to keep  
22 family units together.

23          Q.    Got it.  What's the name of the enrollment  
24 broker?

25          A.    It's called Maximus.

1 Q. And are you the person at BMS who is in  
2 charge of contracting with the consulting  
3 actuaries?

4 A. I'm one of them. I feel like I share this  
5 with Becky Manning, the Deputy of Finance. We have  
6 overlap in this area. But, yeah, Becky and I are  
7 over this contract. I think I actually signed the  
8 SOWs this time around.

9 Q. And do you know if BMS has ever asked or --  
10 asked for or received from the actuaries any  
11 calculations on how much it would cost to provide  
12 surgery as a treatment for gender dysphoria?

13 A. We have not asked for that in my time here.

14 Q. Are you aware of BMS asking for it at any  
15 point in time prior to you coming to the agency?

16 A. I am not aware. I'm not aware of a lot of  
17 things, though, so...

18 Q. All right. So I understand that the MCOs  
19 must follow coverage limitations required by  
20 Medicaid and can't use Medicaid dollars to  
21 authorize noncovered care. Is that right?

22 A. I think they could use Medicaid dollars as  
23 long as, you know, they're coming from profit or  
24 something. But that's right. We're not  
25 providing -- we're not providing funding to them

1 for the purpose of providing anything more than  
2 what is basically our -- what we recognize as our  
3 base level bene- -- our fee-for-service benefit is  
4 sort of the guiding issue.

5 Q. Okay. And so that -- just so I'm clear,  
6 that benefit does not include surgical care for the  
7 purpose of treating gender dysphoria, correct?

8 A. Correct.

9 Q. Okay. And so the MCOs could not use  
10 Medicaid dollars for the purpose of treating  
11 gender -- surgical care for the purpose of treating  
12 gender dysphoria, correct?

13 A. They could, as a value-add benefit, which  
14 means, you know, they -- it's not our expectation  
15 that they will pay for it, but, you know, maybe  
16 they have a marketing strategy or something: They  
17 want to differentiate their plan from the others by  
18 providing a benefit -- a benefit that wouldn't  
19 otherwise be covered. They could do that, but it  
20 would be from -- it would not be something we have  
21 built into that capitation, that budget, as you'd  
22 say --

23 Q. Okay.

24 A. -- for them to pay for. It would be coming  
25 from their managed care savings, for example. When

1 Q. Okay. And is anybody in the room with you  
2 right now?

3 A. I've been by myself all day.

4 Q. All right. Thank you.

5 So I understand that hormone therapy for --  
6 as a treatment for gender dysphoria was not always  
7 covered for West Virginia Medicaid participants.  
8 Is that right?

9 A. I have the same understanding, yes.

10 Q. Okay. And I understand that that changed  
11 in November of 2017; is that right?

12 A. Yes. Well -- yes. I think it was the 7th  
13 of 2017. I'm sorry. November 7, 2017, or  
14 thereabouts.

15 Q. So on or around that date, hormone therapy  
16 as the treatment for gender dysphoria started being  
17 covered for West Virginia Medicaid participants,  
18 right?

19 A. Correct.

20 Q. Okay. And that was across all three of the  
21 MCOs, right?

22 A. Well, by then, the pharmacy benefit was a  
23 fee-for-service benefit, so, yes, correct. And it  
24 would have also encompassed the fee-for-service  
25 population outside of managed care too.

1 therapy?

2 A. No.

3 Q. But at some point in time, a member's sex  
4 was considered or their gender marker was  
5 considered when making a determination for hormone  
6 therapy with respect to treatment for gender  
7 dysphoria, right?

8 A. Correct. Correct.

9 Q. Okay. And do you know why that was?

10 A. I do not.

11 Q. And do you know who made the determination  
12 that that gender marker should be considered for  
13 the purpose of hormone therapy as a treatment for  
14 gender dysphoria?

15 A. That would have been the former director,  
16 Peggy -- and I may think of her name before we're  
17 done here today. I hope I do. I've met her.  
18 She's very nice. I just can't think -- I can see  
19 her face. I just can't think of her name -- her  
20 last name. I apologize. I think it's in the  
21 record somewhere -- in the documentation here  
22 somewhere.

23 Q. And in 2017, when the gender edit was  
24 removed, who made the decision to remove it?

25 A. And that was the director at the time,

1 Vicki Cunningham, in consultation with the medical  
2 director, Jim Becker. And I don't know if --  
3 again, that -- all of this predates me and my  
4 involvement here.

5 I don't know if it came up through the  
6 leadership structure of BMS or not. I think it was  
7 just decided by Vicki, who had some conversations  
8 with the medical director, Jim Becker. And I know  
9 that from conversations I've had with Vicki  
10 concerning this action.

11 Q. Did those conversations take place in the  
12 presence of your counsel?

13 A. No.

14 Q. Okay. What did you and Vicki discuss?

15 A. We talked about why -- I just asked her  
16 why -- what was the justification for the decision,  
17 you know, what -- I just wanted to know what she  
18 could tell me about the history of this whole  
19 thing.

20 Some of the same questions you've asked me  
21 about how did we come to the decision to put the  
22 edits there and then why did we remove them. And  
23 really, the most meaningful thing I got from it  
24 was, she related to me her experience before coming  
25 to BMS -- which she worked for HealthRight; she was

1 a pharmacist for HealthRight, which provides  
2 charity care here in the Charleston area.

3 And she worked with some folks that had  
4 gender dysphoria and were just distraught and  
5 they -- you know, they couldn't get access to  
6 hormone therapy, they couldn't get access to  
7 surgery.

8 And she thought that this -- our  
9 understanding of how these hormones work and how  
10 this therapy can be administered was far enough  
11 along that she was comfortable with it. She spoke  
12 with Dr. Becker and they both felt like we could do  
13 more -- Dr. Becker may be able to tell -- he may  
14 not even remember this conversation. This is how  
15 it came to me from Vicki.

16 She felt that there -- we can at least do  
17 this much. If we're not going to provide the  
18 surgery, we can at least provide access to this  
19 therapy and it may help these folks. And so it --  
20 it's a story of compassion, and that's how the edit  
21 was turned off for these instances.

22 Q. Is there something that was a catalyst for  
23 the change to happen in November of 2017?

24 A. She said that we've been fielding -- we've  
25 been getting calls about, you know, what's the

1 criteria? What's the -- you know, why -- you know,  
2 why are you -- why is it this way? And she felt  
3 like we didn't have good answers.

4 And so maybe there were some calls at the  
5 time, but she indicated that it was always  
6 something we were being asked about. And so that  
7 was a big part of it.

8 Q. And were those questions coming from  
9 members?

10 A. Coming from members and maybe providers as  
11 well.

12 Q. Did Vicki handle those calls or did  
13 somebody else?

14 A. I don't know. We didn't get into -- I  
15 think she probably handled some, but I don't know  
16 for sure.

17 Q. And so I think you described it as  
18 compassion, which I appreciate. Why didn't that  
19 compassion extend to surgical care for gender  
20 dysphoria?

21 A. I don't know the answer to that.

22 Q. Do you know if Vicki ever raised that  
23 question with anybody at BMS?

24 A. I don't.

25 Q. Have you ever raised that question with

1 same level of concern to our fee-for-service  
2 members if we try to collect it through the  
3 enrollment broker.

4 So that's another challenge for me, is  
5 ideally we would ask these questions through the  
6 application process so that we would have the  
7 answers for all of our members, not just those in  
8 managed care.

9 MS. PRAKASH: Okay. Can we go off the  
10 record, please.

11 (Break: 12:29 p.m. to 12:45 p.m.)

12 BY MS. PRAKASH:

13 Q. So, Mr. Lewis, can you describe to me what  
14 your job duties are as deputy commissioner of plan  
15 management and integrity at BMS?

16 A. Yeah. I oversee four different areas of --  
17 within Medicaid. One being the Office of Pharmacy  
18 Services, as we've been discussing. The other  
19 being the Center for Managed Care. And then the  
20 Office of Program Integrity is one of my areas.  
21 And the Office of Quality Management.

22 Q. Okay. What does the Office for Program  
23 Integrity do?

24 A. So that office oversees the spending of  
25 Medicaid funds to ensure that it's for bona fide

1 members for bona fide purposes. They look for  
2 fraud; they look for overpayments. Broadly,  
3 overpayment, it can be a lot of things, but these  
4 are -- I mean, any kind of upcoding or a  
5 provider -- a scheme, duplicate claims that may  
6 have been submitted. These sorts of things. They  
7 look for all of that.

8 Q. Do they oversee any coverage  
9 determinations?

10 A. They don't oversee coverage determinations.

11 Q. And what does the Office for Quality  
12 Management do?

13 A. That's the office I was telling you about  
14 that was originally created to complete certain  
15 measures, to maintain the measures. But we are  
16 trying to change the focus of that office and get  
17 the staffing up to be able to provide for  
18 continuous quality improvement to the quality of  
19 our care for our members, and then provide for  
20 health equity as well.

21 And I have a vacant -- I have two people  
22 there that have been traditionally the staff when  
23 they've only been about producing the measures. I  
24 have two vacate positions. One for a nurse and one  
25 is the director -- going to be the director of the

1 office, that I'm trying to get filled so that we  
2 can move forward with this bigger vision for that  
3 office.

4 Q. Does that office, the Office of Quality  
5 Management, deal with coverage determinations at  
6 all?

7 A. A little bit. So one of the things I have  
8 been doing is working with the External Quality  
9 Review Organization on -- for managed care. And  
10 the EQRO is looking at denials a bit and so they're  
11 involved in receiving and kind of overseeing that  
12 contract work with the EQRO.

