9

IN THE UNITED STATES DISTRICT COURT
FOR THE NORTHERN DISTRICT OF FLORIDA
TALLAHASSEE DIVISION

AUGUST DEKKER, et al.,

Plaintiffs,

v.
MAF

Case No. 4:22-cv-00325-RH-

SIMONE MARSTILLER, et al.,

Defendants.

Expert Declaration of G. Kevin Donovan, M.D., M.A.

I, G. Kevin Donovan, M.D., M.A., hereby declare and state as follows:

1. I am over the age of 18. I have actual knowledge of the matters stated herein. If called to testify in this matter, I would testify truthfully and based on my expert opinion.

2. I have been retained by counsel for defendants as an expert in connection with the above captioned litigation. The purpose of this report is to summarize a report that I prepared in support of the Agency for Healthcare Administration's Generally Accepted Professional Medical Standards on the Treatment of Gender Dysphoria. A copy of my report is attached and incorporated by reference as Exhibit "A" to this declaration. I also respond to criticisms of my report made by Dan H. Karasic, M.D.

I. Background and Qualifications

Qualifications

3. The information provided regarding my professional background, experiences, publications, and presentations are detailed in my curriculum vitae (CV). A true and correct copy of my most up-to-date CV is attached.

4. I am a Professor Emeritus of Pediatrics at Georgetown University School of Medicine, and Director emeritus of the Pellegrino Center for Clinical Bioethics at Georgetown University. I have been on the Georgetown Medical School faculty since 2012. Prior to that, I was on the faculty at the University of Oklahoma medical school and Baylor College of Medicine, for over 30 years combined.

5. I received my medical training at the University of Oklahoma, and Baylor College of Medicine, and further training in medical research at the National Institutes of Health in Bethesda Maryland.

6. I trained in medical ethics at Georgetown University, Kennedy Institute of Ethics and completed my Masters in bioethics at the University of Oklahoma. I was the founding director of the Oklahoma Bioethics Center.

7. I have chaired the Institutional Research Ethics Board (IRB) for 17 years, at SFH. This is the designated organization that oversees the safety of human subjects participating in medical research.

8. My professional interests in bioethics include informed consent, shared decision-making, beginning of life issues, end-of-life issues, brain death, as well as medical research.

9. I have studied and been consulted on issues surrounding transgender patients, both minors and adults, locally and nationally.

10. For ethical as well as medical reasons, I have neither prescribed medications nor referred for surgery any patients that consider themselves transgender.

11. Subsequently, none of my opinions are biased by professional income being generated by these activities nor by my professional reputation relying primarily on these diagnoses.

Compensation

12. I am being compensated for my work on this matter at a rate of \$350 per hour for my expert opinion and support services. My compensation in no way depends on the outcome of the litigation, the opinions I express, or testimony that I may provide.

Basis for Opinions

13. In preparing my report, I have relied on by years of experience as a physician and medical ethicist, my review of the literature as documented in my report, and established principles of medical ethics.

14. My perspective is valuable as an unbiased observer. It is analogous to our work on the evaluation of the issues surrounding the diagnosis of brain death: when questions have arisen about the diagnosis and practice in brain death, which is the primary pathway towards organ donation, it has been seen as preferable to have these issues examined and evaluated by unbiased observers more than by transplant surgeons or organ recipients.

15. Likewise, it is difficult for one whose professional reputation and financial compensation has depended heavily on a single diagnosis to maintain sufficient distance to render a completely unbiased opinion about it.

The Status of the Question

16. The biggest problem with a diagnosis of transgenderism is the conceptual one. When a biological male presents himself, declaring that he is in fact a woman, (or the reverse) the commonsense response is not to take this at face value. This would be true for any similar aberration. Our first response would not be to immediately clothe him in a dress, any more than we would attempt to clothe him in feathers if he believed he were a chicken. This would represent a misplaced and false compassion.