13 Q. What -- are you saying "Kepro"? I'm not  
14 sure I totally heard the last part.

15 A. E-Q-R-O. EQRO. External Quality Review  
16 Organization. I'm sorry. We are terrible about  
17 using acronyms.

18 Q. No, that's okay.

19 A. My apologies.

20 The External Quality Review Organization is  
21 called Qlarant and the Office of Quality Management  
22 is engaged with Qlarant in overseeing their  
23 contract work in that capacity. But -- you know,  
24 one of the things they look at is the -- they call  
25 it GAD. It's grievances, appeals, and denials. So

1 they do some statistical work for us around that  
2 and -- that's probably about as close as I can get.

3 Q. Okay. And when they are looking at  
4 grievances and denials, are they looking to make  
5 sure that those are consistent with BMS standards?

6 A. I believe so. And CMS standards as well.

7 Q. Got it. Are they looking at whether there  
8 should be any changes made to the standards?

9 A. That, I'm not sure.

10 Q. Who would know that?

11 A. Tanya Cyrus.

12 Q. What's --

13 A. She is -- she is over the Office of Program  
14 Integrity and the Office of Quality Management and  
15 reports to me.

16 Q. Who else reports to you?

17 A. That's basically it. So Brian Thompson,  
18 the pharmacy director; Susan Hall, the chief of  
19 managed care; and Tanya Cyrus, the chief of quality  
20 and integrity.

21 Q. And --

22 A. I used to have a secretary. That position  
23 is vacate still. I mean, it was a shared position,  
24 so I have three people. Direct reports.

25 Q. Okay. And who do you report to?

1 A. Yes.

2 Q. Okay.

3 A. Those two are interchangeable.

4 Q. Great. So if I use "BMS," you'll also know  
5 what I'm referring to?

6 A. Yes.

7 Q. And, Ms. Manning, I know you're the deputy  
8 commissioner. Are you, more specifically, the  
9 deputy commissioner of Finance?

10 A. Finance and Administration.

11 Q. And you've held this position since  
12 January of 2021; is that right?

13 A. That's correct.

14 Q. What are your job duties as deputy  
15 commissioner of Finance and Administration?

16 A. I report directly to Commissioner Beane.  
17 And I'm responsible for overseeing the financial  
18 unit, which also includes purchasing, cash  
19 management. Our chief financial officer -- I have  
20 one direct report, which is our chief financial  
21 officer. And then under her is our accounts  
22 payable, our accounts receivable, cash management,  
23 and purchasing.

24 Q. And who is the chief financial officer?

25 A. Mandy Carpenter.

1 Q. And I understand that you've been with DHHR  
2 for over 20 years; is that right?

3 A. That's correct.

4 Q. Okay. So we're going to go through a few  
5 of your previous roles at the department. So prior  
6 to being deputy commissioner, is it true that you  
7 were chief financial officer for West Virginia  
8 Medicaid?

9 A. Yes.

10 Q. And did you hold that position from  
11 June 2018 to January 2021?

12 A. Yes.

13 Q. What were your job duties as chief  
14 financial officer?

15 A. I oversaw directly the supervision and work  
16 of budget preparation, director -- I oversaw the  
17 work of the director of purchasing, cash receipts,  
18 expenses, accounts payable, and accounts  
19 receivable.

20 Q. And prior to being chief financial officer  
21 for West Virginia Medicaid, is it true that you  
22 were the deputy director of Office of Human  
23 Resource Management?

24 A. That's correct.

25 Q. And did you hold that job position from

1 June 2015 to June 2018?

2 A. That's correct.

3 Q. What were your job duties in that role?

4 A. There were five units within the -- like  
5 the division of Human Resource Management. It's  
6 more like an office or support service for the  
7 DHHR. And so I -- it was my responsibility to  
8 oversee those five sections.

9 Q. Okay. And prior to being deputy director  
10 of the Office of Human Resource Management, were  
11 you the director of Budgets for DHHR?

12 A. That's correct.

13 Q. And did you hold that position from  
14 November 2013 to June 2015?

15 A. That's correct.

16 Q. What were your job duties as the director  
17 of Budgets for DHHR?

18 A. I helped support each of the bureaus under  
19 DHHR prepare their budget, monitor their budget and  
20 their expenses. I helped prepare fiscal notes  
21 from, like, proposed legislation and worked with  
22 the legislature. I also worked with our chief  
23 budget officer to finalize budgets, six-year  
24 projections, and any reconciliations that might be  
25 needed.

1 Q. And prior to being director of Budgets,  
2 were you the director of Financial Services for the  
3 Bureau for Public Health?

4 A. Yes.

5 Q. And did you hold that job from October 2007  
6 to November 2013?

7 A. Yes.

8 Q. What were your job duties in that role?

9 A. To support all of the offices within the  
10 Bureau for Public Health as related to their  
11 financial means: budgeting, grant support,  
12 financial reports, p-card, travel, accounts  
13 payable, accounts receivable.

14 Q. Prior to that, were you the director of  
15 Financial Services for the Bureau for Behavioral  
16 Health and Health Facilities?

17 A. Correct.

18 Q. And did you hold that role from August 2004  
19 to October 2007?

20 A. That's correct.

21 Q. Were your job duties similar to the ones  
22 you were just describing as director of Financial  
23 Services for the Bureau for Public Health?

24 A. Yes.

25 Q. Okay. And then prior to that, were you an

1 accountant in the Office of Behavioral Health?

2 A. Yes, that's correct.

3 Q. And were you an accountant from March 2002  
4 to August 2004?

5 A. That's correct.

6 Q. What were your job duties as an accountant  
7 in the Office of Behavioral Health?

8 A. Behavioral Health has a lot of grants, so  
9 it was my responsibility to prepare those grant  
10 agreements and work with DHHR Finance.

11 Q. Have you ever held any other positions,  
12 other than the ones we just went through, within  
13 the Department?

14 A. No.

15 Q. Is your highest degree a master of business  
16 administration from Marshall University?

17 A. It is.

18 Q. And you graduated in 2003?

19 A. That's correct.

20 Q. Do you also have a bachelor of science and  
21 accounting from Concord University?

22 A. That's correct.

23 Q. And you graduated from there in 2000?

24 A. That's correct.

25 Q. Okay. Ms. Manning, we're going to shift

1 A. Yes, ma'am.

2 Q. Now, Ms. Manning, you're here today to --  
3 excuse me. Let me start that over.

4 I'm here today to take a deposition of an  
5 organizational representative for BMS. Do you  
6 understand that?

7 A. Yes, ma'am.

8 Q. And you've been designated as the  
9 organizational representative to give testimony on  
10 certain topics that we're going to discuss today.

11 Do you understand that you've been  
12 designated for particular topics?

13 A. Yes, ma'am.

14 Q. I believe you just answered this, but were  
15 you notified that you would be giving testimony as  
16 BMS's organizational representative in  
17 October 2021?

18 A. Yes, ma'am.

19 Q. Was that the first time you were notified  
20 that you would be giving testimony?

21 A. Yes, ma'am.

22 Q. Now we're going to use Exhibit Share for  
23 the first time so it always takes a little bit  
24 longer the first time.

25 A. Okay.

1 following that.

2 Do you see that?

3 A. Yes, ma'am.

4 Q. Ms. Manning, you've been designated to  
5 testify about Topic 2. And Topic 2 reads, "Your  
6 receipt of federal and/or state funds, including  
7 funds from the U.S. Department of Health and Human  
8 Services, and all representations made to the  
9 federal and/or state government in the course of  
10 securing such funds."

11 Did I read that correctly?

12 A. Yes, ma'am.

13 Q. Can you confirm that you're prepared to  
14 discuss this topic as the organizational  
15 representative for BMS?

16 A. Yes, ma'am, I am.

17 Q. How is West Virginia Medicaid funded?

18 A. We were funded in partnership with the  
19 Centers for Medicare and Medicaid Services, which  
20 is a federal agency. We are funded through general  
21 revenue appropriated from the state legislature and  
22 we are funded through -- like tax dollars, directly  
23 given to Medicaid from provider taxes and managed  
24 care tax.

25 Q. And what percentage of West Virginia

1 Medicaid's funding comes from the federal  
2 government?

3 A. The percentages are based upon  
4 expenditures. So overall, it's an average of about  
5 80 percent.

6 Q. And from which agencies within the federal  
7 government does that funding come?

8 A. The funding comes from the Centers for  
9 Medicare and Medicaid Services, also known as CMS.  
10 So if I just say "CMS" in the future, that's what  
11 I'm referring to.

12 Q. Great. And that's exactly what I was going  
13 to ask you next so you read my mind.

14 Do you receive any money or does  
15 West Virginia Medicaid receive any funding from the  
16 U.S. Department of Health and Human Services?

17 A. CMS falls under Department of Health and  
18 Human Services.

19 Q. Are there any other federal agencies from  
20 which West Virginia Medicaid receives funds other  
21 than HHS and CMS underneath that?

22 A. No.

23 Q. What percentage of West Virginia Medicaid's  
24 funding comes from the State of West Virginia?

25 A. Approximately 20 percent.

1 A. Yes.

2 Q. What services were those?

3 A. Substance use disorder and the other one  
4 has the acronym of the MOM model, maternal opioid  
5 misuse.

6 Q. Does the West Virginia Medicaid program  
7 have an annual budget?

8 A. Yes, ma'am.

9 Q. What is its annual budget?

10 A. It fluctuates between years, but it can  
11 range anywhere from \$4.5 to \$5.1 billion.

12 Q. What does that number reflect exactly?

13 A. It reflects state and federal dollars of  
14 expenditures for medical expenses for Medicaid  
15 members that are both in fee-for-service population  
16 and managed care.

17 Q. Can you summarize how the budget is  
18 determined each year?

19 A. It's based upon how much, working with the  
20 actuaries, BMS Finance thinks we will need for the  
21 current services that we are required to provide  
22 based upon utilization, number of members, and any  
23 trend applied to that by our actuaries were changes  
24 for economic factors.

25 Q. So of that fluctuating \$4.5 to \$5.1 billion

1 A. That's correct.

2 Q. So I'm going to pull up what I believe to  
3 be the six-year projection to see if it's the  
4 document you're talking about. So I will do that  
5 now. Give me a moment to mark it.

6 (Exhibit 2 was marked for  
7 identification.)

8 Q. I'm marking this Exhibit as BM0002. It  
9 should be in your folder.

10 A. Okay.

11 Q. Is this the document that you were  
12 referring to, Ms. Manning, that would be helpful to  
13 look at?

14 A. This one starts with 2002. So if you  
15 wanted the budget for 2002, we can -- we can start  
16 with this one. If you wanted 2001, we might want  
17 to start with maybe one of the CMS quarterly  
18 reports.

19 Q. Ms. Manning, do you mean 2022?

20 A. Yeah. I think you wanted 2022, the total  
21 budget, I can give you that from this one. I can  
22 give you that from this six-year projection.

23 Q. Sure. Can you tell me what the projected  
24 budget or what you're referring to as total budget  
25 is for 2022?

1           A.     Sure.  The total projected budget for 2022  
2     is the first line that has an "E" -- I keep wanting  
3     to point.  I don't know if you can see my mouse  
4     when I hover over the screen.  But it has an  
5     estimated expenditures of \$5,490,588,806.

6           Q.     Okay.  And that 5 billion number, that is  
7     the projected budget for 2022?

8           A.     Correct.  When this document was published,  
9     '22 was not updated with final numbers yet.  
10    Because we have what is called run-out.  So it  
11    usually takes six months or more for claims to run  
12    out and for us to update these projections.

13          Q.     Okay.  So is there a more recent projection  
14    for 2022's budget than this one?

15          A.     No.  This is the most up-to-date version we  
16    have.

17          Q.     Okay.  And I understand that by looking at  
18    this projection, you're not able to tell what the  
19    annual budget was in 2020 or 2021; is that correct?

20          A.     Correct.

21          Q.     Okay.  We may come back to 2020 and 2021.  
22    I'm going to try to avoid pulling up documents and  
23    the pause that that creates until --

24          A.     Okay.

25          Q.     -- a little bit later in the day, so I may

1 purposes.

2 Because, as you can see for 2022 and 2023,  
3 the very last line shows that Medicaid has a  
4 surplus for those years, the \$343 million, the very  
5 last line, and the \$117 million. Those funds are  
6 used to save -- to save money for future years when  
7 things don't look as positive.

8 For example, if you look at 2024, we are  
9 set to hit our first -- what we term as our  
10 Medicaid cliff, when we will be in the negative  
11 situation. Meaning if we still cover the services  
12 that we are required to cover at the current rates  
13 that we cover them, with the current membership  
14 enrollment, we will be at a negative situation of  
15 \$128.3 million.

16 Q. And to be clear, that \$128 million number  
17 under 2024 on the spreadsheet we're looking at,  
18 that is the bottom line of where the budget would  
19 look if everything is as the estimates are entered  
20 here?

21 A. This would assume that we do not receive  
22 any future funding cuts or future funding cash  
23 injections for Medicaid. We have also made  
24 assumptions within our budget about utilization  
25 membership trend.

1 the state doesn't have it, we wouldn't get it.

2 Q. What happens if West Virginia Medicaid  
3 doesn't receive all of the money it requests from  
4 the state.

5 A. We will have to make decisions about what  
6 will be cut and where.

7 Q. Has that had to happen during your tenure  
8 at DHHR?

9 A. Not during my tenure, no. And one of the  
10 things to keep in mind is that we received an  
11 additional 6.2 in FMAP from the federal government  
12 with the public health emergency, so that was able  
13 to provide some additional relief to states who  
14 were currently struggling and to cover those  
15 members that we cannot take off the Medicaid roles  
16 and so that people would have healthcare during the  
17 public health emergency.

18 Q. And what does FMAP stand for?

19 A. Federal Matching Participation. It's the  
20 amount we get from the federal government that --  
21 when we put up against state funds, that we get in  
22 return for our state dollar.

23 Q. And you mentioned you received an  
24 additional 6.2.

25 A. Mm-hmm.

1 reasons for covering or not covering a service that  
2 West Virginia Medicaid could cover?

3 A. From a financial standpoint.

4 Q. So you're -- oh, go ahead.

5 A. The reason that I might look at those  
6 reasons and the reasons that someone else might  
7 look at that are different. I'll look at that  
8 from, Can we afford it? I think it's other  
9 people's responsibility to determine: Is that  
10 within the scope? Is that within policy? Is that  
11 within CMS guidelines?

12 It is my responsibility to say, if we do  
13 this, can we afford this? Is it something that we  
14 can support in an ongoing basis? What does this do  
15 to our budget as a Medicaid agency?

16 Q. Okay. So --

17 A. Because --

18 Q. Oh, go ahead.

19 A. One of the things that you have to contend  
20 when you ask CMS for a service, to cover a service,  
21 is that you have the funding.

22 Q. Okay. I'm going to pull up another  
23 document so give me just a second to do that. I'm  
24 going to mark this document as Exhibit BM0003.

25 A. Okay.

1 Q. And it should be popping up in your folder  
2 shortly.

3 (Exhibit 3 was marked for  
4 identification.)

5 A. Okay. I have it.

6 Q. This document is titled Defendants'  
7 Response to Plaintiff's First Set of  
8 Interrogatories to Defendants William Crouch,  
9 Cynthia Beane, and West Virginia Department of  
10 Health and Human Resources, Bureau for Medical  
11 Services.

12 Did I read that correctly?

13 A. Yes.

14 Q. Please take a moment to review this  
15 document and let me know when you're ready to move  
16 on. I've got a couple questions about it.

17 A. (Reviewing document.)

18 Q. Also, I'm realizing now it's a fairly long  
19 document and so to the extent we'll be talking  
20 about it, I'm going to direct your attention to  
21 page 2 and number 2. So I'm not sure if you were  
22 reviewing the full thing because that's what I  
23 asked or not.

24 A. (Reviewing document.) Okay. I'm ready.

25 Q. Do you recognize this document?

1 A. I do.

2 Q. Is this document a copy of Defendants'  
3 Responses to Plaintiff's First Set of  
4 Interrogatories?

5 A. It is.

6 Q. So I directed your attention to page 2  
7 where you'll see text that reads as follows:  
8 Number 2, "Describe in detail the factual basis for  
9 each governmental interest that defendants contend  
10 supports the exclusion.

11 "Response: These defendants state that  
12 they provide coverage that is mandated for coverage  
13 by the Centers for Medicare and Medicaid Services  
14 (CMS). These defendants are constrained by  
15 budgetary/cost considerations."

16 Did I read that text accurately?

17 A. Yes.

18 Q. So the second sentence there states that  
19 BMS is constrained by budgetary/cost  
20 considerations. Does that response describe what  
21 you were just explaining to me?

22 A. Yes, ma'am.

23 Q. Okay. Do you agree with that response?

24 A. I do.

25 Q. As the organizational representative, can

1 equivalent, the Department of Personnel puts out  
2 the cost that we'll use for each pay grade type so  
3 that's not a sub- -- you know, it's not a  
4 subjective cost. It wouldn't be what I wanted to  
5 pay them.

6 So they give us the -- like the type of  
7 position and then the market salary that we would  
8 use for the purpose of fiscal notes and then the  
9 benefit percentages. So that way each agency  
10 within state government is using apples-to-apples  
11 comparisons.

12 Q. Has BMS priced out the cost of providing  
13 gender affirming care?

14 A. I have not. In order to do that, I would  
15 need a list of codes that I would be pricing.

16 Q. So are you saying that you personally  
17 haven't researched the cost of providing gender  
18 affirming care?

19 A. Correct.

20 Q. Do you know of anybody else at BMS who has  
21 researched the cost of providing gender affirming  
22 care?

23 A. I do not.

24 Q. If you wanted to get a list of codes  
25 related to gender affirming care, could you do

1 Q. Are you aware of Dr. Becker pricing out  
2 codes related to gender affirming care?

3 A. I can't speak for Dr. Becker and what  
4 Dr. Becker has done. I can only speak for, like,  
5 what projects I know, that when I have a question,  
6 that he has a team of people that work on that sort  
7 of stuff.

8 Q. So sitting here today as the organizational  
9 representative, you are not aware or have knowledge  
10 of Dr. Becker looking at codes related to gender  
11 affirming care and pricing them out; is that  
12 correct?

13 A. Correct. And I can't -- I mean, I can't  
14 speak for Dr. Becker.

15 Q. Okay. I want to turn your attention  
16 briefly to the exhibit we had up marked BM0003.

17 A. Okay.

18 Q. And we were looking at page 2, the response  
19 to number 2. Do you have that up?

20 A. I do.

21 Q. As the organizational representative for  
22 BMS, are you aware of any other governmental  
23 interest supporting the exclusion that were not  
24 identified in defendants' discovery responses here  
25 on this exhibit?