17. Nevertheless, this is the approach now being taken by many psychiatrists and surgeons and endorsed by medical societies. Perhaps as a result,

the number of young Americans describing themselves as “transgender” has exploded over the past decade, increasing by a factor of 20 to 40, based on surveys by the Centers for Disease Control and Prevention.

18. Concomitantly, there has also been a shift from a predominance of young males presenting early, 80% of whom would historically revert in their self-perception by the time they had completed puberty. We are now seeing much larger number of females. The two leading explanations for this unexplained phenomenon are greater social acceptance, or social contagion.

19. Beyond a patient’s self-perception, there is no biochemical, hormonal, radiological, or genetic basis for confirming or differentiating these individuals.

20. The terminology applied to these patients has been changed from “transsexual” to gender identity disorder, to gender dysphoria, and now the term transgender is commonly favored. It is far broader, and can encompass any nonconformity with rigid traditional sex roles.

21. The treatment approach is to provide puberty blockers for young prepubertal patients, followed by cross sex hormones, followed by various levels of surgical reconstruction as determined by the patient, including castration, penectomy, mastectomy, and hysterectomy.

22. The enthusiasm for these interventions has progressed to the point where an initial psychological evaluation of the patient has often become minimal or almost nonexistent. Planned Parenthood clinics, which have become widely advertised providers of these hormonal interventions, have promised a prescription for patients after a single visit, sometimes within the same day.

23. One justification for the willingness to initiate this process with such alacrity is the claimed expectation of great benefit with minimal harm. This is particularly true in the provision of puberty blockers for the youngest patients, who are told that the effects will be completely reversible. However, with further study it has come to light that complications such as arrested maturation, physiological changes, fertility challenges, hematological changes, and osteoporosis can all result from treatment with these puberty blockers and may be irreversible.

RESPONSE TO DR. KARASIC

24. My discussion of the ethics of providing transgender care has been criticized by Dr. Dan Karasic. He views Florida's actions in terminating Medicaid coverage of gender affirming care as problematic for those who were previously approved for that same coverage. He states "Florida's actions amount to forced detransition" and goes on to admit "there has been little research on those forced to detransition". He fails to see that those pathways upon which he has set patients for "gender affirming care" should have included protocols for the "detransitioning" that patients are already voluntarily seeking in increasing numbers. To place patients on such a one-way conveyor belt of treatment is to fail to account for all their needs, an ethical as well as a medical failure on their part. It would be analogous in the present opioid epidemic to treating a patient's pain with opioids but not knowing how to wean them off successfully. Were such an exit strategy in place, it could be used for all who needed it. This would include not just patients who lose their insurance coverage, but could also extend to patients who develop neurologic injury significant enough to cause a loss of "gender identity". Would a patient in an ICU or a nursing home situation continue to receive these treatments? To begin treatment of such patients without knowing how to successfully discontinue such treatment, and to not warn patients of this issue in advance, again reflects unfavorably on the issue of informed consent for the treatment of patients identifying as transgender.

CONCLUSION

25. The nature of true medical science is to form a hypothesis, test the proposed interventions, and evaluate the results both positive and negative, and to continue to be open to questioning the process going forward. In the present climate, this does not appear to be possible for the approach to patients claiming to be transgender. Questioning any part of the diagnosis or treatment approach has triggered a massive and vituperative response. Even those wanting to use only a psychotherapeutic approach without progressing to other stages have been condemned as attempting "conversion therapy". In extreme cases, this has been declared illegal.

26. There is no obvious explanation for this lopsided state of affairs. There is unfortunately some precedent. In a previous generation, it was proposed and accepted for a time that serious mental illness could be treated by frontal lobotomy, i.e., drilling into the front of the brain. This was in fact done to the sister of Pres. John F. Kennedy, and she subsequently was rendered permanently mentally deficient. Enthusiasm for this approach waned, and it is rarely discussed today. Our responsibility is to ensure that we are not living in an analogous time, triggered by medical hubris.