1 A. (Reviewing document.) I'm not aware. No.

2 Q. Okay. Let's turn back to the very first  
3 exhibit, BM0001, or Plaintiffs' Second Amended  
4 Notice of 30(b)(6) Deposition, and I'm going to ask  
5 you to turn to page 4, please.

6 You've been designated to testify about  
7 Requests for Production 7 and 27 under Topic 18.  
8 Do you see Topic 18 at the bottom of page 4?

9 A. Yes, ma'am.

10 Q. And Topic 18 reads, "All interrogatory  
11 requests, requests for admission, and requests for  
12 production of documents directed to defendants  
13 William Crouch, Cynthia Beane, and West Virginia  
14 Department of Health and Human Resources,  
15 Bureau for Medical Services, and any discovery  
16 responses, responsive documents, filings, or  
17 productions, by or on behalf of defendants  
18 William Crouch, Cynthia Beane, and West Virginia  
19 Department of Health and Human Resources,  
20 Bureau for Medical Services."

21 Did I read that correctly?

22 A. Yes, ma'am.

23 Q. Are you aware that as part of testifying  
24 about the discovery responses in Topic 18, Counsel  
25 for BMS designated you as the organizational

NOTE: The original deposition transcript will be  
delivered to Attorney Smith, Esq., as the taking  
attorney.

1 being challenged?

2 A. I believe so, yes.

3 Q. Okay. And what is your understanding of that  
4 exclusion?

5 A. My understanding is that we, we do not pay for,  
6 we do not cover the medical part of this, the surgeries,  
7 but we do cover hormone therapy.

8 Q. Okay. So if I refer to the exclusion throughout  
9 today you'll understand what I mean?

10 A. Yes, from a broad standpoint, yes.

11 Q. Okay. So, Mr. Thompson, you are the director of  
12 pharmacy services of BMS at the West Virginia Department  
13 of Health and Human Resources, correct?

14 A. Correct.

15 Q. All right. And what responsibilities fall under  
16 your role within BMS?

17 A. So I'm expected to make policy regarding  
18 pharmaceutical coverage, I manage the budget for the  
19 pharmacy department and I have staff that configure  
20 benefits for certain drugs and I also make policy around  
21 exceptions to our criteria. In those cases a lot of  
22 times things are used off label, which we are given some  
23 leeway as to how, how to choose to cover as a state.

24 Q. Got it. And who is your direct supervisor?

25 A. Fred Lewis.

1 list and I remember seeing, you know, there was a lot of  
2 exhibits.

3 Q. Okay.

4 A. I think I have seen this one, yes.

5 Q. Okay. And have you been told that you've been  
6 designated to speak as the organizational representative  
7 of BMS in response to certain topics contained in this  
8 deposition notice?

9 A. Yes, yeah.

10 Q. Okay, great. So we'll come back to this  
11 document throughout the day as we get through each  
12 topic, but I just wanted to show it to you, okay?

13 A. Okay. I thought the one I saw had my name on it  
14 too.

15 Q. Let's see. So this is interesting, this is the  
16 one that doesn't actually have your name on it. Okay.  
17 All right. I'm going to pull up the right one that has  
18 your name on it. Actually, if it's okay, can we take a  
19 quick five-minute break.

20 A. Sure.

21 Q. Great. Thank you very much, I'll be right back.

22 ATTORNEY SMITH: Kelley, can we go off the  
23 record.

24 (A break was taken at 8:20 a.m.)

25 ATTORNEY SMITH: All right. So I am going

1 to introduce another exhibit.

2 (Exhibit 2 marked for identification.)

3 BY ATTORNEY SMITH:

4 Q. Okay. Mr. Thompson, if you refresh your page  
5 for Exhibit Share you should see a new exhibit, it will  
6 have the Exhibit Number BT0002.

7 A. Yep, I see it.

8 Q. Great, okay. I have just introduced plaintiffs'  
9 second amended notice of 30(b)(6) deposition, Exhibit  
10 Number BT0002. If you want to take a minute to review  
11 this document as well, Mr. Thompson, please feel free to  
12 do so.

13 A. Okay.

14 Q. Okay. So do you recognize this document?

15 A. Yes.

16 Q. And do you see your name at No. 10?

17 A. I do.

18 Q. Okay, great. So this is the document that we  
19 will come back to throughout the rest of the day and  
20 specifically as we discuss each topic, okay?

21 A. Okay.

22 Q. All right. As an organizational representative  
23 did you meet with any Medicaid participants who are  
24 transgender to prepare for today?

25 A. No, I have several acquaintances that are

1 prior authorization forms is there a field that collects  
2 information regarding diagnosis?

3 A. Yeah, yes. So some drugs have specific prior  
4 authorization forms designed to help the flow of  
5 questions for that drug, but we have a general PA form  
6 which can be used for any drug, anything that you're  
7 using off label or whatever and there is a little spot  
8 where you put in what it's being used for and also what  
9 you previously used for treatment of whatever you're  
10 asking it for.

11 Q. Okay. And just to confirm what I think I heard  
12 you say earlier, if a patient required hormone  
13 replacement therapy for treatment of gender dysphoria  
14 only, they would receive treatment for that hormone  
15 replacement therapy, correct?

16 A. Oh, definitely, yes.

17 Q. Okay. BMS sometimes covers puberty delaying  
18 care for the treatment of gender dysphoria, correct?

19 A. Yes, we have. It's a little bit more, there's a  
20 little bit more safety concern when you're dealing with  
21 children because there are long-term effects from  
22 delaying puberty. So every case with something like  
23 this is always going to be reviewed by the medical  
24 director for safety.

25 Q. Okay. And who is the medical director?

1 Q. But you said that puberty delaying coverage  
2 could conceivably be covered through EPSDT, is that  
3 correct?

4 A. I say that only because I've always been told  
5 that anything could get approved through EPSDT if you  
6 could defend why it was medically necessary.

7 Q. Okay.

8 A. But the other thing you have to remember is with  
9 EPSDT it's not really necessary if they have full  
10 Medicaid and it's already something we cover, it's  
11 generally used for those things that we don't already  
12 cover or for children that don't have full Medicaid.

13 Q. You testified earlier that requests for puberty  
14 delaying treatment are subject to a review process,  
15 correct?

16 A. Yeah. Well, every drug is subject to some sort  
17 of drug utilization review, whether it's automatic or  
18 electronic edits or because it requires a prior  
19 authorization. And in those cases they would require  
20 prior authorization just because a lot of those are  
21 injectable if you're talking about the delaying, they're  
22 typically injectable, long-acting injectable agents.

23 Q. Does that mean that under the right  
24 circumstances puberty delaying treatment could be  
25 approved to treat gender dysphoria?

1 A. Yes, I would say so.

2 Q. I'm going to introduce another exhibit.

3 (Exhibit 4 marked for identification.)

4 Q. All right. Do you see what has been marked as  
5 Exhibit BT0004?

6 A. Let me refresh. Yep, I have it.

7 Q. Okay. I'm showing you what has been marked as  
8 Exhibit BT0004, it is an email with a subject, "Gender  
9 dysphoria." In the lower right-hand corner of the  
10 document is Bates stamped DHHRBMS012665. Do you see  
11 that?

12 A. I do.

13 Q. Okay. Please take a moment to review this  
14 email.

15 A. Yes.

16 Q. Okay.

17 A. This is the one I was referring to, yes.

18 Q. So you recognize this email, correct?

19 A. Yes.

20 Q. Okay. So please scroll down to the page with  
21 the Bates stamp DHHRBMS012666.

22 A. Okay.

23 Q. All right. I am going to read a portion of that  
24 email, it says, "Unfortunately Jim and I discussed this  
25 case today before I saw your email. I did determine

1 Please take a moment to review this email. And just so  
2 you know, it's pretty much the first three pages.

3 A. Yeah, I recall seeing this.

4 Q. Okay. So you recognize this email?

5 A. I do.

6 Q. Okay. I'm going to direct your attention to the  
7 message in the middle of the chain on Page 2, you'll see  
8 the Bates number at the bottom DHHRBMS021583.

9 A. Okay.

10 Q. Okay. So it reads, "Thank you. It is fine to  
11 override the edit when hormones are prescribed for  
12 transgender members." Did I read that correctly?

13 A. You did, yes.

14 Q. Okay. Who's the email from?

15 A. That is from Vickie Cunningham who was the  
16 director of pharmacy at the time and it's sent to the  
17 director of Rational Drug Therapy Program at the time to  
18 Stephen Small.

19 Q. Okay. Is the edit being discussed in the email  
20 the gender edit that we've discussed?

21 A. That's what I was about to say, I can't say from  
22 the text that they're talking about a gender edit, but  
23 that would be my assumption that that's what they're  
24 talking about.

25 Q. Okay. And the removal of the gender edit allows

1 for the coverage of pharmaceuticals for treatment of  
2 gender dysphoria, correct?

3 A. Yes. So there are, as I said before, there are  
4 reasons to have gender edits for safety purposes. You  
5 would typically not want to give testosterone to say a  
6 woman of child bearing age because it could cause harm  
7 to the pregnancy, so there is a reason to have a gender  
8 edit. This looks to me that Vickie was telling them  
9 that in cases where there was gender dysphoria that she  
10 is approving the general coverage of gender dysphoria  
11 with hormone therapy.

12 Q. You testified a little bit earlier that there  
13 can be gender edits and specifically that they can vary  
14 in terms of what state and federal policies I believe,  
15 do you remember that?

16 A. I think I misspoke when I said federal. I meant  
17 the national database that we use, First Databank,  
18 sometimes sends I believe, and I don't know which drugs  
19 they put gender edits on, but I believe they do send  
20 information saying this drug should not be used in  
21 females, this one should not be used in males because  
22 there are, there are differences.

23 Sometimes inherently if you're using a drug that  
24 say affects testosterone, like I said, you can affect  
25 pregnancies, so that would not be considered safe. But

REPORTER'S CERTIFICATE

STATE OF MINNESOTA )  
 ) ss.  
COUNTY OF WASHINGTON )

I hereby certify that I reported the Zoom deposition of Brian Thompson on the 13th day of April 2022, and that the witness was by me first duly sworn to tell the whole truth;

That the testimony was transcribed by me and is a true record of the testimony of the witness;

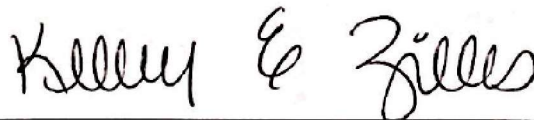

That the cost of the original has been charged to the party who noticed the deposition, and that all parties who ordered copies have been charged at the same rate for such copies;

That I am not a relative or employee or attorney or counsel of any of the parties, or a relative or employee of such attorney or counsel;

That I am not financially interested in the action and have no contract with the parties, attorneys, or persons with an interest in the action that affects or has a substantial tendency to affect my impartiality;

That the right to read and sign the deposition by the witness was reserved.

WITNESS MY HAND AND SEAL THIS 13th day of April 2022.

Kelley E. Zilles, RPR  
Notary Public, Washington County, Minnesota  
My commission expires 1-31-2025

NOTE: The original deposition transcript will be  
delivered to Carl Charles, Esq., as the taking attorney.

1 (Exhibit 1 marked for identification.)

2 Q. Okay. So hopefully you can see there in the  
3 marked exhibits folder what has been marked as Exhibit  
4 PL0001. Do you see that there?

5 A. I do, yes.

6 Q. Okay.

7 MR. CHARLES: Kelley, I'm showing the  
8 witness what has been marked as Exhibit 0001, it's a  
9 copy of a document entitled, "Bureau for Medical  
10 Services policy manual, Chapter 100."

11 Q. Please take as much time as you need to look at  
12 the document and I will wait until you tell me you've  
13 sufficiently reviewed it.

14 A. I am familiar with the document.

15 Q. Okay. Thank you, thank you. I just don't want  
16 to, throughout the day I will say take a moment, but  
17 what I mean by that is take the sufficient moments you  
18 need to review it.

19 A. Thank you.

20 Q. Okay. Do you recognize this document?

21 A. I do, yes.

22 Q. And what is this document?

23 A. This is a chapter of our provider manual, it's  
24 available on our Website, and it is a guiding document  
25 for services that we cover and billing instructions for

1 providers. It is not all inclusive and I believe  
2 there's a disclaimer at the bottom that says to that  
3 effect, but this is our general information chapter.

4 Q. Thank you. Do you have any reason to believe  
5 this is not a true and correct copy of that document?

6 A. It appears to be the same one that we have on  
7 our Website.

8 Q. Thank you. Okay. So now if you would, please,  
9 turn to Page 10 of this document. The page numbers are  
10 in blue at the bottom right-hand corner, the text is a  
11 little bit, it's kind of small there in the bottom  
12 right-hand corner.

13 A. Okay, sorry.

14 Q. No, no, take your time.

15 MS. BANDY: Is there a Bates number on  
16 that? That might be helpful.

17 MR. CHARLES: Yes, sorry. So it's  
18 CFAIN001661.

19 MS. BANDY: Okay, we got it.

20 BY MR. CHARLES:

21 Q. Okay. Ms. Young, do you see in the middle of  
22 the page the numbers 1661?

23 A. Yes.

24 Q. And the title, "General noncovered services"?

25 A. Yes.

1 Q. Okay. So if you would just read along with me,  
2 I'm going to read aloud, but if you'll just follow  
3 along, please. Underneath that heading, "The West  
4 Virginia Medicaid program does not cover certain  
5 services and items regardless of medical necessity."  
6 Did I read that correctly?

7 A. Yes.

8 Q. Okay. And then some examples are identified  
9 below. I'm not going to read all of those examples, I'm  
10 going to continue to the next page where that list  
11 continues. Just let me know when you're on the next  
12 page.

13 A. I am.

14 Q. Okay. And then the third bullet from the top,  
15 do you see what that bullet is?

16 A. I do.

17 Q. And could you just read that out loud for me?

18 A. "Transsexual surgery."

19 Q. Okay. Thank you very much. So I'm going to put  
20 that document away for a moment and introduce another  
21 document.

22 (Exhibit 2 marked for identification.)

23 Q. Okay. Do you see what has been marked as  
24 Exhibit PL0002?

25 A. Yes.

1 Q. Okay. Can you just tell me what it -- well,  
2 sorry. Take a minute to look at it, please, first.

3 A. Okay.

4 Q. Thank you. And then can you just tell me what  
5 this document is?

6 A. It appears to be the Aetna Better Health of West  
7 Virginia member handbook.

8 Q. And for which plan year, please?

9 A. 2020 to 2021.

10 Q. Okay. And can you tell me what, to the extent  
11 you know, what Mountain Health Trust - Medicaid means  
12 there at the bottom?

13 A. Mountain Health Trust is the name of our managed  
14 care program.

15 Q. Okay. So the managed care program oversees the  
16 managed care organizations, is that right?

17 A. Yeah, it's an all encompassing term. You'll  
18 hear it referred to as the Mountain Health Trust plan  
19 or, it's to differentiate between fee for service and  
20 managed care.

21 Q. Oh, that's helpful. Okay. So fee for service  
22 does not fall under the Mountain Health Trust?

23 A. Correct.

24 Q. Okay. Thank you for that.

25 MR. CHARLES: Again, Kim, turning to

1 organization, Ms. Young. Can you tell me what your job  
2 title is, please?

3 A. Deputy commissioner of policy and operations.

4 Q. Okay. And what responsibilities fall under your  
5 role within BMS?

6 A. Under the policy side I have staff who oversee  
7 all of the coverage policies that we have, that also  
8 includes our eligibility policy. And on the operation  
9 side I have oversight of all of the technical systems  
10 that we use to manage the program.

11 Q. Can you tell me what technical systems you  
12 oversee, that seems like a big bucket of work, can you  
13 just say a little bit more of what you mean by that?

14 A. It is. We have the Medicaid managed information  
15 system, you may see it referred to as MMIS, that is our  
16 claims processing system. Within that we have our  
17 provider enrollment documents or files as well. I do  
18 not see the, oversee the member eligibility system, but  
19 our staff do have input into the Medicaid portion of  
20 that system. There are various other systems that we  
21 oversee that touch on member eligibility as well.

22 Q. So there's another individual who specifically  
23 oversees eligibility, right, that formally falls under  
24 someone else, is that correct?

25 A. The policy for member eligibility falls under?

1 Q. No, I'm sorry, not the policy. I'm looking  
2 at -- sorry. There's a director of Medicaid  
3 eligibility, so I guess what I'm asking is like what is  
4 the difference between what you just said and that  
5 person's role?

6 A. So the employee at BMS who is the director of  
7 member eligibility, she reports to me.

8 Q. Oh, I see. Okay. And can you just tell me who  
9 that is so I don't have to keep referring to them by  
10 their title?

11 A. Anita Hayes.

12 Q. Thank you. Okay. So she reports to you?

13 A. Correct.

14 Q. Are there, can you tell me the other directors  
15 that you oversee?

16 A. Sure. Do you want names and titles?

17 Q. Yeah, please.

18 A. Okay. Anita is my director of Member  
19 Eligibility; Jennifer Myers is the director of Provider  
20 Services -- oh, I'm sorry, we change our titles often.

21 Q. I think she's Professional Services, right?

22 A. Thank you, yes, yes. And I have Brandon Lewis  
23 is our Medicaid Enterprise Systems director; I have  
24 Marcus Canaday who is the director of our Money Follows  
25 the Person program; Randall Hill who is director of our

1 Home and Community Services Based program, and Cynthia  
2 Parsons who was director of our Behavioral Health and  
3 Long-Term Care Services. I believe that is everyone.

4 Q. That's quite the list. Okay. Thank you very  
5 much for that. So then who do you directly report to?

6 A. Commissioner Cindy Beane.

7 Q. Okay. And just in a sort of general way, do you  
8 have a formal structure for how often you report to  
9 Commissioner Beane, you know, I'm not referring here to  
10 informal communications you might have with her, I'm  
11 just speaking, you know, do you have a monthly, you  
12 know, formal reporting structure or a quarterly  
13 structure, something of that nature?

14 A. We have a weekly leadership team meeting to  
15 which we escalate issues that the commissioner or the  
16 other deputies are not already aware of, but there is a  
17 lot of informal escalation of issues.

18 Q. That makes sense. Thank you. How long have you  
19 been in your role as deputy commissioner for policy and  
20 operations?

21 A. Officially I was interim for a number of years,  
22 I believe official was 2016 or 2017.

23 Q. If you had to ballpark your interim years, could  
24 you give me just a rough estimate?

25 A. I believe it started in 2014.

1 Q. That works. Thank you. And were you employed  
2 with BMS before you started as the interim director?

3 A. Yes, I was.

4 Q. And what was your position within BMS before  
5 that?

6 A. I came to BMS in 2012 and at that time I was in  
7 the position of assistant to the commissioner, and then  
8 at some point I was promoted to a director position  
9 before becoming interim deputy.