27. The greatest safeguard against this type of medical misadventure is to be completely open about what we know, and what we do not yet know. When certainty is lacking about the potential benefits and harms of a therapeutic approach, treatment should be conducted with fully informed consent and within the context of clinical trials. This should have been done before the widespread employment of hormonal and surgical interventions for what appears to be a primarily psychological problem. The greatest difficulty occurs when you find that you have your cart before the horse. You are not making progress when you are moving rapidly, but in the wrong direction.

I declare under penalty of perjury under the laws of the United States of America and the Florida that the foregoing is true and correct. Executed this 2d day of October, 2022.

 Norman Kretchmer, M.D.

**PROFESSIONAL
 EXPERIENCE**

Title: Director, Pellegrino Center for Clinical Bioethics
 Georgetown University Medical Center
 Professor, Department of Pediatrics
 Address: 4000 Reservoir Rd NW
 Washington, DC 20007
 Dates of Service: 2012-2020

Title: Senior Clinical Scholar
 Institution: Kennedy Institute of Ethics
 Georgetown University
 Washington, D.C.
 Dates of Service: 2015-2021

Title: Director, Oklahoma Bioethics Center
 Institution: The University of Oklahoma
 College of Medicine, Tulsa
 Address: 4502 East 41st St; Tulsa, OK 74135
 Date(s) of Service: 1990 to 2012

Title: Professor and (Interim)Chair
 Department of Pediatrics
 The University of Oklahoma
 College of Medicine, Tulsa, 2009-2011

Institution: Professor and Vice-Chair
The University of Oklahoma
College of Medicine, Tulsa
Address: 4502 East 41st St; Tulsa, OK 74135
Date(s) of Service: 1996 to 2012

Title: Chief, Division of Pediatric
Gastroenterology and Nutrition
Institution: The University of Oklahoma
College of Medicine, Tulsa
Address: 4502 East 41st St; Tulsa, OK 74135
Date(s) of Service: 2007 to 2012

Title: Chief, Division of Pediatric Gastroenterology
Department of Pediatrics
Institution: The University of Oklahoma
College of Medicine, Tulsa
Address: 4502 East 41st St; Tulsa, OK 74135
Date(s) of Service: 1982-2003

Title: Associate Professor (Tenured)
Department of Pediatrics
Institution: The University of Oklahoma
College of Medicine, Tulsa
Address: 4502 East 41st St; Tulsa, OK 74135
Date(s) of Service: 1988-1996

Title: Assistant Professor
Department of Pediatrics
Institution: The University of Oklahoma
College of Medicine, Tulsa
Address: 4502 East 41st St; Tulsa, OK 74135
Date(s) of Service: 1982-1988

Title: Assistant Professor
Department of Pediatrics
Institution: Baylor College of Medicine
Address: Houston, TX
Date(s) of Service: 1980-1982

Title: Clinical Associate
Institution: National Institute of Child Health
and Human Development, NIH
Address: Bethesda, MD
Date(s) of Service: 1979-1980

**HONORS and
AWARDS**

Award:	Gold Lifetime Humanism Honor Society Award for Exemplary Demonstration of Respect for Human Beings through the Practice and Teaching of Medicine
Institution/Organization:	The Gold Foundation
Date:	August 2005
Award:	Honored Member
Institution/Organization:	American Registry of Outstanding Professionals
Date:	2005
Award:	Humanism in Medicine Award: Recognizing the Integration of Humanism in the Delivery of Health Care to Patients and Their Families
Institution/Organization:	Healthcare Foundation of New Jersey/ Gold Humanism Society
Date:	2000
Award:	Knighthood: Knight Grand Cross Vatican
Institution/Organization:	Equestrian Order of the Holy Sepulcher of Jerusalem
Date:	1994
Award:	Listed
Institution/Organization:	Best Doctors in America Database
Date:	2005
Award:	Listed
Institution/Organization:	Who's Who in the Southwest
Date:	1994 to Present
Award:	Listed
Institution/Organization:	Who's Who Worldwide
Date:	1992 to Present
Award:	Founder's Award for Outstanding Contributions to Research and Medicine
Institution/Organization:	University of Tulsa, 1992