10 Q. Okay. So you were assistant to the commissioner  
11 beginning in 2012. Can you just tell me briefly what  
12 that, what your duties were therein?

13 A. Sure. I ensured that the commissioner was aware  
14 of issues that were not escalated to her in other ways.  
15 And at that time I also oversaw the Medicaid expansion  
16 duties, the state plan amendments and the policies  
17 around that.

18 Q. And before your position as assistant to the  
19 commissioner, were you also employed in some capacity  
20 with BMS or were you with a different organization?

21 A. I was still with DHHR, but not with BMS, I was  
22 with a different Bureau.

23 Q. And what Bureau was that?

24 A. At the time it was called Bureau For Children &  
25 Families.

1 additional schooling beyond your bachelor degree?

2 A. I do have hours towards a master degree, but I  
3 have not completed the master's.

4 Q. And when you complete those hours do you have to  
5 do it through a particular institution or how is that  
6 credentialed, if you can just say briefly?

7 A. It's not through my employment, but I was taking  
8 hours remotely through West Virginia University.

9 Q. Okay, I see. And at some point it could be that  
10 you'll acquire sufficient hours to confer a master's  
11 degree, is that how that would work?

12 A. Generally, yes.

13 Q. Okay. So as you sort of likely put together,  
14 because I just jumped right into things, your deposition  
15 is that of an organizational representative for BMS. Do  
16 you understand that?

17 A. I do, yes.

18 Q. Okay. So I'm, you know, not asking you the  
19 person, Ms. Young, I'm asking you the BMS representative  
20 questions today. And so your counsel has designated you  
21 to give testimony as the organizational representative  
22 for BMS on certain topics, do you understand that?

23 A. Yes.

24 Q. Okay. Do you recall when you were notified that  
25 you'd be giving this testimony today as an

1 A. That's my understanding, yes.

2 Q. Okay. Thank you. And are you aware of, as of  
3 right now of any managed care organizations doing that  
4 for gender confirming care, so using a bucket not, not  
5 West Virginia Medicaid designated funds for the coverage  
6 of gender confirming care?

7 A. Not that I'm aware of, no.

8 Q. Okay. Will providers who are contracted and  
9 eligible within the requirements we talked about for  
10 West Virginia Medicaid receive reimbursement for gender  
11 confirming care that they provide to West Virginia  
12 Medicaid recipients who are transgender?

13 A. Let me make sure I understand. They will be  
14 reimbursed for covered services. If they are billing  
15 for a gender confirming procedure that is not covered,  
16 they will not be reimbursed for that procedure.

17 Q. Okay. So as a specific example, would a  
18 provider who submits for reimbursement be reimbursed for  
19 billing for counseling, for example, for gender  
20 dysphoria for someone who receives West Virginia  
21 Medicaid coverage?

22 A. Yes, they would, that is a covered service.

23 Q. Okay. And what about gender confirming  
24 hormones?

25 A. Hormone therapy is a covered service.

1 Q. Okay. And what about gender confirming surgical  
2 procedures?

3 A. That is not a covered service.

4 Q. Okay. So then just backing up a little bit, Ms.  
5 Young. So on the provider side of determining benefits,  
6 how does BMS or West Virginia Medicaid, I guess I can,  
7 sorry, I can just say BMS, how does BMS determine  
8 benefits on the provider side year-to-year?

9 A. So big picture speaking, it's based on the  
10 covered services for members. And then based on the  
11 covered service we drill down to the codes that are  
12 specific to those individual services, and then further  
13 drill down to the type of practitioner or provider that  
14 is eligible to provide that in West Virginia. Or based  
15 on, I'm sorry, based on our West Virginia policies, we  
16 do have out of state providers, but we do drill down to  
17 that specific type of provider. And then there are, so  
18 there's different codes that come out each year and  
19 they're evaluated to see if it falls within that process  
20 that I explained.

21 Q. Okay. And do those determinations reflect  
22 consideration of Center for Medicare and Medicaid  
23 Services requirements?

24 A. Yes. So the Center for Medicare, Medicaid  
25 Services dictates, which are mandatory services, and we

1           A. Yeah, it's a big question because I think we  
2 were aware on a personal and a professional level as to  
3 what was going on and we were approached by a number of  
4 state providers, members, different advocacy groups or  
5 different interested parties. There was specific  
6 funding that was made available around that time as  
7 well, so it was getting a lot of attention and obviously  
8 we were being asked to do what we could to address it as  
9 well.

10          Q. Thank you for that. So for a change like that  
11 which, I mean, tell me if this is right, you said that  
12 was a larger system change in the benefit structure for  
13 both enrollees and providers. Do you recall that CMS  
14 had to be consulted about that change?

15          A. Yes.

16          Q. Okay.

17          A. Yeah, specifically this type of authorization.  
18 We were aware of at least one other state at the time  
19 that had requested for the authority to do something  
20 like this. This demonstration waiver is a very lengthy  
21 process and CMS was involved from the very beginning of  
22 conceptualizing it through public comment and approving  
23 the actual application for the waiver.

24          Q. I see. And so thinking about CMS's role  
25 specifically as it relates to gender confirming care, to

1 your knowledge does CMS require that gender confirming  
2 care be excluded from any state Medicaid plan?

3 A. Not that I'm aware of.

4 Q. Okay. And are you aware of any other state  
5 Medicaid plans that include or provide coverage for  
6 gender confirming care? And I should say, I know this  
7 is tricky, but you the representative of BMS, not you,  
8 Ms. Sarah Young, in your personal capacity.

9 A. And I apologize, I don't, I have not done  
10 research on what other states cover and the degree to  
11 which they do cover.

12 Q. Okay. And have you seen any discussion of that  
13 specific nature come through emails from other members  
14 in the leadership team?

15 A. Regarding other states?

16 Q. Other states, yes, yes, mm-hmm.

17 A. Not that I recall.

18 Q. Okay. And then when the Bureau for Medical  
19 Services undertook the change to cover hormone therapy,  
20 do you know if CMS was consulted in that change?

21 A. My understanding of that is that we had always  
22 covered the hormone therapy until a change was made at  
23 some point, and I don't know when that was, that change  
24 was made that we didn't cover it. So then when the  
25 change was made it was basically reverting back to the

1 regardless.

2 Q. Got it. Okay. Thank you. And then sort of  
3 zooming out again, if BMS excludes a particular service,  
4 are the MCO's required to abide by that exclusion?

5 A. Yes, if they are reimbursing out of their  
6 Medicaid money.

7 Q. Okay. Sorry, Ms. Young, give me just a second.  
8 How are you doing, Ms. Young, would you like a break now  
9 or would you like to continue for about another  
10 20 minutes and then we break for lunch?

11 A. I can continue.

12 Q. Okay. Thank you. So if you would look back  
13 again at the marked exhibits, the most recent one that  
14 we had open there, the second amended notice of  
15 deposition. We're still on Page 2. Oh, no, I'm sorry,  
16 we're on Page 3, if you would, and I'm looking at topic  
17 No. 5. Do you see it up there?

18 A. Yes, it begins with, "Your efforts to  
19 administer."

20 Q. It does. Could you just finish reading the rest  
21 of that topic for me, please.

22 A. "Your efforts to administer the Medicaid program  
23 in West Virginia and/or affirm your compliance with the  
24 Medicaid Act and the Patient Protection and Affordable  
25 Care Act."

1 that reimbursement is available to providers who provide  
2 those services to our members. We provide member  
3 education, provider education, we have a number of  
4 documents on our Website to guide those policies and  
5 procedures, and we contract with a number of systems and  
6 vendors that help us operationalize those policies.

7 Q. That was a nice succinct job for what I  
8 understand to be a very large undertaking. So it's fair  
9 to say then that BMS oversees all matters pertaining to  
10 Medicaid recipients' access to West Virginia Medicaid  
11 services?

12 A. Yes.

13 Q. Okay. Does BMS establish a process for  
14 individuals to apply for West Virginia Medicaid  
15 eligibility?

16 A. We do in partnership with a sister Bureau who  
17 actually does the application processing.

18 Q. Oh, I think you mentioned that earlier. What is  
19 the name of that Bureau?

20 A. The original name was Bureau For Children &  
21 Families, I believe their current name is Bureau for  
22 Family Assistance.

23 Q. Okay. And that is not housed within BMS?

24 A. No, it is under the umbrella of DHHR, it is  
25 separate and distinct from BMS.

1 interrogatories to Defendants William Crouch, Cynthia  
2 Beane and West Virginia Department of Health and Human  
3 Resources, Bureau for Medical Services interrogatories."  
4 Did I read that correctly?

5 A. Yes.

6 Q. Okay. So if you'll scroll down to what is  
7 numbered Page 3, please.

8 A. Okay.

9 Q. I'm looking at No. 11 there. If you'll just  
10 follow along, I'll read this one, although I suspect  
11 you're going to be better at knowing codes than I am,  
12 but I'll give it a shot. "Taking necessary steps to  
13 comply with applicable privacy laws for each year since  
14 2016 through the present, identify the number of health  
15 plan participants who have submitted one or more claims  
16 with a diagnosis code for gender dysphoria or gender  
17 incongruence. This includes, but is not limited to, the  
18 following diagnoses: F64.0, transsexualism (ICD-10-CM);  
19 F64.2, gender identity disorder of childhood  
20 (ICD-10-CM); F64.8, other gender identity disorders  
21 (ICD-10-CM); F64.9, gender identity disorder,  
22 unspecified (ICD-10-CM); HA60, gender incongruence of  
23 adolescence or adulthood (ICD-11); and HA61, gender  
24 incongruence of childhood (ICD-11)." Did I read that  
25 mostly correctly?

1 A. You did, yes.

2 Q. I'm sorry, I need to technically ask you, did I  
3 read that completely correctly?

4 A. Yes.

5 Q. Okay. Thank you. So the response begins on  
6 Page 3 and says there, "Upon information and belief,"  
7 and then continues to Page 4 there at the top. Can you  
8 just read to me the years and the corresponding number  
9 of members, please.

10 A. 2016, 30 members; 2017, 50 members; 2018, 243  
11 members; 2019, 439 members; 2020, 602 members; 2021  
12 through 9/30, 686 members."

13 Q. Thank you. So quickly, let me go back to this  
14 request here. I just want to make sure we have a shared  
15 understanding. So this is, plaintiffs asked defendants  
16 to identify the number of health plan participants who  
17 have submitted one or more claims with a diagnosis code  
18 for gender dysphoria or gender incongruence, do you  
19 understand that part of the request?

20 A. I do, yes.

21 Q. Good, thank you. So then let's just look at the  
22 number for 2021, please, and that's through September, I  
23 understand that to be September 30th of 2021. Is that  
24 how you understand that date reference there?

25 A. Yes, I would too, yes.

1 Technologies.

2 Q. Okay. And does BMS have, does BMS have access  
3 to Gainwell and Kepro? I guess what I mean is, the way  
4 you described the MCO's is that they have their own  
5 similar process, but it's separate and run through their  
6 systems. Is it accurate then to say that fee for  
7 service is under BMS and BMS does sort of provide  
8 oversight and management and can access both Gainwell  
9 and Kepro as necessary?

10 A. Yes, that's correct.

11 Q. Okay. All right. As far as you're aware, are  
12 there other vendors that BMS works with to understand  
13 and utilize accurate criteria in evaluating costs for  
14 reimbursement?

15 A. I believe that there are other vendors on the  
16 pharmacy side.

17 Q. Okay.

18 A. And they may have another person to speak to  
19 that. On the medical side we do engage consultants from  
20 time to time, we have a project management contract, so  
21 they might do research for us and help us with  
22 researching various topics. But offhand, I can't think  
23 of another contracted entity that helps with the medical  
24 evaluation.

25 Q. Sure. Let me just ask you about the one I'm

1 aware of. Are you familiar with InterQual?

2 A. Yes.

3 Q. And is that, what is InterQual, as you  
4 understand it?

5 A. As I understand at a very high level, InterQual  
6 criteria is a nationally accredited criteria for  
7 determining medical necessity for procedures and that is  
8 the criteria that our contractor Kepro uses.

9 Q. Oh, okay. And do you know if the MCO's use  
10 InterQual as well for those criteria for assessing  
11 medical necessity?

12 A. I don't know which specific criteria they use.  
13 I would believe that their contract states that they  
14 must use a nationally accredited criteria.

15 Q. Okay. What's the importance of using a  
16 nationally accredited criteria for those indicia?

17 A. I think it speaks to the validity and the  
18 quality of the product that it is nationally accredited.  
19 It's not a homegrown made-up process, it's something  
20 that is readily available and has been peer reviewed and  
21 all the things that might go into their accreditation.

22 Q. Thank you. Do you know how long, again,  
23 estimate, ballpark is fine, do you have a sense of how  
24 long Kepro has been using InterQual? And let's focus,  
25 I'm sorry, just on your tenure, I don't expect you to

1 answer beyond that.

2 A. Sure. I'm not aware of them using another  
3 criteria.

4 Q. Okay.

5 A. I've only ever heard of the InterQual criteria.

6 Q. Okay. Let me, I'm just going to introduce  
7 another exhibit here, if you'll give me just one moment.

8 (Exhibit 12 marked for identification.)

9 Q. So, Ms. Young, there should be an exhibit now in  
10 the marked exhibits folder labeled PL0012.

11 A. I can see it.

12 Q. Okay. I'm guessing not, but have you seen this  
13 document before?

14 A. No, I don't believe so.

15 Q. Okay. If you would please just take a, it's  
16 only, it's basically three pages, if you'll take just a  
17 quick minute and just review it to your satisfaction and  
18 then I've just got a couple of questions.

19 MS. CYRUS: Are there Bates numbers on  
20 that?

21 MR. CHARLES: No. I think it was in the  
22 production that came -- it is not Bates stamped, no.

23 MS. CYRUS: Okay. Thank you.

24 A. Okay.

25 Q. Okay. So what is this document?

1 a couple parts of this last paragraph, so bear with me.

2 "InterQual procedures criteria," do you see that there?

3 A. Yes.

4 Q. Okay. "InterQual procedures criteria are  
5 derived from the systematic continuous review and  
6 critical appraisal of the most current evidence based  
7 literature and include input from our independent panel  
8 of clinical experts. To generate the most appropriate  
9 recommendations, a comprehensive literature review of  
10 the clinical evidence was conducted." Did I read those  
11 two sentences accurately?

12 A. Yes.

13 Q. Okay. Thank you. I'm going to introduce a  
14 couple more exhibits here related to InterQual, if you'd  
15 just give me one moment. Okay. So looking at this  
16 information from InterQual and in the context of what  
17 you shared about what Kepro contracts with InterQual  
18 for, did BMS consider the recommendations included in  
19 InterQual's medical necessity criteria when determining  
20 that coverage for transsexual surgery or for sex  
21 transformation were not included in West Virginia  
22 Medicaid?

23 A. I can't speak to the practice when the decision  
24 was put in policy in 2004, but I can say that since then  
25 we would have not, we would have not reviewed the

1 criteria for noncovered services.

2 Q. Okay.

3 A. So I would imagine InterQual criteria includes  
4 every single possible procedure that could be performed  
5 and we would only have contracted with Kepro to review  
6 the criteria for covered services.

7 Q. Okay. So in terms of the scope of this topic as  
8 it refers to denials of coverage, I know we've talked a  
9 number of times about what coverage isn't provided under  
10 the West Virginia Medicaid plan. Do you know or are you  
11 aware of any instances where BMS has ever communicated  
12 with a managed care organization regarding denials for  
13 surgical procedures for the treatment of gender  
14 dysphoria when it's otherwise medically indicated? Let  
15 me rephrase, I'm sorry, I made that a little  
16 complicated.

17 So are you aware of a time where an MCO or, I  
18 mean, obviously a person working for the managed care  
19 organization has reached out to BMS to say, you know, we  
20 have this person, this procedure is medically indicated  
21 for them, we understand this limitation in the coverage,  
22 what should we do, are you aware of any instances of  
23 that kind of request coming from an MCO?

24 A. Not off the top of my head. I mean, we do  
25 receive a number of inquiries, you know, to confirm what

1           A. Again, I considered everything that we have  
2 written on the topic and I was aware that other  
3 individuals on the leadership team were aware of this  
4 and, you know, in the absence of anyone saying that this  
5 is illegal or against regulations, I believe it to be  
6 legal.

7           Q. Okay. So were you able to find any research  
8 that was done by BMS about the legality of the exclusion  
9 of gender confirming care in West Virginia Medicaid?

10          A. No, nothing specific to this.

11          Q. So are you aware of any research that was  
12 undertaken to support the particular coverage decision?

13          A. No, it was honestly more the absence of any  
14 guidance or notification from CMS that I found to speak  
15 to the legality of it.

16          Q. Okay. Let me back up just a little bit. From  
17 the previous topic that we were discussing, you were not  
18 able to find, don't know of any reasons why the  
19 exclusion was developed?

20          A. Correct.

21          Q. Okay. And you also were not able to find and  
22 are not aware of any, what was considered I guess in  
23 making the decision to include that exclusion in the  
24 Medicaid manuals we were discussing?

25          A. Correct.

1 over 600,000 individuals, and so as I spoke, the limited  
2 budget that we have, we have to ensure that it will  
3 cover the benefits that we have promised and outlined in  
4 our policies that we do cover. So the addition of  
5 anything extra or anything on top of that is what limits  
6 us, you know, we have to be able to do what we said we  
7 were going to do.

8 Q. Sure. And has BMS done research about the cost  
9 of providing gender affirming service in West Virginia  
10 Medicaid?

11 A. Not that I'm aware of.

12 Q. Sorry, can we go back. You said there was a  
13 match that happened. Can you just, as you've been doing  
14 such a generous job of today, explain generally to me  
15 what that refers to?

16 A. Sure. So each state is allocated a federal  
17 match based on a bunch of factors, but basically the  
18 economics of the state. So states that are the poorer  
19 states get a greater match. I believe the bottom is  
20 50/50, so prosperous states get a 50 percent match on  
21 the state dollars. So our budget, the amount of claims  
22 that we have to reimburse or capitation that we have to  
23 pay on a monthly basis we are required, generally  
24 speaking let's say our match is 75 percent, so we would  
25 be required to pay 25 percent of that and we can draw

1 for the treatment of gender dysphoria, that claim would  
2 not be denied by BMS solely on the basis that it was for  
3 the treatment of gender confirming care?

4 A. Correct.

5 Q. Okay. So for those, for that particular coding,  
6 the gender dysphoria coding of those visits is accepted,  
7 not rejected by BMS West Virginia Medicaid?

8 A. Correct.

9 Q. Okay. And as far as you know, does BMS cover  
10 office visits related to gender confirming care?

11 A. Can you be specific as to the type of office.

12 Q. Sure. So, for example, I know this is tricky,  
13 but I'm asking about the office visits to an  
14 endocrinologist, not for the purpose of prescribing  
15 hormones, but for the purpose of monitoring, blood work,  
16 kidney, kidney and liver testing, thyroid. Would those  
17 kind of medical visits, again, I'm trying not to get  
18 into what the other witness is going to talk about,  
19 would those visits be covered under the existing policy?

20 A. Yes.

21 Q. Okay. And as far as you're aware, Ms. Young,  
22 has BMS in its administration of West Virginia Medicaid  
23 provided any partial or total coverage for any surgical  
24 procedure for the treatment of gender dysphoria?

25 A. Not that I'm aware of.

1 Q. Okay. But as you said earlier today, if the  
2 diagnostic code was something different, given other  
3 variables we've discussed, it has the potential to be  
4 covered?

5 A. Correct, yes.

6 Q. Okay.

7 (Exhibit 19 marked for identification.)

8 Q. I'm going to introduce a couple of documents.  
9 There should be another exhibit there in the shared  
10 folder.

11 MR. CHARLES: And this will be marked,  
12 Kelley, as Plaintiff's Exhibit 0019.

13 Q. So as a part of your testimony in topic 18, you  
14 have been designated to testify in regard to BMS's  
15 response to request for production No. 2, and that is  
16 included on this document that I'm showing you right  
17 now. Do you have it in front of you?

18 A. I do, yes.

19 Q. Okay. And do you have that same  
20 understanding -- sorry, I should be asking you. Do you  
21 understand that you've been designated to testify about  
22 request for production No. 2?

23 A. Yes.

24 Q. Okay. So I'll just read this, "Defendants'  
25 seventh supplemental response to plaintiffs' first set

REPORTER'S CERTIFICATE

STATE OF MINNESOTA )  
 ) ss.  
COUNTY OF WASHINGTON )

I hereby certify that I reported the Zoom deposition of Sarah Young on the 11th day of March 2022, and that the witness was by me first duly sworn to tell the whole truth;

That the testimony was transcribed by me and is a true record of the testimony of the witness;

That the cost of the original has been charged to the party who noticed the deposition, and that all parties who ordered copies have been charged at the same rate for such copies;

That I am not a relative or employee or attorney or counsel of any of the parties, or a relative or employee of such attorney or counsel;

That I am not financially interested in the action and have no contract with the parties, attorneys, or persons with an interest in the action that affects or has a substantial tendency to affect my impartiality;

That the right to read and sign the deposition by the witness was reserved.

WITNESS MY HAND AND SEAL THIS 11th day of March 2022.

Kelley E. Zilles, RPR  
Notary Public, Washington County, Minnesota  
My commission expires 1-31-2025

1 gender-related conditions?

2 ATTORNEY SMITH: Object to form.

3 A. So I just was -- I thought about that  
4 and looked at patients that I saw over a couple  
5 of days, and about two-thirds of my private  
6 practice patients are transgender.

7 Q. Do all of those patients who are  
8 transgender treat with you for gender dysphoria  
9 or gender incongruence?

10 ATTORNEY SMITH: Object to form.

11 A. No. Many of them are transgender but  
12 are seeing me for -- for example, mood and  
13 anxiety disorders or other psychiatric  
14 conditions.

15 Q. And I think that from reading your  
16 report there is a difference between someone  
17 having a transgender identity and someone  
18 having gender dysphoria; is that correct?

19 ATTORNEY SMITH: Object to form.

20 A. Yes.

21 Q. Can you explain what that difference  
22 is?

23 A. Sure. So being transgender is an  
24 identity. It's how someone identifies. And

Confidential

Page 9

1 gender dysphoria is used both to describe a  
2 symptom, but also to describe a DSM-5 disorder  
3 of gender dysphoria.

4 Q. Is there a difference between gender  
5 dysphoria as a symptom and gender dysphoria as  
6 a diagnosis?

7 ATTORNEY SMITH: Object to form.

8 A. Yes. The DSM diagnosis requires that  
9 the person be -- the distress that somebody is  
10 experiencing from gender dysphoria be  
11 clinically significant or affecting social or  
12 occupational -- causing social or occupational  
13 impairment.

14 Q. Does clinical significance mean that  
15 it's causing those social or occupational  
16 impairments?

17 A. So it can be social or occupational  
18 impairment, or it can be so much distress that  
19 you go to the doctor. So that's what's  
20 clinically significant.

21 Q. So there are patients who experience  
22 gender dysphoria as a symptom, but do not have  
23 the clinical significance that rises to the  
24 level of a DSM-5 diagnosis; is that correct?

Confidential

Page 18

1 M.D. Do you have Exhibit 1 in front of you?

2 A. Yes.

3 Q. I'm looking at page 5, paragraph 21.

4 And I'll read the first sentence, Gender  
5 identity is a person's deeply felt, inherent  
6 sense of being a girl, woman or female, a man  
7 or male, a blend of male or female or an  
8 alternative gender.

9 And that is citing to the American  
10 Psychological Association, 2015.

11 A. Yes.

12 Q. And the next sentence says, Gender  
13 identity does not always align with sex  
14 assigned at birth. Gender identity, which has  
15 biological bases, is not a product of external  
16 influence and not subject to voluntary change.

17 First, did I read that correctly?

18 A. Yes.

19 Q. Okay. So when you were talking about  
20 cultural psychiatry and taking into  
21 consideration the experience of individuals  
22 with transgender identities, you talked about  
23 some external things, such as rejection from  
24 family, peers, school, health experiences.

Confidential

Page 19

1           And I'm asking if you can explain to me  
2           the difference between those external  
3           influences and the internal sense of self that  
4           you have stated as the definition of a gender  
5           identity?

6           ATTORNEY SMITH: Object to form.

7           A.     Sure. So as described in this  
8           definition from the American Psychological  
9           Association, gender identity is an internal  
10          sense of self. Societal discrimination is --  
11          or rejection is people's reactions to someone's  
12          perceived identity. So, you know, there is an  
13          internal experience that a transgender person  
14          has as well as, you know, an experience in  
15          society.

16          Q.     And I think that I'm understanding you  
17          correctly. What my real question here is, is I  
18          guess about the reasons that gender identity  
19          exists at all. Can you explain what actually  
20          forms gender identity?

21          ATTORNEY SMITH: Object to form.

22          A.     So the -- there isn't a simple answer  
23          in terms of what forms a gender identity. You  
24          know, people know that there are biological

Confidential

Page 20

1 underpinnings. And there have been sometimes  
2 interesting differences that illuminate what  
3 forms gender identity. Somebody with complete  
4 androgen insensitivity for example is XY in  
5 terms of their chromosome, but assigned female  
6 at birth. And they may not even know that  
7 their chromosomally XY until they go to a  
8 fertility doctor in adulthood.

9 So what we have -- I'd say we have  
10 ideas of components, but it certainly -- part  
11 of our ongoing learning experience of all the  
12 different factors that lead to someone's  
13 particular gender identity.

14 Q. What percentage of transgender  
15 individuals have that androgen -- is it --  
16 instability, was that the word you used?

17 ATTORNEY SMITH: Object to form.

18 A. Complete androgen insensitivity. Most  
19 of those people do not identify as transgender.  
20 Most people with complete androgen  
21 insensitivity identify as female. And it -- so  
22 that's a case where somebody is chromosomally  
23 XY, but their cells don't have androgen  
24 receptors. And so the presence of androgens

Page 49

1 bipolar disorder.

2 So those are examples certainly where,  
3 you know, mental disorder would preclude  
4 gender-affirming care at least until it was --  
5 until or unless it could be treated so they  
6 were able to give informed consent.

7 Q. Again, if I'm understanding correctly,  
8 it's not that someone with bipolar disorder,  
9 that means that they can't have  
10 gender-affirming care? It's that their bipolar  
11 disorder has to be stable before they're  
12 provided gender-affirming care?

13 ATTORNEY SMITH: Object to form.

14 A. Yes. And in Standards of Care 7, it's  
15 listed as being, you know -- well controlled is  
16 the adjective that they use. But the  
17 importance is that they -- that they're able to  
18 give informed consent, that they're able to  
19 participate in care in terms of aspects of what  
20 is well controlled.

21 Q. And since you just mentioned it, I'll  
22 ask you a question. The Standards of Care,  
23 that's a bit of a misnomer, isn't it?

24 ATTORNEY SMITH: Object to form.

Confidential

Page 50

1 A. Was that a question?

2 Q. Yes.

3 A. Well --

4 ATTORNEY SMITH: Object to form.

5 A. -- I think if we look historically that  
6 WPATH and its predecessor organization  
7 established the Standards of Care as standards  
8 of care for the field. I think that they've  
9 also been described as practice guidelines.

10 Q. I don't think anyone will disagree that  
11 they're practice guidelines. But just saying  
12 we publish the Standards of Care probably  
13 doesn't mean that it is the standard of care  
14 and that if someone does not comply with that  
15 that they're committing malpractice, right?

16 ATTORNEY SMITH: Object to form.

17 A. So I think there is still -- there's  
18 still a belief that they are trying to set  
19 standards of care as well as practice  
20 guidelines. And within the standards of care,  
21 there certainly is a flexibility and deference  
22 to clinical judgment.

23 So it's not something that is -- well,  
24 I don't remember exactly how you put it. But I
